INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Fibabanka A.Ş.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheet of Fibabanka A.Ş. (“the Bank”) and its financial subsidiary (together “the Group”) as at 31 December 2014 and the related consolidated statements of income, cash flows and changes in shareholders’ equity for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management’s Responsibility for the Consolidated Financial Statements

The Board of Directors of the Bank is responsible for the preparation and fair presentation of the financial statements in accordance with the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333 and Turkish Accounting Standards, Turkish Financial Reporting Standards and other regulations, communiqués and circulars announced by the Banking Regulation and Supervision Board in respect of accounting and financial reporting and pronouncements made by the Banking Regulation and Supervision Agency. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors’ Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the regulation on “The Licensing and Operations of Audit Firms in Banking” published in the Official Gazette No. 26333 on 1 November 2006 and in accordance with Independent Auditing Standards which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority (“POA”). We planned and performed our audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgement, including the consideration of the effectiveness of internal control and appropriateness of accounting policies applied relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at 31 December 2014 and the results of its operations and its cash flows for the year then ended in accordance with the prevailing accounting principles and standards set out as per the Article 37 and 38 of the Banking Act No: 5411, and other regulations, communiqués and circulars announced by the Banking Regulation and Supervision Board in respect of accounting and financial reporting and pronouncements made by the Banking Regulation and Supervision Agency.

Report on Other Legal and Regulatory Requirements

In accordance with paragraph four of the Article 402 of the Turkish Commercial Code No. 6102 (“TCC”), nothing has come to our attention that may cause us to believe that the Bank’s set of accounts and financial statements prepared for the period 1 January-31 December 2014 does not comply with TCC and the provisions of the Bank’s articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

Additional Paragraph for English Translation

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Group financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

SECTION THREE

ACCOUNTING PRINCIPLES

I. Explanations on the basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

As per the Article 37 of “Accounting and Recording Rules” of the Turkish Banking Law No. 5411 published on the Official Gazette no.25983 dated 1 November 2005 and became effective, the Bank keeps its accounting records and prepares its consolidated financial statements and the related footnotes in accordance with accounting and valuation standards described in “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published by the Banking Regulatory and Supervisory Agency (“BRSA”) and in effect since 1 November 2006, Turkish Accounting Standards (“TAS”), Turkish Financial Reporting Standards (“TFRS”) and the related statements and guidance announced by Public Oversight Accounting and Auditing Standards Authority (“POA”).

The financial statements are prepared in thousands of TL based on the historical cost convention, except for the financial assets and liabilities carried at fair value.

2. Accounting policies and valuation principles applied in preparation of consolidated financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in TAS, TFRS, the Communiqué “Principles and Procedures on the Accounting Procedures and Retention of Banking Documentation” published in the Official Gazette numbered 26333 on 1 November 2006, the Communiqué “Publicly Disclosed Financial Statements and the Accompanying Explanations and Footnotes by Banks” published in the Official Gazette numbered 28337 on 28 June 2012. The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXIV below.

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within pre-determined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

2. Foreign currency transactions**2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements**

The Group recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions as of 31 December 2014 are translated into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the period and the related currency translation differences are recognized as foreign exchange gains and losses.

As at the end of the related periods, the Bank’s foreign currency exchange rates are as follows:

	31 December 2014	31 December 2013
US Dollar	2.3189	2.1343
Euro	2.8207	2.9365

2.2 Foreign exchange gains and losses included in the income statement

As of 31 December 2014, net foreign exchange losses included in the income statement amounts is TL 5,134 (1 January - 31 December 2013: TL 1,843 gain).

III. Explanations on subsidiary

Fiba Portföy Yönetimi A.Ş. (“Fiba Portföy”); the subsidiary of the Bank established in November 2013; was consolidated by using full consolidation method in the consolidated financial statements dated 31 December 2014. Fibabanka A.Ş. and Fiba Portföy Yönetimi A.Ş. together are referred to as “the Group” in the report.

Capital Markets Board (“CMB”) approved Fiba Portföy’s licence application for portfolio management activity and the licence numbered PYŞ. PY 56/1267 and dated 12 December 2013 was assigned to Fiba Portföy.

The objective of Fiba Portföy is to manage portfolios consisting of financial assets as a representative by entering into portfolio management contracts in accordance with CMB laws and relevant regulation and also to perform capital markets operations. Besides, Fiba Portföy can manage the portfolios of local and foreign investment funds, investment trusts, local/foreign real persons, brokerage companies and other similar legal entities within the context of the related regulation as portfolio management activities. On the condition that, the requirements of the Capital Markets regulations are fulfilled and necessary approvals and licences from the Capital Markets Board are obtained; Fiba Portföy can also perform investment advisory services, market consultancy in Borsa İstanbul A.Ş. Emerging Companies Market, and intermediary services for the trading of investment fund certificates. The Bank owns 99% of the equity of Fiba Portföy whose headquarters is located in Istanbul.

According to full consolidation method, the subsidiary’s 100% of assets, liabilities, revenues, expenditures and off-balance sheet liabilities were combined with the Parent Bank’s assets, liabilities, revenues, expenditures and off-balance sheet liabilities. Book value of the investment in the Group’s subsidiary and the portion of the cost of subsidiary’s capital belonging to the Group are eliminated. All intragroup balances and income and expenses relating to transactions between the Bank and its subsidiary are eliminated in full on consolidation. Minority shares in the net income of consolidated subsidiary determined the net income of the Group and were demonstrated as a separate item in the income statement. Minority shares were presented under equity in the consolidated financial statement.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

IV. Explanations on forward transactions, options and derivative instruments

The Parent Bank's derivative transactions mainly consist of foreign currency swaps, foreign currency options and forward foreign currency purchase/sale contracts. The Parent Bank does not have any embedded derivatives separated from the host contract.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps and options are classified as "hedging purpose" and "trading purpose" transactions. Derivatives are initially recognized at cost including the transaction costs. Also, the assets and liabilities arising from the derivative transactions are recorded as off-balance sheet items at their contractual notional amounts. The derivative transactions held for trading are valued at fair-value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for trading" or "derivative financial liabilities held for trading" items of the balance sheet depending on the difference's being positive or negative. The derivative transactions held for hedging are valued at fair value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for hedging purpose" or "derivative financial liabilities held for hedging" items of the balance sheet depending on the difference's being positive or negative. Gains and losses arising from a change in the fair value are recognized in the income statement.

V. Explanations on interest income and expenses

Interest income and expenses calculated using internal rate of return are recognized on accrual basis. In accordance with Banking Act No: 5411 Articles 53 and 93, based on the prevailing communique, interest accruals on loans becoming non-performing are reversed and also ceased to accrue interest on such loans until these loans are classified as performing or collected.

VI. Explanations on fee and commission income and expenses

Fee and commission income / expenses are recognized based on cash basis or accrual basis upon the nature of the transaction.

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into four groups as financial assets at fair value through profit or loss, held to maturity investments, loans and receivables and available-for-sale financial assets.

1. Financial assets at fair value through profit or loss

1.1 *Financial assets held for trading*

Financial assets held for trading are recognized at their fair values and any gain or losses resulting from such valuation are recorded in the profit and loss accounts. Interests received during the holding period of such financial assets and the difference between the amortized cost (calculated using internal rate of return) and the acquisition cost are recognized as interest income in the income statement. Gains and losses on sale of held for trading financial assets before their maturity and the difference between market value and amortized cost (calculated using internal rate of return) of such financial assets are recognized in gains and losses on securities trading under income statement.

1.2 *Financial assets at fair value through profit or loss*

The Group does not have any financial assets designated as "financial assets at fair value through profit or loss".

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

2. Available for sale financial assets

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables. Financial assets available-for-sale are measured at their fair values subsequently.

Interest income of the investments securities available-for-sale; based on the internal rate of return; are included in the income statement. Unrecognized gain/losses derived from the difference between their fair value and the discounted values are recorded in "Marketable Securities Revaluation Reserve" under the shareholders' equity. In case of disposal, gains/losses recognized under equity are realized and recognized directly in the income statement.

Purchase and sale transactions of securities are accounted for on a settlement date basis.

3. Held to maturity investments

The Group does not have any held to maturity investments as of 31 December 2014.

4. Loans and receivables

Loans and receivables are financial assets, which are generated by providing funds, goods or services to the debtor.

Loans and receivables are financial assets with fixed or determinable repayment schedules and they are not traded in an active market.

Loans are initially measured at their acquisition cost and subsequently measured at amortized cost calculated using effective interest rate method in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". Duty charges, transaction fees and other expenses paid for the collaterals of the loans are considered as part of the transaction costs and charged to the customers.

VIII. Explanations on impairment of financial assets

Financial asset or groups of financial assets are reviewed by the Group at each balance sheet date to determine whether there is objective evidence of impairment. If any such indicator exists, the Group determines the amount of impairment.

Impairment loss incurs if, and only if, there is objective evidence that the reliably estimated future cash flows of financial asset or group of financial assets are adversely affected by an event(s) ("loss event(s)") incurred subsequent to initial recognition.

The Group provides specific and general allowances for loan and other receivables classified in accordance with the Communiqué published on the Official Gazette No.2633 dated November 1, 2006. The allowances are recorded in the income statement of the related period.

IX. Explanations on offsetting financial instruments

If the fair values of equity shares held for trading and quoted at the stock exchanges are lower than their carrying values, allowance for impairment is recognized and the recognized impairment is offset with the related assets on the face of the balance sheet.

Specific allowances for non-performing loan and other receivables are provided in accordance with "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves". Such allowances are offset with loans under follow-up on the asset side. Other financial assets and liabilities are offset when the Bank has a legally enforceable right to offset.

1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit and loss”, “Financial assets available for sale” or “Investments held to maturity” according to their purposes to be held in the Group’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities, and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

Reverse repo transactions are recorded under the “Receivables from reverse repurchase agreements” account.

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value. Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a part of the Bank’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Group consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33.3%.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Asset	Estimated useful lives (Years)	Depreciation Rate (%)
Safe boxes	2-50	2-50
Vehicles	5	20
Other Tangible Assets	4-50	2-25

XIV. Explanations on leasing transactions

Duration of financial leasing contracts is maximum 4 years. Tangible assets obtained via financial leasing are classified as the Group's assets or liabilities resulting from financial leasing according to its nature. Assets obtained via financial leasing are depreciated in accordance with the principals for tangible assets. Rent payments for operating leases are recorded at equal amounts as expense during the payment period.

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Employee Benefits. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in financial statements. All actuarial gains and losses are recognized immediately through other comprehensive income. As of 31 December 2014, the Bank's severance payment provision is calculated by an actuarial firm and the effect of TL 828 actuarial loss (after deferred tax effect) is recognized in the "Other Capital Reserves" line in the Shareholders' Equity. The actuarial loss of TL 1,346 was recognized in the "Prior Years Profit/Loss" in the prior year and reclassified into the "Other Capital Reserves" line in the current year as the Bank selected to account the actuarial losses in the "Other Capital Reserves". The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate is as 8.20%, inflation rate as 6.00% and real rate of rise in salary as 0.00%.
- As ceiling salary amount TL 3,438.22 (full basis TL) (in use as of 31 December 2014) is based on.
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

XVIII. Explanations on taxation

1. Current tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

2. Deferred tax

The Group calculates and recognizes tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

As of 31 December 2014, TL 2,236 of deferred tax asset was recognized in the Group's financial statements. (31 December 2013: TL 13,266). The deferred tax asset is calculated as the net of taxable and deductible temporary differences.

Deferred tax benefit/ (charge) is recognized within "Deferred tax benefit/ (charge)" in the income statement. As of 31 December 2014, deferred tax charge is TL 7,316 (1 January - 31 December 2013: TL 1,479). Deferred tax effects of the transactions and events recognized directly in the shareholders' equity are also recognized directly in the shareholders' equity which is TL 2,634 (benefit) as of 31 December 2014 (31 December 2013: TL 6,350 benefit).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY-31 DECEMBER 2014**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated.)

3. Transfer pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices on time.

XIX. Additional explanations on borrowings

The Group provides resources from both domestic and foreign foundations and real persons through borrowings and securities issued.

Borrowing funds are initially measured at acquisition cost and subsequently measured at amortized cost. In the accompanying financial statements, foreign currency denominated borrowing funds are translated to Turkish Lira with the Group’s spot foreign exchange buying rates and interest expenses incurred during the period relating to the borrowing funds are recognized in income statement.

The Group applies general hedging techniques for mitigating the liquidity risk, interest rate risk and currency risk of the borrowing funds. Those techniques do not meet the definition of hedge accounting according to TAS 39. There are no convertible bonds or any other bonds issued by the Bank as at the balance sheet date.

XX. Explanations on share certificates issued

None.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXII. Explanation on government incentives

As of the balance sheet date, the Group does not have any government incentives.

SECTION FOUR

FINANCIAL POSITION AND RISK MANAGEMENT

I. Explanations on consolidated capital adequacy ratio

As of 31 December 2014, the consolidated capital adequacy standard ratio is 13.23%. (31 December 2013: 13.27%).

1. The risk measurement methods used in the determination of consolidated capital adequacy ratio

The calculation of the capital adequacy standard ratio is performed in accordance with "Regulation on Measurement and Assessment of Capital Adequacy of Banks" which was published in the Official Gazette No. 28337, dated 28 June 2012. In the calculation of capital adequacy standard ratio, the data prepared from accounting records in compliance with the current legislation are used.

The items deducted from the equity in the calculation of the shareholders' equity are not included in the calculation of risk-weighted assets, non-cash loans and contingent liabilities. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

Credit risk is calculated by using Standardized Approach the CSA simple method. Cash risk amount is classified in accordance with Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy of Banks". Risk weights are applied as per "Regulation on Measurement and Assessment of Capital Adequacy of Banks-Annex 1" after applying the risk mitigation techniques in accordance with the "The Regulation on Credit Risk Mitigation Techniques".

In the calculation of the value at credit risk for the non-cash loans and commitments such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables" published in the Official Gazette No. 26333, dated 1 November 2006, The net amounts are then multiplied by rate of; if the risk is high one hundred percent, if the risk is medium fifty percent if the risk is medium/low twenty percent and if the risk is low zero percent; reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy of Banks" and weighted as per "Appendix-1 of the Regulation on Measurement and Assessment of Capital Adequacy of Banks".

In the calculation of the value at credit risk for the derivative financial instruments, the receivables from counterparties are multiplied by the rates stated in the Article 21 and Appendix-2 of "the Regulation on Measurement and Assessment of Capital Adequacy of Banks", reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category and weighted for a second time. The risk amount related to the Bank's derivative financial instruments are calculated using the "Fair Value Method".

The Group determines its risk profile, in accordance with the Regulation on Internal Systems of Banks, by setting the measurement criteria for credit risk, market risk, operational risk, and interest risk arising from the banking book, concentration risk, liquidity risk, reputation risk, strategic risk and the other type of risks identified at the minimum.

The Bank, as part of its internal capital adequacy assessment; used the "Base", "Negative" and "Extreme Negative" scenarios; which were attached to the letter of BRSA dated 31 December 2014 and numbered 42233676-010-30571 regarding the scenarios to be used in the ISEDES report (Report on Internal Capital Adequacy Assessment"; as well as the "Base", "Negative" and "Extreme Negative" scenarios approved by the Risk Committee. There is no need for capital planning buffer according to stress tests performed; results of which have been approved at the meeting of the Board of Directors dated 26 January 2015.

The loan provided by Fiba Holding amounting to USD 50 million; which is still taken into account in the calculation of supplementary capital with the status of secondary subordinated debt; has been approved by BRSA to be continued to be considered as supplementary capital starting from 1/1/2015 in accordance with the prevailing regulations since the loan meets the conditions set by the “Regulation on the Banks’ Equity” as a result of the articles incorporated in the loan agreement.

II. Explanations on consolidated credit risk

Credit risk is defined as risks and losses that may occur if the counterparty fails to comply with the agreement’s requirements and cannot perform its obligations partially or completely on the terms set.

The debtors or group of debtors are subject to credit risk limits. The debtors’ or group of debtors’ and industrial risk limitations are monitored weekly. Industry concentration is followed monthly.

Credit risk limits and breakdowns for daily transactions are watched daily. Risk concentrations of non-balance sheet risks are followed by remote and on-site inspections.

Credit worthiness of both commercial loans’ and other receivables’ debtors are being regularly monitored in accordance with the regulations. By utilizing risk rating models which were developed for these purposes, in case the debtors’ risk level increases, credit lines are readjusted and additional collaterals are received if needed. The necessary documentation for utilized loans is taken in compliance with the related legislation.

In accordance with the Parent Bank’s lending policies, the debtor’s creditworthiness is analysed and the adequate collateral is obtained based on the financial position of the company and the type of loan; such as cash collateral, bank guarantees, mortgages, pledges, bills and corporate guarantees.

There are control limits based on VaR over the positions of the Parent Bank which are held as futures, option contracts and other similar contracts. The credit risks carried for such instruments are managed together with the risks arising from market fluctuations.

Indemnified non-cash loans are subject to the same risk weight with overdue loans. As of 31 December 2014, the Bank does not have any indemnified loans.

The Parent Bank performs foreign trade finance and other interbank credit transactions through widespread correspondent network. Accordingly, the Bank assigns lines periodically to domestic banks, foreign banks and other financial institutions based on review of their credit worthiness.

As being an active participant in the international banking market and considered together with the other financial institutions’ financial operations, the Bank’s is not exposed to significant credit risk.

Within the Bank's risk appetite policy, the following concentrations are measured. They are presented to the Asset and Liability Committee weekly and to the Risk Committee monthly.

As per Customer Group Concentration, Top 20 corporate debtor’s / risk group’s credit risk sum shall not exceed 35% of the Bank's total credit risk.

Within the industry concentration, the Bank has set its risk appetite as "reasonable", not to exceed 10% of total loans per sector except the industries listed below.

<u>Industry</u>	<u>Proportional Limit</u>
Construction	%20
Tourism	%20
Factoring	%15
Wholesale and Retail Sale	%15

II. Explanations on consolidated credit risk (continued)

Within the framework of risk appetite policy, the sum of long-term loans which have a maturity more than 1 year, shall not exceed 45% of the Bank's total loans. This ratio is monitored on a weekly basis at the Asset and Liability Committee and on a monthly basis at the Risk Committee.

The Parent Bank's largest 100 and 200 cash loan customers compose 47% and 57% of the total cash loan portfolio, respectively (31 December 2013: 49% and 61%, respectively).

The Parent Bank's largest 100 and 200 non-cash loan customers compose 73% and 86% of the total non-cash loan portfolio, respectively (31 December 2013: 78% and 91%, respectively).

The Parent Bank's largest 100 and 200 cash and non-cash loan customers represent 44% and 55% of the total "on and off balance sheet" assets, respectively (31 December 2013: 43% and 53%, respectively).

The general provision for consolidated credit risk amounts to TL 60,513 (31 December 2013: TL 52,237).

3. Analysis of maturity-bearing exposures according to remaining maturities (continued)

The Parent Bank uses long-term credit ratings announced by an international rating firm, Fitch rating. Such ratings are used in compliance with regulation on “The Licencing and Operations of the Rating Firms”. For the Bank's capital adequacy calculation, only the latest credit ratings are used that are currently accepted as valid by the issuing Credit Rating Agency.

Credit ratings are used only for the classification of receivables from banks and brokerage houses. There is a credit rating for the securities in the trading book. Therefore, no credit rating is used for issuer or issue.

Based on “Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks” Appendix 1, Fitch’s credit ratings corresponds to credit grades below:

	BRSA Credit Quality Grades	Fitch Risk Rating
Long Term Credit Quality Grades	1	AAA and AA-

III. Explanations on consolidated market risk

Whether the Bank within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

In order to provide hedge against the market risk within the context of the risk management objectives, the Bank set its activities related with market risk management in accordance with “Regulations on Banks’ Internal Control and Risk Management Systems” and “Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks” published in the Official Gazette no. 28337 dated 28 June 2012.

Being exposed to market risk, Bank’s Board of Directors have defined risk management strategies and policies about risk managements in line with application and recommendation of group and have led to follow-up strategies periodically. The limits of risks are identified and these limits are revised periodically. Board of Directors ensure that risk management group and executive managers should identify, measure, control and manage the Bank’s risk.

Market risk arising from trading transactions is limited through the risk appetite policy approved by Board of Directors as “low”and measured by taking into consideration BRSA’s standart methodology. Additionally Financial Control Department reports the market value of daily purchases and sales and realized profit.The risk management and asset liability committee continously monitor compliance of trading transactions with the risk appetite policy. Market risk occurred between mismatches of asset-liability maturity is also monitored through GAP report.

Stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Risk measurement methods such as cash flow projection, GAP analysis are also applied.

Capital to be kept for general market risk and specific risk are calculated by using a standard method in accordance with “Measurement and Assessment of Bank Capital Adequacy Regulation” and reported monthly.

In the calculation of the value at credit risk for the derivative financial instruments, the receivables from counterparties are multiplied by the rates stated in the Article 21 and Appendix-2 of “the Regulation on Measurement and Assessment of Capital Adequacy of Banks”, reduced as per the “Regulation on Credit Risk Mitigation Techniques” and then included in the relevant exposure category and weighted for a second time. The risk amount related to the Bank's derivative financial instruments are calculated using the “Fair Value Method”.

3. Quantitative information on counterparty risk

The counterparty risk amount is calculated in accordance with fair value measurement methodology stated in Appendix 2 and section 3 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

It is determined replacement cost of the contracts having positive value through using fair value of such contracts. The potential credit risk amount is calculated by multiplying contract or transaction amounts with certain ratios determined in accordance with days to maturity and contract type. Total of replacement cost and potential credit risk make up counterparty risk amount. Counterparty credit risk mitigation considers only cash collaterals.

IV. Explanations on consolidated operational risk

The value at operational risk is calculated according to the basic indicator approach. Value at operational risk amount is calculated by using the last 3 years' (2013, 2012, 2011) gross incomes, in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" issued on Official Gazette dated 28 June 2012 and numbered 28337 and 3rd section of the regulation, "Calculation of Operational Risk". 15% of gross income which is TL 25,673 TL represents also the minimum capital requirement to recover the risk amount.

V. Explanations on consolidated currency risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Bank does not take foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 31 December 2014, the Group's net short position is TL 549 (31 December 2013: TL 6,986 net long position) resulting from short position on the balance sheet amounting to TL 92,047 (31 December 2013: TL 681,702 long position) and long position on the off-balance amounting to TL 91,498 (31 December 2013: TL 674,716 short position). "Standard Method" is used in legal reporting to measure the foreign exchange risk.

The announced current foreign exchange buying rates of the Bank at 31 December 2014 and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date	(Full Basis)	TL 2.3189
Euro purchase rate as at the balance sheet date	(Full Basis)	TL 2.8207

Date	USD	EUR
25 December 2014	2.3209	2.8312
26 December 2014	2.3177	2.8368
29 December 2014	2.3182	2.8255
30 December 2014	2.3235	2.8339
31 December 2014	2.3189	2.8207

Simple arithmetic means of foreign exchange rates in December 2014 are (Full Basis) 2.2877 TL for US dollar, and (Full Basis) 2.8217 TL for Euro.

VI. Explanations on consolidated interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and Asset-Liability risk measurement methods are used to measure the Bank's interest rate risk.

Measurements by employing the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crises. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

VIII. Explanations on consolidated liquidity risk

The Bank diversifies its funding resources with deposits and bank borrowings to avoid the liquidity risk. Maturity compliance between assets and liabilities are monitored and liquid assets are kept to meet probable liquidity needs that might result from market fluctuations.

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks"; published in the Official Gazette numbered 26333, dated 1 November 2006; liquidity ratio is required to be 80 % for foreign currency assets/liabilities and 100 % for total assets/liabilities in the calculation of the Bank's weekly and monthly reporting effective from 1 September 2007. Liquidity ratios for the current period are shown below:

	First Maturity Slice (Weekly)		Second Maturity Slice (Monthly)

IX. Explanations on consolidated securitisation positions

The Group does not have any securitization positions as of balance sheet date.

X. Information on consolidated credit risk mitigation techniques

The Group does not apply any netting on balance sheet and off-balance sheet. Guarantees and derivatives are not used as credit mitigation technique; but only financial collaterals consisting of cash blockages are used.

Applications related to the valuation and management of collaterals are defined as follows: Appraisals for the mortgages that are received as collaterals are only performed by the firms that have been approved by the BRSA and licensed by the CMB. Appraisal reports for the real estate that are received as collaterals for commercial loans are renewed each year as long as the risk continues. As a rule, each year a different appraisal firm is preferred. Management of the appraisal process is carried out by the Credits Department. Vehicle pledges are followed through their insurance values. Regular investigations are performed for the cheques and bills that are received as collaterals and in case of any negative finding the Bank seeks to replace the collateral.

The Group's guarantees are mainly composed of cheques, notes, mortgages, guarantees, vehicle pledges and deposit pledges. The Group's credit risk concentration is mainly consists of corporate receivables and followed by receivables that are collateralized with mortgage, SME receivables and retail receivables, respectively.
