Consolidated Financial Statements
as of and for the Year Ended
31 December 2019

With Independent Auditors'
Report Thereon

*(Convenience Translation of Financial Statements and Related
Disclosures and Footnotes Originally Issued in Turkish)*

Convenience Translation of the Independent Auditors' Report Originally Prepared and Issued in Turkish to English

To the Shareholders of Fibabanka Anonim Şirketi

A) Report on the Audit of the Consolidated Financial Statements

Qualified Opinion

We have audited the consolidated financial statements of Fibabanka Anonim Şirketi ("the Bank") and its subsidiary (together will be referred as "the Group") which comprise the consolidated balance sheet as at 31 December 2019 and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, except for the effect of the matter described in the *Basis For Qualified Opinion* section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Fibabanka Anonim Şirketi and its subsidiary as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of banks published by BRSA and circulars and interpretations published by BRSA and requirements of Turkish Financial Reporting Standards ("TFRS") for the matters not regulated by the aforementioned legislations.

Basis for Qualified Opinion

As stated in Note 2.8.3.1 of Section Five, the accompanying consolidated financial statements as at 31 December 2019 include a general provision of total of TL 44.500 thousands, of which TL 65.000 thousands was recognised as expense in prior years and TL 20.500 thousands has been reversed in the current period, which does not meet the requirements of BRSA Accounting and Reporting Legislation. This general provision is provided by the Bank management for the possible effects of the negative circumstances which may arise in economy or market conditions. Additionally, the accompanying consolidated financial statements as at 31 December 2019 include a deferred tax asset for aforementioned general reserve provision of total of TL 9.790 thousands, of which TL 14.300 thousand was recognised in prior years and TL 4.510 thousands has been reversed in the current period.

We conducted our audit in accordance with the "Regulation on Independent Audit of the Banks" ("BRSA Auditing Regulation") published in the Official Gazette No.29314 dated 2 April 2015 by BRSA and Standards on Auditing which is a component of the Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA") ("Standards on Auditing issued by POA"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We declare that we are independent of the Group in accordance with the Ethics for Auditors issued by POA ("POA's Code of Ethics") and the ethical requirements in the regulations issued by POA that are relevant to audit of consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the POA's Code of Ethics and other regulations. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Basis for Qualified Opinion* section we have determined the matters described below to be the key audit matters to be communicated in our report.

Impairment of loans measured at amortised cost

The details of accounting policies and significant estimates and assumptions for impairment of loans measured at amortised cost are presented in Section III, No: VIII of the consolidated financial statements.

Key audit matter	How the matter is addressed in our audit
<p>As of 31 December 2019, loans measured at amortised cost comprise 65% of the Group's total assets.</p> <p>The Group recognizes its loans in accordance with the Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside (the "Regulation") published on the Official Gazette No. 29750 dated 22 June 2016 and TFRS 9 Financial Instruments standard ("Standard").</p> <p>The Group applies the "expected credit loss model" in determining the impairment of financial assets in accordance with the Regulation and Standard. The model which contains significant assumptions and estimates is reviewed by the Bank management annually.</p> <p>The significant assumptions and estimates of the Group's management are as follows:</p> <ul style="list-style-type: none"> - significant increase in credit risk; - incorporating the forward looking macroeconomic information in calculation of credit risk; and 	<p>Our procedures for testing the impairment of loans included below:</p> <ul style="list-style-type: none"> • We tested the design and operating effectiveness of the controls on lending, collateralization, collection, follow-up, classification and impairment procedures are tested with the involvement of information risk management specialists. • We evaluated the adequacy of the subjective and objective criteria that is defined in the Group's impairment accounting policy compared with the Regulation and Standard. • We evaluated the Group's business model and methodology and the evaluation of the calculations were carried out with the control testing and detailed analysis by the involvement of specialist. • We performed loan reviews for selected loan samples which include a detailed examination of loan files and related information and testing their classification. In this context, the current status of the loan customer has been evaluated by including prospective information and macroeconomic variables. • We evaluated the accuracy of the expected credit loss calculations by selecting sample for the loans which are assessed on

<p>- design and implementation of expected credit loss model.</p> <p>The determination of the impairment of loans measured at amortised cost depends on the (i) credit default status, (ii) the model based on the change in the credit risk at the first recognition date and (iii) the classification of the loans measured at amortised cost according to the model. Establishing an accurate classification is a significant process as the calculation of expected credit loss varies to the staging of the financial assets.</p> <p>The Group calculates expected credit losses on both an individual and a collective basis. Individual provisions consider the estimated future performance of the business and the fair value of the collateral provided for credit transactions.</p> <p>The collective basis expected credit loss calculation is based on complex processes which are modelled by using current and past data sets and expectations. The completeness and accuracy of data sets in the model are also considered and the forward looking expectations are reflected by macroeconomic models. Impairment on loans measured at amortised cost was considered to be a key audit matter, due to the significance of the estimates, assumptions, the level of judgements and its complex structure as explained above.</p>	<p>individual basis and discussed the assumptions and estimates with the Group management.</p> <ul style="list-style-type: none"> • We tested the accuracy and completeness of the data in the calculation models for the loans which are assessed on collective basis. The expected credit loss calculation was tested through recalculation. The models used for the calculation of the risk parameters were examined and the risk parameters for the selected sample portfolios were recalculated. • We assessed the macroeconomic models which are used to reflect forward looking expectations and tested the effect of the risk parameters by recalculation method. • We evaluated the qualitative and quantitative assessments which are used in determining the significant increase in credit risk. • We also evaluated the adequacy of the consolidated financial statements' disclosures related to impairment provisions.
---	---

Other matter

The consolidated financial statements of the Group as at and for the year ended 31 December 2018 was audited by another auditor who expressed a qualified opinion due to the general reserve provision provided by the Bank on 8 February 2019.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the BRSA Accounting and Reporting Legislation, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of auditors in an audit are as follows:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing issued by POA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with BRSA Auditing Regulation and Standards on Auditing issued by POA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

1) Pursuant to the fourth paragraph of Article 402 of the Turkish Commercial Code ("TCC") numbered 6102; no significant matter has come to our attention that causes us to believe that the Bank's bookkeeping activities for the period 1 January - 31 December 2019 are not in compliance with TCC and provisions of the Bank's articles of association in relation to financial reporting.

2) Pursuant to the fourth paragraph of Article 402 of the TCC; the Board of Directors provided us the necessary explanations and required documents in connection with the audit.

Additional paragraph for convenience translation to English:

The accounting principles summarized in Note I Section Three, differ from the accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying consolidated financial statements are not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the consolidated financial statements and IFRS.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

SECTION ONE

GENERAL INFORMATION

I. History of the Parent Bank including its incorporation date, initial status and amendments to the initial status

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of Banking Regulation and Supervision Agency (“BRSA”) No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as BankEuropa Bankası A.Ş.

In the extraordinary General Assembly held on 28 November 2006, the name of Bank Europa Bankası A.Ş. was amended as Millennium Bank A.Ş.

On 27 December 2010, acquisition of the Bank by Credit Europe Bank N.V., which is an affiliate of Fiba Holding A.Ş., was realized.

In the extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. was amended as Fibabanka A.Ş. (“the Bank” or “the Parent Bank”)

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control Over the Management and Internal Audit of the Parent Bank, Changes in Shareholder Structure During the Current Period, if any and Information on the Parent Bank’s Risk Group

On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Bank’s shares to Credit Europe Bank N.V. and the legal approval process was completed as of 27 December 2010.

Credit Europe Bank N.V.’s share of capital increased from 95% to 97,6% after the capital increases during 2011 and 2012. Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97,6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2,4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012. There were sales of equity shares to the management of the Bank in 2013. As of 31 December 2019 the total shares held by the Bank’s Management represent 0,56% of the Bank’s Capital.

The Parent Bank applied to the BRSA on 14 January 2015 for permission of the subordinated loan provided from Fiba Holding A.Ş. in the amount of USD 50 million to be converted to share capital. Following the authorization of the BRSA on 4 March 2015, the Board of Directors decision was taken on 5 March 2015 regarding share capital increase from TL 550.000 to TL 678.860. TL 127.045 of the increase was provided by the subordinated loan granted by Fiba Holding A.Ş. which had been approved to be converted to capital and TL 1.815 of total capital was paid in cash by the other shareholders, capital increase was recognised in financial statements following the completion of the legal procedures on 7 May 2015.

The Parent Bank’s paid-in capital amounting to TL 678.860 was increased to TL 847.515 on 23 December 2015 with equal contributions from International Finance Corporation (“IFC”) and European Bank for Reconstruction and Development (“EBRD”) amounting TL 168.655 in total. In addition, share issuance premium of TL 73.379 was recognised in the shareholders’ equity.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control Over the Management and Internal Audit of the Parent Bank, Changes in Shareholder Structure During the Current Period, if any and Information on the Parent Bank's Risk Group (Continued)

The Bank's paid-in capital amounting to TL 847.515 was increased to TL 941.161 on 7 September 2016 with the capital contribution of TurkFinance B.V. by TL 93.646. In addition, TL 55.299 was recorded to the equity as share premium.

As of 31 December 2019, paid-in capital of the Bank is TL 941.161 and all paid in.

III. Explanations Regarding the Shares of the Parent Bank Owned by and Areas of Responsibility of the Chairman and the Members of Board of Directors, Audit Committee Members, Chief Executive Officer, Executive Vice Presidents

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

SECTION THREE

ACCOUNTING PRINCIPLES

I. Explanations on the basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

The Bank prepares its financial statements in accordance with the BRSA Accounting and Reporting Regulation which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board (“BRSB”) and circulars and pronouncements published by the BRSA and Turkish Financial Reporting Standards (“TFRS”) published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

The consolidated financial statements are prepared in thousands of TL based on the historical cost convention, except for the financial assets and liabilities carried at fair value.

Explanations about Leases Standard TFRS 16

The Bank has begun to prepare its unconsolidated financial statements for the first time by 1st of January 2019, according to “TFRS 16 Leasing Standard” published in the Official Gazette dated April 2018 with no 29826 and became valid as of 1 January 2019. Practices and effects of TFRS 16 transition has been explained in Notes XXVII of Section III.

Prior period financial statements were adopted to new format in accordance with “Communique on Change on Communique on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements” published in the Official Gazette dated 1 February 2019 with no 30673.

2. Accounting policies and valuation principles applied in preparation of consolidated financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are explained in Notes II and XXVI below.

The Group applied “partial conversion approach” which led to equalization of beneficial property and leasing liabilities, during the first transition to TFRS 16, by taking all benefits of easing conditions. Accordingly, comparative information presented in the context of TAS 17 and related comments were not rearranged for year 2018.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of assets and liabilities.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within predetermined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is carried based on a currency basket to minimize the foreign exchange risk.

2. Foreign currency transactions

2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements

The Group recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions are converted into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank and the related currency conversion differences are recognized as foreign exchange gains and losses.

As at the end of the related periods, the Bank’s foreign currency exchange rates are as follows in full TL:

	31 December 2019	31 December 2018
US Dollar	5,9402	5,2609
Euro	6,6506	6,0280

III. Explanations on consolidated subsidiaries

Fiba Portföy Yönetimi A.Ş. (“Fiba Portföy”); the subsidiary of the Bank was consolidated by using full consolidation method in the consolidated financial statements dated 31 December 2018. Fibabanka A.Ş. and Fiba Portföy Yönetimi A.Ş. together are referred to as “the Group” in the report.

Capital Markets Board (“CMB”) approved Fiba Portföy’s licence application for portfolio management activity and the licence numbered PYŞ. PY 56/1267 and dated 12 December 2013 was assigned to Fiba Portföy.

The objective of Fiba Portföy is to manage portfolios consisting of financial assets as a representative by entering into portfolio management contracts in accordance with CMB laws and relevant regulation and also to perform capital markets operations. Besides, Fiba Portföy can manage the portfolios of local and foreign investment funds, investment trusts, local/foreign real persons, brokerage companies and other similar legal entities within the context of the related regulation as portfolio management activities. On the condition that, the requirements of the Capital Markets regulations are fulfilled and necessary approvals and licences from the Capital Markets Board are obtained; Fiba Portföy can also perform investment advisory services, market consultancy in Borsa İstanbul A.Ş. Emerging Companies Market, and intermediary services for the trading of investment fund certificates. The Bank owns 99% of the equity of Fiba Portföy whose headquarters is located in Istanbul.

According to full consolidation method, the subsidiary’s 100% of assets, liabilities, revenues, expenditures and off-balance sheet liabilities were combined with the Parent Bank’s assets, liabilities, revenues, expenditures and off-balance sheet liabilities. Book value of the investment in the Group’s subsidiary and the portion of the cost of subsidiary’s capital belonging to the Group are eliminated. All intragroup balances and income and expenses relating to transactions between the Bank and its subsidiary are eliminated in full on consolidation. Minority shares in the net income of consolidated subsidiary determined the net income of the Group and were demonstrated as a separate item in the statement of profit or loss. Minority shares were presented under equity in the consolidated financial statement.

FİBANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

IV. Explanations on forward transactions, options and derivative instruments

The Parent Bank's derivative transactions mainly consist of currency swaps, interest rate swaps, currency options and currency forward purchase/sale contracts. The Parent Bank does not have any embedded derivatives separated from the host contract.

The Parent Bank's derivative instruments held for trading are classified as "Derivative Financial Assets Measured at Fair Value Through Profit and Loss" or "Derivative Financial Assets Measured at Fair Value through Other Comprehensive Income" in accordance with TFRS 9 and derivative instruments for hedging purpose are classified, measured and accounted in accordance with TAS 39 "Financial Instruments: Recognition and Measurement", respectively.

The liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual values.

Derivative transactions are measured at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the statement of profit or loss under trading profit/loss line as profit/loss from derivative financial transactions.

Explanations on derivative financial instruments held for hedging

The Parent Bank enters into cross currency interest rate swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in statement of profit or loss.

If the hedging is effective, the changes in fair value of the hedged item, which is fixed rate TL denominated loans, are presented in statement of financial position together with the hedged item. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Profit or Loss", respectively depending on the fair values being positive or negative. Fair value changes are recorded under statement of profit or loss.

The Parent Bank performs effectiveness tests at the beginning of the hedge accounting period and at each reporting period.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized to statement of profit or loss over the life of the hedged item from that date of the hedge accounting is discontinued.

V. Explanations on interest income and expenses

Interest income and expenses are recognized on accrual basis by using internal rate of return for financial assets and liabilities with given future cash payments and collections.

VI. Explanations on fee and commission income and expenses

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with "TFRS 15 Revenue from Contracts with Customers". Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted on accrual basis throughout the service period.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into three groups as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets measured at amortized cost.

1. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

Loans measured at fair value through profit or loss are subject to valuation in accordance with fair value principles and profit or losses, emerging as a result of valuation, are recognized under profit/loss accounts. The Bank has classified a portion of its extended loans as financial assets at fair value through profit or loss, as per TFRS 9 standard. The aforementioned loans have been demonstrated on other financial assets line under “Financial assets at fair value through profit or loss” on the balance sheet.

2. Financial assets measured at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Financial assets at fair value through other comprehensive income are recognized by adding transaction costs to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to statement of profit or loss. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the statement of profit or loss of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the equity are recognized in the statement of profit or loss.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value.

3. Financial assets measured at amortized cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss.

In prior periods, the Bank has classified financial assets at fair value through other comprehensive income amounting to TL 153.266 which were classified as available-for-sale financial assets to designate at “Financial assets measured at amortized cost” as of January 2018.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

4. Loans

Loans are financial assets generated by providing cash, commodity or service to the borrower. These loans and receivables are recorded by acquisition cost reflecting fair value and afterwards measured at amortized cost by using effective interest (internal rate of return) method. Fees and other costs paid for the assets taken as collateral for those loans are not recognized as cost of operation and accounted in expense accounts. Bank's loans are followed in "Financial Assets Measured at Amortized Cost" and "Financial Assets at Fair Value Through Profit or Loss" accounts

VIII. Explanations on expected credit loss

The Parent Bank recognizes expected credit loss allowance for financial assets measured at amortized cost and measured at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognizes provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 September 2016 numbered 29750. In this framework, as of 31 December 2017, method of provisioning for impairment as set out in accordance with the related legislation of BRSA has been changed by applying the expected credit loss model under TFRS 9.

Calculation of expected credit loss

The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions. Expected credit loss is calculated by using following components: "Exposure at Default", "Probability of Default" and "Loss at Default".

These financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk will be recorded in the amount of 12-month expected credit losses.

Stage 2

In the event of a significant increase in credit risk since initial recognition, the financial asset will be transferred to Stage 2. Impairment for credit risk will be determined on the basis of the instrument's lifetime expected credit losses.

Stage 3

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

As part of TFRS 9, expected credit loss models are improved in process of exposure at default, probability of default and loss given default. These models are formed by taking into consideration internal ratings systems, past data and prospective expectations and considering below factors;

- Customer type (individual, corporate, commercial and SME)
- Product type
- Ratings used as part of internal ratings systems
- Collaterals
- Collection period
- Exposure at default
- Time passed from loan disbursement
- Time to maturity

If the existing provision model is not able to reflect the situation, individual assessment is possible by using the cash flow expectations of Credits Monitoring and Collection Department.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

VIII. Explanations on expected credit loss (continued)

Exposure at Default: Expresses the exposure amount when debtor defaults. It accounts along with the maturity of the borrower. The amount of additional risk that may occur in case of default is added to the amount of risk and included in the calculations by using the credit conversion rates (CCR) for irrevocable commitments.

Probability of Default: Refers to the probability of default due to the inability of the debtor to fulfill its obligations. 12-month or lifetime estimation is performed according to whether there is an increase in credit risk or not.

Loss Given Default: In the default of the borrower, it is calculated as the expected credit loss to exposure at default. Loss given default models include inputs such as product type, customer segment, collateral structure, customer payment performance.

Macroeconomics Factors: Macroeconomics indicators are taken into account in determining the probability of default component in the expected credit loss calculation. Future macroeconomics forecasts are reflected in the expected credit loss calculations using more than one scenario.

While macroeconomics information is included, models and estimates reflecting the relationships between model risk parameters and macroeconomics variables are taken into consideration. The main macroeconomics indicators that make up these estimation models are the Gross Domestic Product (GDP) and the unemployment rate. Macroeconomics estimation models include more than one scenario and the related scenarios are taken into account in the expected credit loss calculations.

Future expectations are determined based on 2 scenarios, base and negative. Each scenario has predetermined weights, and the final provisions are calculated by weighting on these probabilities.

Calculation of Expected Loss Period: In determining the lifetime expected credit loss, the period in which the Bank will be exposed to credit risk is taken into consideration. Behavioural maturity analysis was performed on credit cards and overdraft accounts. The maximum period for which credit losses are to be recognized, except for credit cards and other revolving loans, is the contractual life of the financial instrument unless a legal right is required to recall the loan.

Significant Increase in Credit Risk: Due to the significant increase in credit risk, the Bank performs quantitative and qualitative assessments to determine the financial assets to be classified as Stage 2 (Significant Increase in Credit Risk).

Within the scope of the quantitative assessments made for the corporate segment, the Bank compares the change between the starting date and the date of the report by taking into account the time passed since the opening date. In order to make this comparison, the Bank specifies threshold values to determine which changes are accepted as significant change. The decision to classify financial assets with a significant increase in credit risk by exceeding these threshold values as Stage 2 is taken by the opinion of the Credits Department.

Also, credit risk with an overdue period between 30 and 90 days is classified as Stage 2.

Within the scope of qualitative evaluations, financial assets under close monitoring as of the reporting date are classified as Stage 2.

IX. Explanations on offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit or loss”, “Financial assets at fair value through other comprehensive income” or “Financial assets measured at amortized cost” according to their purposes to be held in the Bank’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

FİBANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

X. Explanations on sale and repurchase agreements and securities lending transactions (continued)

Securities purchased under agreements to resell (“Reverse repo”) transactions are accounted under the “Money market placements” in the balance sheet.

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is part of the Bank's business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the statement of profit or loss.

The Group does not have any discontinued operations.

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Bank consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets of the Group are 3 to 10 years, and amortization rates are 10% to 33,3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) “Tangible Assets”.

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

FİBANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

XIII. Explanations on tangible assets (continued)

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Assets	Estimated Useful Lives (Years)	Depreciation Rates (%)
Safe boxes	50	2
Vehicles	5	20
Real estate	50	2
Other tangible assets	4-20	5-25

XIV. Explanations on leasing transactions

As "TFRS 16 Leases" standard is valid starting on 1 January 2019, difference between operational lease and financial lease disappeared so that leasing transactions will be recognized as right-of-use assets and will be recognized under "Tangible Assets" and corresponding liability under "Lease Liabilities".

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Employee Benefits. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in represented in financial statements. All actuarial losses and gains are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate of 13,50%, inflation rate of 6,00% and real rate of rise in salary of 0,00%.
- Effective as of 31 December 2019, ceiling salary amount is considered as TL 6.379,86 (full TL).
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

XVIII. Explanations on taxation

1. Current Tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%, on the other hand as per the provisional article 91 of Law numbered 7061, which is added to Corporate Tax Law numbered 5520 corporate tax rate regarding 2018, 2019 and 2020 fiscal periods (accounting periods starting within the related period for companies which are assigned special accounting period) has changed as 22%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

2. Deferred Tax

The Group calculates and recognizes deferred tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

In accordance with the provisional article, added to Corporate Tax Law, corporate tax which is 20%, shall be applied as 22% for the profit of company belonging to 2018, 2019 and 2020 fiscal periods. In accordance with this provisional article, 22% tax rate has been calculated for periods, in which the deferred tax assets and liabilities emerges and liabilities are met, while it is calculated with 20% for 2021 and following periods.

Deferred tax liabilities are generally recognized for all taxable temporary and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax rate calculation has started to be applied over temporary expected credit losses as per TFRS 9 articles from 1 January 2018. The Bank calculates deferred tax also for possible risk provisions.

As of 31 December 2019, the deferred tax asset is TL 54.503 (31 December 2018: TL 79.351 the deferred tax asset). The deferred tax asset is calculated as the net of taxable and deductible temporary differences.

Deferred tax income/(expense) is recognized within "Deferred Tax Expense Effect" in the statement of profit or loss; deferred tax expense for the current period is TL 15.309 (1 January - 31 December 2018: TL 41.147 expense). Deferred tax effects of the transactions and events recognized directly in the shareholders' equity are also recognized directly in the shareholders' equity which is TL 9.539 expense (1 January -31 December 2018: TL 4.264 income).

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

3. Transfer Pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices on time

XIX. Additional explanations on borrowings

The Parent Bank provides resources from domestic and foreign individuals and institutions both by borrowing funds and issuing bills and bonds.

Borrowing instruments are initially measured at acquisition cost and subsequently measured at amortized cost with the effective interest method. In the accompanying financial statements, foreign currency denominated borrowing funds are converted to Turkish Lira with the Group’s spot foreign exchange buy rates and interest expenses incurred during the period relating to the borrowing funds are recognized in statement of profit or loss.

Additional Tier I Capital

The Bank has recognised the issued Tier 1 securities of TL 100.000 nominal and related interest expense, as “other capital reserves” within the scope of “TAS 32 Financial Instruments: Presentation”. It has recognised the issued Tier 1 securities of USD 30.000 nominal and related interest expense as “subordinated debt”.

XX. Explanations on share certificates issued

None.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXII. Explanation on government incentives

As of the balance sheet date, the Group does not have any government incentives

XXIII. Explanations on segment reporting

The Bank operates in consumer banking services, current accounts, deposit accounts, long term investment products, clearing and custody services, credit and atm services, retail loans, long term mortgage loans, and all other kinds of consumer banking services and commercial services. The Bank's consolidated subsidiary Fiba Portföy is dealing with portfolio management and its activity outcomes and asset&liabilities are reported under "Treasury and Headquarters".

	Retail Banking(*)	Corporate & Commercial Banking	Treasury & Headquarters	Total Operations of the Bank

Total Liabilities				20.619.176

XXIV. Profit reserves and distribution of the profit

In financial tables, except legal reserves, retained earnings can be distributed on condition that it has legal reserve requirement explained below.

Legal reserves are consisted of first and second reserves as determined in Turkish Commercial Code (TCC). First legal reserve, is appropriated by TCC at the rate of 5%, until the total reserve is equal to 20% of issued and fully paid-in share capital. Second legal reserve, appropriated at the rate of 10% of distributions in excess of 5% of issued and fully paid-in share capital, but Holding companies are not subject to such transaction. According to the Turkish Commercial Code, legal reserves can only be used to compensate accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

In the Ordinary General Assembly Meeting of the Bank, which was held on 27 March 2019, it was decided to set off the accumulated loss to extraordinary legal reserve; and to allocate the 2018 net profit amounting TL 196.659 as legal reserve of TL 9.833 and as extraordinary reserves of TL 186.826.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

XXV. Earnings Per Share

Earnings per share disclosed in the statement of profit or loss are calculated by dividing net profit for the year by the weighted average number of shares outstanding during the related period concerned.

	31 December 2019	31 December 2018
Net Profit / (Loss) distributable to Common Shares	214.956	197.014
Average Number of Issued Common Shares (Thousand)	94.116.055	94.116.055
Earnings Per Share (Amounts presented as full TL)	0,00228	0,00209

In Turkey, companies can increase their share capital by distributing “bonus shares” to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

There are no bonus shares issued by the Bank in 2019 (31 December 2018: None).

XXVI. Cash and Cash Equivalent Assets

Cash, cash in transit, purchased bank cheques and demand deposits including balance with Central Bank are considered as “Cash”; interbank money market placements and time deposits at banks with original maturity periods of less than three months and receivables from reverse repo are considered as “Cash Equivalents”. Required reserves kept in Central Bank under blocked account are not “Cash Equivalents” in the statement of cash flow.

XXVII. Explanation on TFRS 16 Leases standard

The Bank has adopted new standard, changes and commands, which are valid as of 1 January 2019, in line with the “TFRS 16 Leases” standard’s first time applying transition commands.

TFRS 16 “Lease” Standard

The Bank as a lessee according to “Lease” Standard:

The Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

Existence of right to use:

The right to use asset is first recognized by cost method and includes:

- a) the initial measurement amount of the lease obligation,
- b) the amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;
- c) all initial direct costs incurred by the Bank.

When applying the cost method, the Bank measures the right to use as follows:

- a) deducts accumulated depreciation and accumulated impairment losses and
- b) measures the restatement of the lease obligation at the restated cost.

Bank applies depreciation clauses of TAS 16 Tangible Assets standard when measuring the depreciation of the right to use.

Lease obligations:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Bank’s average borrowing interest rates.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

XXVII. Explanation on TFRS 16 Leases standard (continued)

After the effective date of the lease, the Bank measures the leasing liability as follows:

- a) Increase the book value to reflect the interest on the lease obligation
- b) Reduces the book value to reflect the lease payments made and
- c) The book value is measured to reflect reassessments and restructuring, or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

First Transition to TFRS 16 Leasing Standard

“TFRS 16 Leases” Standard was promulgated in Official Gazette No. 29826, dated 16 April 2018 to be applied in the accounting period starting after 31 December 2018. The Bank applied TFRS 16 “Leasing” standard, which replaced TAS 17 “Leasing”, as of 1 January 2019, the date of first implementation.

The Bank, as a lessee, reflected its right and liability to use the asset pertaining to the lease to its financial tables. The new accounting principles is similar with the prior principles for the leaser.

Bank applied “partial conversion approach” which led to equalization of beneficial property and leasing liabilities, during the first transition to TFRS 16, by taking all benefits of easing conditions. According to this, comparative information presented in the context of TAS 17 and related comments were not rearranged.

The classifications and adjustments related with the first appliance to TFRS 16 Leases Standard as of 1 January 2019 can be seen below:

	31 December 2018	TFRS 16 Classification Effect	TFRS16 Transition Effect	1 January 2019	31 December 2019
Tangible Assets (Net) (*)(**)	257.069	1.557	75.901	334.527	343.731
Intangible Assets (Net)	--	--	--	--	--
Other Assets (Net) (**)	224.324	(1.557)	--	222.767	222.767
Finance Lease Liabilities (Net) (***)	463	--	75.901	76.364	85.568

(*) TL 75.901 of right and liability to use the asset pertaining to the lease, which were previously classified as financial leasing according to TAS 17, were reflected to Bank’s financials according to TFRS 16 as of 1 January 2019.

(**) The Bank classified TL 1.557 as right to use asset under tangible asset according to TFRS 16 as of 1 January 2019, which were prepaid lease before.

(***) The weighted average of interest rates applied by the Bank as of 1 January 2019, to the lease liabilities in TL and EUR were 23,9% and 1,7% respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the consolidated balance sheet mainly arises from the subordinated bonds, general provisions and TFRS 9 transition effect. In the calculation of Total Capital, general reserve up to 1,25% of credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operational leases presented under tangible assets in the balance sheet, together with related deferred tax liabilities and deferred tax assets calculated for provision for possible losses and other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

Debt instruments included in shareholder's equity calculation:

Issuer	Fibabanka A.Ş.	Fibabanka A.Ş.	Fibabanka A.Ş.

II. Explanations on Consolidated Credit Risk

Credit risk is defined as risks and losses that may occur if the counterparty fails to comply with the agreement's requirements and cannot perform its obligations partially or completely on the terms set.

The debtors or group of debtors are subject to credit risk limits. The debtors' or group of debtors' and industrial risk limitations are monitored weekly. Industry concentration is followed monthly.

Credit risk limits and breakdowns for daily transactions are followed daily. Risk concentrations of off-balance sheet risks are followed by remote and on-site control activities.

Credit worthiness of both commercial loans' and other debtors are being regularly monitored in accordance with the regulations. By utilizing risk rating models which were developed for these purposes, in case the debtors' risk level increases, credit lines are readjusted and additional collaterals are received if needed. The necessary documentation for utilized loans is taken in compliance with the related legislation.

In accordance with the Parent Bank's lending policies, the debtor's creditworthiness is analysed and the adequate collateral is obtained based on the financial position of the company and the type of loan; such as cash collateral, bank guarantees, mortgages, pledges, bills and corporate guarantees.

There are control limits based on VaR over the positions of the the Parent Bank which are held as futures, option contracts and other similar contracts. The credit risks carried for such instruments are managed together with the risks arising from market fluctuations.

Indemnified non-cash loans are subject to the same risk weight with overdue loans.

The Parent Bank performs foreign trade finance and other interbank credit transactions through widespread correspondent network. Accordingly, the Bank assigns limits periodically to domestic banks, foreign banks and other financial institutions based on review of their credit worthiness.

Within the Bank's risk appetite policy, the following concentrations are measured. They are presented to the Asset and Liability Committee weekly and to the Risk Committee monthly.

As per Customer Group Concentration, Top 20 corporate debtor's / risk group's credit risk sum shall not exceed 30% of the Bank's total credit risk.

Within the industry concentration, the Bank has set its risk appetite as "reasonable", not to exceed 10% of total loans per sector except the industries listed below.

<u>Industry</u>	<u>Proportional Limit</u>
Construction	20%
Tourism	20%
Factoring	15%
Wholesale and Retail Business	15%

Within the framework of risk appetite policy, the sum of long-term loans which have a maturity more than 1 year, shall not exceed 45% of the bank's total loans. This ratio is monitored on a weekly basis at the Asset and Liability Committee and on a monthly basis at the Risk Committee.

The Bank's largest 100 and 200 cash loan customers compose 65% and 74% of the total cash loan portfolio, respectively (31 December 2018: 55% and 65%, respectively).

The Bank's largest 100 and 200 non-cash loan customers compose 85% and 95% of the total non-cash loan portfolio, respectively (31 December 2018: 78% and 89%, respectively).

The Bank's largest 100 and 200 cash and non-cash loan customers represent 61% and 72% of the total "on and off balance sheet" assets, respectively (31 December 2018: 53% and 64%, respectively).

Expected credit loss for total credit risk of the Parent Bank amounts to TL 296.663 (Stage 1 and Stage 2) (31 December 2018: TL 288.131).

The Parent Bank uses long-term credit ratings announced by an international rating firm, The Islamic International Ratings Agency (IIRA). Such ratings are used in compliance with regulation on "The Licencing and Operations of the Rating Firms". For the Bank's capital adequacy calculation, only the latest credit ratings are used that are currently accepted as valid by the issuing Credit Rating Agency.

Credit ratings are used for the receivables from banks and brokerage houses. The securities in the trading book have credit ratings. Therefore, no credit ratings is used for issuer or issue.

Based on "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" Appendix 1, The Islamic International Ratings Agency (IIRA)'s credit ratings corresponds to credit grades below:

Long Term Credit Quality Grades	BRSA Credit Quality Grades	IIRA Risk Rating
	1	AAA and AA-
2	A+ and A-	
3	BBB+ and BBB-	
4	BB+ and BB-	
5	B+ and B-

5. Information by major sectors and type of counterparties

As per TFRS;

Significant Increase in Credit Risk (Stage 2); when the loan is not under default yet, but there is a significant increase in the credit risk since origination date, the life time expected credit losses are calculated for these loans.

Credit Impaired (Stage3); includes financial assets whose probability of default is considered to be 100%. The life time expected credit losses are recognized for impaired loans.

Total	993.318	843.028	31.350	28.522

III. Explanations on Consolidated Currency Risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Group does not take material foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 31 December 2019, the Group's net long position is TL 34.339 (31 December 2018: TL 193.087 net long position) resulting from short position on the balance sheet amounting to TL 689.834 (31 December 2018: TL 2.327.850 short position) and long position on the off-balance amounting to TL 724.173 (31 December 2018: TL 2.520.937 long position). The Bank uses "Standard Method" in legal reporting to measure the foreign exchange risk.

The announced foreign exchange buying rates of the Bank at 31 December 2019 and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date	TL 5,9402
Euro purchase rate as at the balance sheet date	TL 6,6506

Date	USD	EURO
25 December 2019	5,9364	6,5773
26 December 2019	5,9293	6,5755
27 December 2019	5,9302	6,5759
30 December 2019	5,9370	6,6117
31 December 2019	5,9402	6,6506

The US Dollar buying rate is TL 5,8376 and EUR buying rate is TL 6,4809 according to simple arithmetic average on December 2019.

IV. Explanations on Consolidated Interest Rate Risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and Asset-Liability risk measurement methods are used to measure the Group's interest rate risk.

Measurements by the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crisis. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

Interest rate sensitivity of assets, liabilities and off-balance sheet items (Based on repricing dates):

V. Explanations on Consolidated Position Risk of Equity Securities Resulted from Banking Book

The Bank has no position risk of equity shares as of 31 December 2019 (31 December 2018: None).

VI. Explanations on Consolidated Liquidity Risk and Liquidity Coverage Ratio

The Board of Directors reviews the liquidity and funding risk management policy weekly or in case of necessity. Liquidity risk is managed by Asset and Liability Committee (ALCO) in line with risk management policy as short and long term liquidity risk.

Liquidity Risk is managed by ALCO in order to take the necessary measures in a timely and correct manner against possible liquidity shortages. Treasury department manages cash inflows and outflows in line with strategies determined by ALCO. As deemed necessary by the ALCO members, liquidity meetings are performed for the purposes of close monitoring. Treasury department manages short term liquidity by adhering to the ALCO strategy and ensuring compliance with legal liquidity limits and stress testing.

In the context of TL and foreign currencies liquidity management, the Bank monitors the cash flows weekly and action plan is made based on ALCO decisions. The funding balance is directly monitored and compensated by making the risk-return-cost evaluation.

For long-term liquidity "Maturity Mismatch Report" is prepared and presented to ALCO on a weekly basis. The Bank, resulting from the general structure of Turkish banking sector, has a liquidity gap at the 1 year maturity period. The Bank intends to eliminate liquidity mismatch shifting focus to long-term funding alternatives. Such decisions of the risk of incompatibility are taken by ALCO. The Bank diversifies its funding sources among customer deposits, domestic and foreign borrowings, bills and bonds issued, taking into consideration the maturity match between its assets and liabilities and keeps liquid assets in order to fully meet the liquidity requirements that may emerge in case of market volatility.

Information on the use of stress testing

Department of Risk Management implements stress testing according to Liquidity and Funding Risk Policy approved by the Board of Directors on a weekly basis. These stress tests are based on the scenarios of the deposit outflow, funds obtained from bonds issued will outflow and banks limits will not be used during a 14-day period, the results are included in the presentation of ALCO on a weekly basis and in the Presentation of Risk Committee on a monthly basis. By this way, the Bank's funding structure is closely monitored and actions are taken on behalf of existing risk management.

Alternative funding sources are identified in case of need. ALCO members are responsible for taking actions against short-term liquidity shocks. In the case of a crisis or if deemed necessary, ALCO summon a meeting and take necessary actions immediately. These action plans are approved by the Board of Directors under the İSEDES. The Bank reviews resources that are available in any emergency situation constantly and takes into consideration the results of the above-mentioned stress testing and scenario analysis by the early warning system.

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks"; published in the Official Gazette numbered 28948, dated 21 March 2014; liquidity ratio is required to be 80% for foreign currency assets/liabilities and 100% for total assets/liabilities in the calculation of the banks' weekly and monthly reporting effective from 1 January 2019.

FİBANKKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

VI. Explanations on Consolidated Liquidity Risk and Liquidity Coverage Ratio(continued)

The table below shows the lowest, highest and average Liquidity Coverage Ratio in the last 3 months of the 1 January - 31 December 2019 period.

Current Period	Highest	Date	Lowest	Date	Average
TL+FC	220,20%	23/12/2019	110,77%	27/11/2019	140,33%
FC	229,35%	25/12/2019	107,14%	26/11/2019	141,54%
Prior Period	Highest	Date	Lowest	Date	Average
TL+FC	255,22%	09/11/2018	133,07%	30/11/2018	174,10%
FC	264,40%	09/11/2018	114,14%	31/12/2018	166,86%

The Bank implements the calculation in accordance with the Regulation of Liquidity Coverage Ratio Calculation of Banks dated 21 March 2014 and numbered 28948 published in the Official Gazette. As per the related regulation high quality liquid assets are mainly securities portfolio, cash assets and reserve requirements. The important factors affecting the results of the liquidity coverage ratio are the changes in the remaining maturities of the items and changes in the amounts of deposits and money market transactions, the remaining maturities of which are less than 30 days. Deposits form a significant portion of the Bank's sources of funds, on the other hand bonds issued, money market borrowings, funds provided from abroad are other important sources of funding.

VII. Explanations on Consolidated Leverage Ratio

The table of leverage level calculated in accordance with the Regulation on Assessment and Calculation of Banks' Leverage Level published in the Official Gazette numbered 28812 and dated 5/11/2013 shown below.

Bank's consolidated leverage ratio calculated in accordance with the "Regulation on Assessment and Calculation of Banks' Leverage Level" is 6,82%. The decrease in the ratio is due to the increase in total risk. Minimum leverage ratio has to be 3% according to the regulation.

	Balance sheet assets	Current Period(*)	Prior Period(*)
1	Balance sheet items (excluding derivative financial instruments and credit derivatives but including collaterals)	22.022.023	19.226.259

VIII. Explanations on presentation of financial assets and liabilities at their fair values

Valuation methods of the financial instruments valued with their fair value are shown below.

	Book Value		Fair Value	
	Current Period	Prior Period	Current Period	Prior Period
Current Period				
Financial assets	17.527.913	16.460.809	17.710.363	16.165.548
Money market placements	30.010	306.208	30.010	306.208
Due from banks	490.826	965.814	490.826	965.814
Financial assets at fair value through other comprehensive income	807.568	704.338	807.568	704.338
Loans measured at amortised cost	575.098	363.032	605.709	332.424
Loans	15.624.411	14.121.417	15.776.250	13.856.764
Financial liabilities	18.291.142	16.790.171	18.291.142	16.790.171
Interbank deposits	49.126	639.755	49.126	639.755
Other deposits	13.516.562	10.673.386	13.516.562	10.673.386
Funds provided from other financial institutions	859.381	1.339.212	859.381	1.339.212
Marketable securities issued	3.507.350	3.438.728	3.507.350	3.438.728
Miscellaneous payables	358.723	699.090	358.723	699.090

(*) Securities issued as subordinated debt classified under "Subordinated debt- Other debt instruments" in the balance sheet are also included.

Fair values of financial assets measured at FVTOCI and measured at amortized cost are calculated by market prices or in case of absence of such prices, market prices of other securities quoted in similar qualified markets and having substantially similar characteristics in terms of interest, maturity and other conditions.

Fair values of loans are calculated discounting future cash flows at current market interest rates for fixed-rate loans. The carrying values of floating-rate loans are deemed as approximation for their fair values.

Fair values of other financial assets and liabilities represent the total acquisition costs and accrued interest.

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

IX. Explanations on transactions carried out on behalf of customers and fiduciary activities

None.

X. Explanations on consolidated securitisation positions

The Bank does not have any securitization positions as of balance sheet date.

XI. Explanations on risk management objectives and policies

The Bank does not apply any netting on balance sheet and off-balance sheet. Guarantees and derivatives are not used as credit mitigation techniques; but only financial collaterals consisting of cash blockages are used.

Risk Management System refers to the Board of Directors, the Audit Committee, the Risk Management Committee, the Asset-Liability Committee and the Risk Management Department which have been composed in order to manage systemic risks that the Bank is exposed to. The Board of Directors is the owner of the Bank's Risk Management System and ensures the establishment of an effective, sufficient and appropriate risk management system as well as the continuity of the system. The main objective of the Bank's Risk Management System is to identify, measure, monitor and control the risks that the Bank is exposed to, by determining the policies, limits and procedures to control, to monitor, and if necessary to change the risk-return structure of the Bank's future cash flows, the level and the quality of related activities.

As part of the Risk Management System, the Asset and Liability Committee presentation is prepared on a weekly basis and the Risk Committee and the Board of Directors presentations are prepared on a monthly basis. The presentations mainly consist of the Bank's financial statements, profit and loss analysis, credit risk, market risk, liquidity risk, concentration risk, interest rate risk due to banking book, and operational risk as well as the risk that the Bank is currently exposed to or possible risks.

The Board of Directors of the Bank delegated the authorization related to the hedge accounting to the Asset and Liability Committee with the condition of providing regular information. At the same time the Bank has organized credit policies and risk mitigation policies due to credit risk. All processes of the Bank are controlled by the Bank's Internal Control Department's control matrices regularly and are subject to supervision by the Internal Audit Department at the same time.

The Bank uses credit rating models and/or decision trees and rating systems using financial and non-financial data for loan customers as a risk measurement system. Market risk measures are calculated within the scope of the Regulation on Measurement and Evaluation of Capital Adequacy of Banks and using only internal model and market data for intra-bank use. In addition to these, risks are measured and reported with regular stress tests. Three stress tests (base, negative, extremely negative) are performed on a yearly basis, stress tests are performed on a monthly basis for market risk and counter party credit risk, stress tests are performed on a weekly basis for interest rate risk and liquidity risk by Risk Management Department of Bank and then they are shared with senior management in the ALCO and the Risk Committee meetings.

Periodic reports about liquidity risk, interest risk, securities portfolio, credit risk, customer concentration, sectorial concentration, collateral structure and capital adequacy are reported to the Board of Directors and senior management.

XI. Explanations on risk management objectives and policies (continued)

Notes and explanations in this section have been prepared in accordance with the Communiqué on Disclosures about RWA flow statements of credit risk exposures under IRB Risk Management to Be Announced to Public by Banks that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016. Due to usage of standard approach for the calculation of capital adequacy by the Bank, the following tables which prepared annually basis have not been presented as of 31 December 2019:

- RWA flow statements of credit risk exposures under IRB (Internal Ratings Based)
- RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- RWA flow statements of market risk exposures under an Internal Model Approach (IMA)
- Qualitative disclosures related to IRB models
- IRB - Credit risk exposures by portfolio and PD range
- IRB - Effect on RWA of credit derivatives used as CRM techniques
- IRB - Backtesting of probability of default (PD) per portfolio
- IRB (specialised lending and equities under the simple risk weight method)
- CCR exposures by portfolio and PD scale
- Quantitative disclosures related to IRB models
- Internal model approach for trade account

FİBABANKA A.Ş. AND ITS SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

Explanation on the differences between the risk amounts and the amounts assessed in accordance with TAS in the financial statements:

Disclosures regarding differences between amounts valued according to TAS and risk exposures

The differences between the amounts assessed under TAS and the amounts after risk reduction in transactions subject to counterparty credit risk stem from the addition of potential risk amounts to the renewal costs of derivative transactions subject to the CPR and the volatility adjustments for repo / reverse repo transactions. Funds provided to differences arising from risk reduction are also included by opening separate line for them.

Valuations of securities subject to market risk in accordance with TAS represent the fair value of held for trading financial instruments. On the other hand, the values in the risk amount line represents the amount subject to market risk based on the capital requirements calculated for the losses arising due factors such as interest rate risk of the market risk, equity price risk, currency risk in accordance with the "Regulation for Measurement and Evaluation of Banks' Capital Adequacy Ratio".

If financial instruments that are accounted for at their fair values are traded in an active market, the valuation is based on that market price. The TL borrowing instruments in the held for trading securities portfolio comprise of government securities. These securities are evaluated at the weighted average trading price in the Istanbul Stock Exchange. For TL securities that are not traded, the market price is calculated based on the CBRT prices. For the FX securities in the same portfolio, the average of purchase and sale quotations in the market are considered as the market price. Derivative financial instruments are evaluated using the discounted cash flow model using market data. Input data used in evaluations using market value and/or valuation methods are periodically checked for validity and independence.

Information on Credit Risk

General Qualitative Information on Credit Risk:

The Bank's credit risk management policies are established in line with the strategy approved by the Board of Directors in accordance with the related regulations and are based on prudence, sustainability and the customers' credit worthiness principles.

The limits are set in accordance with the Risk Policies by the Board of Directors based on the Bank's risk appetite. In accordance with the determined risk limits, the authorizations and sub-authorizations are done by the Credit Policies which is in line with the determined limits. Special attention is given to ensure that the limits are in line with market expectations and the Bank's strategies.

Credit rating models and decision trees are used in the credit underwriting processes in accordance with the risk appetite, credit policies set by the Bank and the targets of the Bank. The grading of all customers except for individual credit customers by the Bank is essential. The individual loan portfolio is managed via an automated decision trees.

Customer selection is carried out in accordance with policies and strategies of the Bank and is based on the ability to pay on time and the cash flows expected to be received from its operations independent from guarantees, sureties and pledged assets. When needed; it is mandatory for the Bank to obtain appropriate collateral in line with the source of the payment for the repayment of the credit from the customers to ensure that their obligations arising from the credit are met on time and in full. The main purpose of collateralization of any loan is to minimize the credit, foreign exchange and maturity risks. In this context, a minimum collateral margin is determined by taking into account the collateral quality and the collection expectations given default and it is ensured that the appropriate collateral is obtained based on the credit type. Before a credit relationship is established with a customer, an analysis and intelligence collection are carried out in order to measure the creditworthiness of the customers. Before the credit decisions; the customer is examined and evaluated with an analysis for factors that have affected its past, present and future performances and any other factors (financial and non-financial data) that may affect its past, present and future performances.

General Qualitative Information on Credit Risk (continued):

Credit risk is encountered when the counterparty is unable to fulfill its obligations defined with the agreement. All credit risk bearing banking products are managed with prudent credit policies and procedures in the Bank. The credit quality of the counterparty is evaluated with an internal rating score in all corporate, commercial and SME credit transactions. In order to monitor the credit risk, internal limits are determined on the basis of sector, maturity, customer and internal rating to avoid the risk of concentration.

Credit risk management is a process in which credit risks are assessed and monitored in a consistent manner, besides all credit portfolios are included on a consolidated basis. Credit risk is managed on the basis of portfolios, risk / return balance and asset quality of the Bank, and the credit risk is governed by the principles contained in the policy documents. In addition, credit-based evaluation, underwriting and follow-up are carried out by the units in the Loans group within the framework of the relevant processes. Loans proposals are evaluated by the credit units of the Headquarters, if necessary, within the framework of the level of authority based on the determined amount and finalized the loan proposal by the Credit Committee and the Board of Directors.

The units carry out their risk management activities in accordance with the risk appetite and capacity of the Bank through the use of risk measurement and management tools within the policies established by the Board of Directors. In this context, the organizational structure for credit risk management and control functions is detailed as follows the units included in the scope of Credit Risk Management are Corporate Loans, Commercial Loans Allocation, Credit Monitoring and Collection Department and Risk Analysis Department. Decisions on credit policies are taken by the Credit Committee. Allocated credit limits and usages, exceeded limits, assessments of large risks and overdue loans are regularly reported to the senior management.

In the course of credit risk management, the Risk Management Department conducts monitoring and reporting of internal concentration limits. It is ensured that the policies related to the concentration risk management are prepared and processed within the policies of allocation, monitoring, limit monitoring and management. Regular reporting on the cost of the loan and the development of the following loans is made. In addition, stress test and scenario analysis studies related to the loan portfolio are carried out within the scope of ICAAP.

The evaluation of the internal systems established to cover all branches and units and the maintenance of the continuity of functioning, competence and efficiency are among the highest priorities of the Bank's Board of Directors. Within the scope of internal systems, the duties and responsibilities of the Board of Directors, Internal Audit, Internal Control and Operational Risk and Risk Management activities are carried out by the Audit Committee.

Information on consolidated credit risk mitigation techniques

The Bank does not apply any netting on balance sheet and off-balance sheet. Guarantees and derivatives are not used as credit mitigation technique; only financial collaterals consisting of cash blockages are used.

Applications related to the valuation and management of collaterals are defined as follows: Appraisals for the mortgages that are received as collaterals are only performed by the firms that have been approved by the BRSA and licensed by the Capital Markets Board ("CMB"). Appraisal reports for the real estates that are received as collaterals for commercial loans, are renewed each year as long as the risk continues. As a rule, each year a different appraisal firm is preferred. Management of the appraisal process is carried out by Appraisal & Real Estate Project Finance Unit. Vehicle pledges are followed through their insurance values. Regular investigations are performed for the cheques and bills that are received as collaterals and in case of any negative finding the Bank seeks to replace the collateral.

The Bank's collaterals are mainly composed of cheques, notes, mortgages, guarantees, vehicle pledges and deposit pledges. The Bank's credit risk concentration mainly consists of corporate receivables and are followed by receivables that are collateralized with mortgage, SME and retail receivables, respectively.

Exposure Categories *	Amount	Financial Collaterals	Other/Physical Collaterals **	Guarantees and Credit Derivatives

Explanations on consolidated market risk

Whether the Group within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

In order to hedge against the market risk within the context of the risk management objectives, the Group sets its activities related with market risk management in accordance with "Regulations on Banks' Internal Control and Risk Management Systems" published in the Official Gazette no. 29057 dated 11 July 2014 and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 29511 dated 23 October 2015.

Being exposed to market risk, Bank's Board of Directors have defined risk management strategies and policies about risk managements in line with application and recommendation of group and have led to follow-up strategies periodically. The limits of risks are identified and these limits are revised periodically. Board of Directors ensures that risk management group and executive managers should identify, measure, control and manage the Bank's risk.

Market risk arising from trading transactions is limited through the risk appetite policy approved by Board of Directors as "low" and measured by taking into consideration BRSA's standard methodology. Additionally Financial Control Department reports the market value and realized profit/loss of trading portfolio. The Risk Management and Asset Liability Committee continuously monitor compliance of trading transactions with the risk appetite policy. Market risk caused by mismatches of asset-liability maturities is also monitored through GAP reports.

Stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Risk measurement methods such as cash flow projections and GAP analysis are also applied.

Capital to be kept for general market risk and specific risk are calculated by using a standard method in accordance with "Measurement and Assessment of Bank Capital Adequacy Regulation" and are reported monthly.

In the calculation of the value at credit risk for the derivative financial instruments, the receivables from counterparties are multiplied by the rates stated in the Article 21 and Appendix-2 of "the Regulation on Measurement and Assessment of Capital Adequacy of Banks", reduced as per the "Regulation on Credit Risk Mitigation Techniques" following included in the relevant exposure category and weighted for a second time. The risk amount related to the Bank's derivative financial instruments are calculated using the "Fair Value Method".

1. Quantitative information on counterparty risk

The counterparty risk amount is calculated in accordance with fair value measurement methodology stated in Appendix 2 and section 3 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

The replacement costs of the contracts with positive value are obtained by evaluating the contracts according to their fair value. The potential credit risk amount is calculated by multiplying contract or transaction amounts with certain ratios determined in accordance with days to maturity and contract type. The total of replacement cost and potential credit risk make up counterparty risk amount. Counterparty credit risk mitigation considers only cash collaterals.

Explanations on consolidated operational risk

The value at operational risk is calculated according to the "basic indicator approach". Value at operational risk amount is calculated by using the last 3 years' (2018, 2017, 2016) gross income, in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" issued on Official Gazette dated September 6, 2014 numbered 29111, "Calculation of Operational Risk". 15% of gross income which is TL 118.842 (31 December 2018: TL 89.171) represents also the minimum capital requirement to recover the risk amount.

Current Period	31/12/2016	31/12/2017	31/12/2018	Total/ No. of Years of Positive Gross Income	Rate (%)	Total
Gross Income	622.298	716.364	1.038.186	792.283	15	118.842

FOR THE PERIOD BETWEEN 1 JANUARY- 31 DECEMBER 2019

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

13. Information on intangible assets

13.1 Useful lives and depreciation rates

The useful life of an asset is determined by taking the asset's expected economic life, technical, technological or other kinds of obsolescence, and maintenance costs into account. The amortization rates used are in accordance with the useful lives of the underlying assets. The useful lives are determined as defined by TAS 38 "Intangible Assets".

The Group's intangible assets consist of software programs and rights, and their useful lives range between 3 to 10 years

13.2 Depreciation methods

Depreciation for assets which are in balance sheet for less than one year is calculated by the straight line method by proportioning the duration of asset in the balance sheet to the predicted yearly depreciation amount.

13.4 Movements of intangible assets for the current period

	Current Period	Prior Period
Cost

V. Explanations and disclosures related to statements of changes in consolidated shareholders' equity

1. Information on inflation adjustment difference of shareholders' equity

As per the circular issued by the BRSA on 28 April 2005 and the decision of BRSA No: 1623 on 21 April 2005, the inflation accounting applied in banking system has been decided to be ceased as at 1 January 2005.

In accordance with the circular, TL 17.416 inflation adjustments to paid-in-capital until 31 December 2005 have been transferred to "Other Capital Reserves" account which was formerly recognized in "Inflation Adjustment to Paid-in-Capital" account. Mentioned inflation adjustment was used in the capital increase from TL 426.650 to TL 550.000 together with TL 9.502 profit from the disposal of real estate and TL 96.432 cash contribution of Fiba Holding A.Ş. in accordance with the Board of Directors decision dated 25 February 2013. Legal procedures were completed on 29 May 2013 and capital increase was accounted for in the financial statements.

2. Information on profit distribution

The decision relating to distribution of 2019 profit will be made at the General Assembly.

At the General Assembly meeting held on 27 March 2019, 2018 profit of the Parent Bank was decided to be distributed as follows:

Profit or Loss	196.659
A- Legal Reserves	9.833
B- Extraordinary Reserves	186.826

3. Information on foreign exchange difference

None.

4. Information on financial assets at fair value through other comprehensive income

Mark to market gains and losses on financial assets at fair value through other comprehensive income securities are not reflected to profit and loss but recognized in equity under "Securities Valuation Reserve" account until such securities are sold, redeemed, disposed of or impaired; recognised as "Accumulated Other Comprehensive Income or Loss Not Reclassified Through Profit or Loss" under equity.
