REPORT ON REVIEW OF CONSOLIDATED INTERIM FINANCIAL INFORMATION

To the Board of Directors of Fibabanka A.Ş.

Introduction

We have reviewed the accompanying consolidated balance sheet of Fibabanka A.Ş. ("the Bank") and its consolidated subsidiary (together will be referred as "the Group") as at 30 June 2016, and the consolidated statement of income, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with the "the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Regulations" including the regulation on "The Procedures and Principles Regarding Banks' Accounting Practices and Maintaining Documents" published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" principles for the matters not legislated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Limited Review

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information does not present fairly, in all material respects, the financial position of Fibabanka A.Ş. and its subsidiary as at 30 June 2016, and of the results of their operations and their cash flows for the six-month period then ended in accordance with the BRSA Accounting and Reporting Regulations.

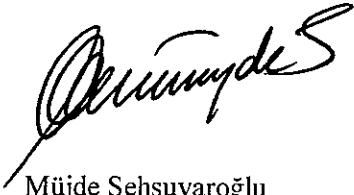

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the Management's interim report included in section seven of the accompanying consolidated financial statements, is not presented fairly, in all material respects, and is not consistent with the reviewed interim financial statements and the explanatory notes.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. History of the Parent Bank Including Its Incorporation Date, Initial Status and Amendments to the Initial Status

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of BRSA No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as BankEuropa Bankası A.Ş.

In the extraordinary General Assembly held on 28 November 2006, the name of Bank Europa Bankası A.Ş. was amended as Millennium Bank A.Ş.

On 27 December 2010, acquisition of the Bank by Credit Europe Bank N.V., which is an affiliate of Fiba Holding A.Ş., has been realized.

In the extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. has been amended as Fibabanka A.Ş. ("the Bank" or "the Parent Bank").

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control over the Management and Internal Audit of the Parent Bank, Changes in Shareholder Structure during the Current Period, if any and Information on the Parent Bank's Risk Group

On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Bank's shares to Credit Europe Bank N.V. and the legal approval process has been completed as of 27 December 2010. Credit Europe Bank N.V. is 100% owned by Credit Europe Group N.V. which is a banking group incorporated in Netherlands and an affiliate of Fiba Holding A.Ş.

Credit Europe Bank N.V.'s share of capital increased from 95% to 97.6% after the capital increases during 2011 and 2012. Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97.6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2.4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012. There were sales of equity shares to the management of the Bank in 2013. Total share of the management is 1.04%.

The Parent Bank applied to the BRSA on 14 January 2015 for permission of the subordinated loan provided from Fiba Holding A.Ş. in the amount of USD 50 million to be converted to share capital. Following the authorization of the BRSA on 4 March 2015, the Board of Directors decision was taken on 5 March 2015 regarding share capital increase from TL 550,000 to TL 678,860. TL 127,045 of the increase was provided by the subordinated loan granted by Fiba Holding A.Ş. which had been approved to be converted to capital and TL 1,815 of total capital was paid in cash by the other shareholders, capital increase was recognised in financial statements following the completion of the legal procedures on 7 May 2015.

The Parent Bank's paid-in capital amounting to TL 678,860 was increased to TL 847,515 on 23 December 2015 with equal contributions from International Finance Corporation ("IFC") and European Bank for Reconstruction and Development ("EBRD") amounting TL 168,655 in total. In addition, share issuance premium of TL 73,379 was recognised in the shareholders' equity.

SECTION THREE

ACCOUNTING PRINCIPLES

I. Explanations on the basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and in accordance with “the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Regulations” including the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency (“BRSA”), and in case where a specific regulation is not made by BRSA, “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards” (“TFRS”) and related appendices and interpretations put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”). The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements” and “Communiqué On Disclosures About Risk Management To Be Announced To Public By Banks” and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

The consolidated financial statements are prepared in thousands of TL based on the historical cost convention, except for the financial assets and liabilities carried at fair value.

2. Accounting policies and valuation principles applied in preparation of consolidated financial statements

The accounting policies and valuation principles used in the preparation of the consolidated financial statements are selected and applied in accordance with the requirements set out in regulations, communiqués, statements and guidance and if there is no special regulation by the BRSA in accordance with to the principles within TAS/TFRS, are consistent with the accounting policies applied in the annual financial statements prepared for the year ended 31 December 2015. The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXIII below.

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within pre-determined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions (cond't)

2. Foreign currency transactions

2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements

The Group recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions as of 30 June 2016 are translated into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the period and the related currency translation differences are recognized as foreign exchange gains and losses.

As at the end of the related periods foreign currency exchange rates are as follows:

	30 June 2016	31 December 2015
US Dollar	2.8936	2.9076
Euro	3.2044	3.1776

2.2 Foreign exchange gains and losses included in the income statement

As of 30 June 2016, net foreign exchange gain included in the income statement amounts is TL 2,746 (1 January – 30 June 2015: TL 1,551 gain).

III. Explanations on subsidiary

Fiba Portföy Yönetimi A.Ş. (“Fiba Portföy”); the subsidiary of the Bank was consolidated by using full consolidation method in the consolidated financial statements dated 30 June 2015. Fibabanka A.Ş. and Fiba Portföy Yönetimi A.Ş. together are referred to as “the Group” in the report.

Capital Markets Board (“CMB”) approved Fiba Portföy’s licence application for portfolio management activity and the licence numbered PYŞ. PY 56/1267 and dated 12 December 2013 was assigned to Fiba Portföy.

The objective of Fiba Portföy is to manage portfolios consisting of financial assets as a representative by entering into portfolio management contracts in accordance with CMB laws and relevant regulation and also to perform capital markets operations. Besides, Fiba Portföy can manage the portfolios of local and foreign investment funds, investment trusts, local/foreign real persons, brokerage companies and other similar legal entities within the context of the related regulation as portfolio management activities. On the condition that, the requirements of the Capital Markets regulations are fulfilled and necessary approvals and licences from the Capital Markets Board are obtained; Fiba Portföy can also perform investment advisory services, market consultancy in Borsa İstanbul A.Ş. Emerging Companies Market, and intermediary services for the trading of investment fund certificates. The Bank owns 99% of the equity of Fiba Portföy whose headquarters is located in Istanbul.

According to full consolidation method, the subsidiary’s 100% of assets, liabilities, revenues, expenditures and off-balance sheet liabilities were combined with the Parent Bank’s assets, liabilities, revenues, expenditures and off-balance sheet liabilities. Book value of the investment in the Group’s subsidiary and the portion of the cost of subsidiary’s capital belonging to the Group are eliminated. All intragroup balances and income and expenses relating to transactions between the Bank and its subsidiary are eliminated in full on consolidation. Minority shares in the net income of consolidated subsidiary determined the net income of the Group and were demonstrated as a separate item in the income statement. Minority shares were presented under equity in the consolidated financial statement.

IV. Explanations on forward transactions, options and derivative instruments

1. Explanations on derivative financial instruments held for trading

The Parent Bank's derivative transactions mainly consist of foreign currency swaps, interest rate swaps, foreign currency options and forward foreign currency purchase/sale contracts. The Parent Bank does not have any embedded derivatives separated from the host contract.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps and options are classified as "hedging purpose" and "trading purpose" transactions. Derivatives are initially recognized at cost including the transaction costs. Also, the assets and liabilities arising from the derivative transactions are recorded as off-balance sheet items at their contractual notional amounts. The derivative transactions held for trading are valued at fair-value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for trading" or "derivative financial liabilities held for trading" items of the balance sheet depending on the difference's being positive or negative.

2. Explanations on derivative financial instruments held for risk management

The Parent Bank enters into cross currency swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item, which is fixed rate TL denominated loans, are presented in statement of financial position together with the hedged item.

The Parent Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

V. Explanations on interest income and expenses

Interest income and expenses calculated using internal rate of return are recognized on accrual basis. In accordance with Banking Act No: 5411 Articles 53 and 93, based on the prevailing communique, interest accruals on loans becoming non-performing are reversed and also ceased to accrue interest on such loans until these loans are classified as performing or collected.

VI. Explanations on fee and commission income and expenses

Fee and commission income / expenses are recognized based on cash basis or accrual basis upon the nature of the transaction.

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into four groups as financial assets at fair value through profit or loss, held to maturity investments, loans and receivables and available-for-sale financial assets.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 JUNE 2016**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

1. Financial assets at fair value through profit or loss

1.1 *Financial assets held for trading*

Financial assets held for trading are recognized at their fair values and any gain or losses resulting from such valuation are recorded in the profit and loss accounts. Interests received during the holding period of such financial assets and the difference between the amortized cost (calculated using internal rate of return) and the acquisition cost are recognized as interest income in the income statement. Gains and losses on sale of held for trading financial assets before their maturity and the difference between market value and amortized cost (calculated using internal rate of return) of such financial assets are recognized in gains and losses on securities trading under income statement.

1.2 *Financial assets at fair value through profit or loss*

The Group does not have any financial assets designated as “financial assets at fair value through profit or loss”.

2. Available for sale financial assets

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables. Financial assets available-for-sale are measured at their fair values subsequently.

Interest income of the investments securities available-for-sale; based on the internal rate of return; are included in the income statement. Unrecognized gain/losses derived from the difference between their fair value and the discounted values are recorded in “Marketable Securities Revaluation Reserve” under the shareholders’ equity. In case of disposal, gains/losses recognized under equity are realized and recognized directly in the income statement.

Purchase and sale transactions of securities are accounted for on a settlement date basis.

3. Held to maturity investments

The Group does not have any held to maturity investments as of 30 June 2016.

4. Loans and receivables

Loans and receivables are financial assets, which are generated by providing funds, goods or services to the debtor.

Loans and receivables are financial assets with fixed or determinable repayment schedules and they are not traded in an active market.

Loans are initially measured at their acquisition cost and subsequently measured at amortized cost calculated using effective interest rate method in accordance with TAS 39 “Financial Instruments: Recognition and Measurement”. Duty charges, transaction fees and other expenses paid for the collaterals of the loans are considered as part of the transaction costs and charged to the customers.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VIII. Explanations on impairment of financial assets

Financial asset or groups of financial assets are reviewed by the Group at each balance sheet date to determine whether there is objective evidence of impairment. If any such indicator exists, the Group determines the amount of impairment.

Impairment loss incurs if, and only if, there is objective evidence that the reliably estimated future cash flows of financial asset or group of financial assets are adversely affected by an event(s) (“loss event(s)”) incurred subsequent to initial recognition.

The Group provides specific and general allowances for loan and other receivables classified in accordance with the Communiqué published on the Official Gazette No.2633 dated November 1, 2006. The allowances are recorded in the income statement of the related period.

IX. Explanations on offsetting financial instruments

If the fair values of equity shares held for trading and quoted at the stock exchanges are lower than their carrying values, allowance for impairment is recognized and the recognized impairment is offset with the related assets on the face of the balance sheet.

Specific allowances for non-performing loan and other receivables are provided in accordance with “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”. Such allowances are offset with loans under follow-up on the asset side. Other financial assets and liabilities are offset when the Bank has a legally enforceable right to offset.

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit and loss”, “Financial assets available for sale” or “Investments held to maturity” according to their purposes to be held in the Group’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities, and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

Reverse repo transactions are recorded under the “Receivables from reverse repurchase agreements” account.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a part of the Bank’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Group consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33.3%.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) “Tangible Assets”.

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

FİBABANKA A.Ş. AND ITS SUBSIDIARY**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 JUNE 2016**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Explanations on tangible assets (cont'd)

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Asset	Estimated useful lives (Years)	Depreciation Rate (%)
Safe boxes	2-50	2-50
Vehicles	5	20
Real Estate	50	2
Other Tangible Assets	4-50	2-25

XIV. Explanations on leasing transactions

Duration of financial leasing contracts is maximum 4 years. Tangible assets obtained via financial leasing are classified as the Group's assets or liabilities resulting from financial leasing according to its nature. Assets obtained via financial leasing are depreciated in accordance with the principals for tangible assets. Rent payments for operating leases are recorded at equal amounts as expense during the payment period.

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Standard on the Benefits Provided to Employees. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in financial statements. All the actuarial gains and losses as are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate is as 10.75%, inflation rate as 7.75% and real rate of rise in salary as 0.00%.
- As ceiling salary amount TL 3,828.37 (full basis TL) (in use as of 31 December 2015) is based on.
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVIII. Explanations on taxation

1. Current Tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

2. Deferred tax

The Group calculates and recognizes tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

Deferred tax assets and liabilities of the companies included in the consolidation are netted off but not netted off in consolidated balance sheet.

As of 30 June 2016, TL 658 of deferred tax asset and there is no deferred tax liability were recognized in the Group's financial statements. (31 December 2015: TL 1,713 deferred tax asset).

Deferred tax benefit/ (charge) is recognized within "Deferred tax benefit/ (charge)" in the income statement. For the current period, deferred tax benefit is TL 1,847 (1 January – 30 June 2015: TL 1,559 deferred tax charge). Deferred tax effects of the transactions and events recognized directly in the equity are also recognized directly in the equity which is TL 2,902 loss (30 June 2015: TL 715 gain).

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

3. Transfer pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices by the Group on time.

XIX. Additional explanations on borrowings

The Group provides resources from both domestic and foreign foundations and real persons through borrowings and securities issued.

Borrowing funds are initially measured at acquisition cost and subsequently measured at amortized cost. In the accompanying financial statements, foreign currency denominated borrowing funds are translated to Turkish Lira with the Group’s spot foreign exchange buying rates and interest expenses incurred during the period relating to the borrowing funds are recognized in income statement.

The Group applies general hedging techniques for mitigating the liquidity risk, interest rate risk and currency risk of the borrowing funds. Those techniques do not meet the definition of hedge accounting according to TAS 39. There are no convertible bonds or any other bonds issued by the Bank as at the balance sheet date.

XX. Explanations on share certificates issued

There are no certificate shares issued in the current period.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXII. Explanation on government incentives

As of the balance sheet date, the Group does not have any government incentives.

XXIII. Explanations on segment reporting

Segment reporting is presented under section four, note VIII.

XXIV. Other matters

None.

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from the subordinated loan, bonds and general provisions. In the calculation of Total Capital, general provision up to 1.25% credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operating leases followed under tangible assets in the balance sheet, and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

II. Explanations on consolidated risk management

Notes and explanations in this section have been prepared in accordance with the “Communiqué On Disclosures About Risk Management To Be Announced To Public By Banks” that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016.

As the Bank uses the standard approach for the calculation of capital adequacy, the following tables those have to be disclosed in accordance with the Communiqué on a quarterly and semi-annually basis were not presented by the Bank as of 30 June 2016:

- RWA flow statements of credit risk exposures under IRB (Internal Ratings Based)
- RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- RWA flow statements of market risk exposures under an Internal Model Approach (IMA)
- IRB – Portfolio and CCR exposures by portfolio and PD scale
- IRB – Effect on RWA of credit derivatives used as CRM techniques
- IRB – Specialised lending and equities under the Simple Risk-Weight Method
- CCR exposures by portfolio and PD scale
- Internal Models Approach values for trading portfolios
- Comparison of VaR estimates with gains/losses

In addition to this, the following tables those have to be disclosed in accordance with the Communiqué were not included as the Bank does not have such transactions:

- Credit derivatives statement
- Exposures to central counterparties statement
- Securitisation exposures in banking book statement
- Securitisation exposures in the trading book statement
- Securitisation exposures in the banking book and associated regulatory capital requirements – bank acting as originator or as sponsor
- Securitisation exposures in the banking book and associated regulatory capital requirements – bank acting as investor

III. Explanations on consolidated currency risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Bank does not take foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 30 June 2016, the Group's net foreign currency short position is TL 14,403 (31 December 2015: TL 112,574 short position) resulting from short position on the off balance sheet amounting to TL 283,212 (31 December 2015: TL 47,170 long position) and long position on the balance amounting to TL 268,809 (31 December 2015: TL 159,744 short position). "Standard Method" is used in legal reporting to measure the foreign exchange risk.

The announced current foreign exchange buy rates of the Bank at 30 June 2016 and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date (full basis TL)	TL 2.8936
Euro purchase rate as at the balance sheet date (full basis TL)	TL 3.2044

Date	USD	EUR
24 June 2016	2.8799	3.2728
27 June 2016	2.9266	3.2444
28 June 2016	2.9365	3.2402
29 June 2016	2.9130	3.2262
30 June 2016	2.8936	3.2044

Simple arithmetic means of foreign exchange rates in June 2016 are TL 2.9170 for US dollar, and TL 3.2774 for Euro. (Full basis TL)

IV. Explanations on consolidated interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and asset-liability risk measurement methods are used to measure the bank's interest rate risk.

Measurements by employing the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crises. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY – 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

V. Explanations on consolidated equity share position risk

As of 30 June 2016, there is no any equity share position (31 December 2015: None).

VI. Explanations on consolidated liquidity risk

The Board of Directors reviews the liquidity and funding risk management policy weekly or in case of necessity. Liquidity risk is managed by Asset and Liability Committee (ALCO) in line with risk management policy as short and long term liquidity risk.

Liquidity Risk is managed by ALCO in order to take the necessary measures in a timely and correct manner against possible liquidity shortages. Treasury department manages cash inflows and outflows in line with strategies determined by ALCO. As deemed necessary by the ALCO members, liquidity meetings are performed for the purposes of close monitoring. Treasury department manages short term liquidity by adhering to the ALCO strategy and ensuring compliance with legal liquidity limits and stress testing.

In the context of TL and foreign currencies liquidity management, the Bank monitors the cash flows weekly and action plan is made based on ALCO decisions. The funding balance being directly monitored and compensated by making the risk-return-cost evaluation.

It is included in the presentation on a weekly basis for long-term liquidity "Maturity Mismatch Report" made by ALCO. The Bank, resulting from the general structure of Turkish banking sector, has a liquidity gap at the 2 year maturity period. The Bank intends to eliminate liquidity mismatch by shifting focus to long-term funding alternatives. Such protection decisions of the risk of incompatibility are taken by ALCO. The Bank; diversifies its funding sources among customer deposits, domestic and foreign borrowings, bills and bonds issued; considers the maturity match between its assets and liabilities and keeps liquid assets in order to fully meet the liquidity requirements that may emerge in case of market volatility.

Information on the use of stress testing

Department of Risk Management implements stress testing on a weekly basis according to Liquidity and Funding Risk Policy approved by the Board of Directors. These stress tests based on the scenarios that deposit and, funds obtained from issued bonds will outflow; and banks limits will not be used in a 14-day period, and the results are presented in the presentation of ALCO meetings on a weekly basis and in Risk Committee meetings on a monthly basis. In this way, the bank's funding structure is closely monitored and necessary actions are taken.

Alternative funding sources are identified in case of need. ALCO members are responsible for short-term liquidity shocks to take actions. In the case of a crisis or if deemed necessary, ALCO summon a meeting and take possible action plans immediately. These action plans are approved by the Board of Directors under the İSEDES. The bank reviews resources that are available in any emergency situation constantly and take into consideration the results of the above-mentioned stress testing and scenario analysis by the early warning system.

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks"; published in the Official Gazette numbered 28948, dated 21 March 2014; liquidity ratio is required to be 50 % for foreign currency assets/liabilities and 70 % for total assets/liabilities in the calculation of the banks' weekly and monthly reporting effective from 1 January 2016.

31 December 2015	65.70 %	86.61 %
Average	64.63 %	90.05 %

The Bank implements the calculation in accordance with the Regulation of Liquidity Coverage Ratio Calculation of Banks dated 21 March 2014 and numbered 28948 published in the Official Gazette. The related regulations include items that are considered as high quality liquid assets; mainly the securities portfolio and cash assets and money held as required reserves. The important factors affecting the results of the liquidity coverage ratio; remaining maturities of 30 days exchange and money market transactions. Deposits form a significant portion of the Bank's sources of funds, on the other hand bonds issued, money market borrowings, funds provided from abroad are other important sources of funding.

While calculating liquidity coverage ratio, the Bank considers transactions arising from derivative transactions which have probability of cash flow and margin in accordance with the Regulation on Banks' Liquidity Coverage Ratio dated 21 March 2014 and numbered 28948 published in Official Gazette as taking 24-month average into account .

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

4. Evaluations of the Chairman of the Board of Directors and the General Manager Regarding the Interim Period

As of first half of 2016, Fibabanka has increased its loan portfolio by %46 compared to the same period of year 2015 and the loan portfolio has increased 16% by reaching TL 10.0 billion compared to the end of 2015. Growth was achieved especially in SME and commercial loans. SME and commercial loan portfolio has reached TL 9.3 billion by an increase of 16%. In the same period, share of SME and commercial loans in loan portfolio is approximately is 94%.

Despite the increase in the loan portfolio, the share of non-performing loans in total loans, realized as 1.7% level, well below the sector.

Our Bank, has funded its growing loan portfolio mostly with customer deposits also in 2016. In this period, customer deposits constituted 59% of total liabilities. In 2016, for the purpose of diversifying the funding resources, securities have been issued with nominal value of TL 853.9 million during the first six months of the year.

In 2016, with the changes on regulation on equity by Banking Regulation and Supervision Agency, decision was made for subordinated loans has to meet the new terms and conditions specified in the regulations to be taken into consideration as a supplementary capital, loans that doesn't meet these conditions will not be taken into consideration as a supplementary capital effective from 31 March 2016. In this context, loan amount of USD 10,000,000 provided from Eco Trade and Development Bank (ETDB) in 2013 was accommodated to these conditions, subordinated loan amount of USD 40,000,000 provided from the International Finance Corporation ("IFC") in the same year was converted to a loan which has no supplementary capital feature in agreement with IFC in March 2016, and again in 2013 loan amount of EUR 20,000,000 provided from the European Bank for Reconstruction and Development ("EBRD") was closed before its maturity in agreement with EBRD in April 2016.

After all these changes on regulation, Fibabanka issued amount of USD 100,000,000 subordinated bond in abroad in March 2016 providing with having the characteristics to be considered in supplementary capital account.

In line with these developments, in the first half of 2016, while loan volume has been increased, loans are diversified both in terms of maturity and sectors, portfolios with higher return and increasing number of customers were targeted for higher non interest income, in addition, the Bank achieved a steady growth with sustainable profit by keeping operating expenses under control. As a result, the Bank increased its profit before tax by 40% compared to the same period of the prior year which amounted to TL 67.4 million in the first half of 2016. Net profit after tax amounted to TL 48.9 million. As of 30 June 2016, capital adequacy ratio of our Bank is 13.2%.

Our strategic partnership continues conformably after World Bank Organization IFC (International Finance Corporation) and the EBRD (European Bank for Reconstruction and Development) took in partnership with our Bank by 19.90% in the last quarter of 2015, and this partnership contributes Fibabanka to reach its growth targets quickly.

In June 2016, our Bank signed capital participation agreement with TurkFinance B.V. (The Abraaj Group) to be a shareholder with 9.95% share in capital by the way of capital increase. This will be an important step in a more powerful way to continue to the growth of our Bank.
