Interim Review Report on Consolidated Interim Financial Statements

To the Board of Directors of Fibabanka Anonim Şirketi

Introduction

We have reviewed the consolidated statement of financial position of Fibabanka A.Ş. (“the Bank”) and its subsidiary (“the Group”) at June 30, 2018 and the related consolidated income statement, consolidated statement of income and expense items under shareholders’ equity, consolidated statement of changes in shareholders’ equity, consolidated statement of cash flows and a summary of other explanatory notes to the consolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and presentation of interim financial statements in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority and Turkish Accounting Standard 34 “Interim Financial Reporting” for those matters not regulated by BRSA Legislation (together referred as “BRSA Accounting and Financial Reporting Legislation”). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Basis of Qualified Conclusion

As explained in detail in Note II-8 of Section 5, the accompanying consolidated financial statements as at June 30, 2018 include a general reserve which does not meet the relevant criterias in TAS 37 “Provisions, Contingent Liabilities and Contingent Assets” for possible risks provided by the Bank Management for possible results of the circumstances which may arise from possible changes in the economy and market conditions amounting to TL 106,000 thousands out of which TL 55,500 thousands and TL 50,500 thousands which were provided during previous years and within the current period, respectively.

Qualified Conclusion

Based on our review, except for the effect of the matter referred in the basis of qualified conclusion paragraph on the prior and current period consolidated financial statements, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the financial position of Fibabanka A.Ş. and its consolidated subsidiary at June 30, 2018 and of the results of its operations and its cash flows for the six-month-period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VII, are not consistent with the consolidated financial statements and disclosures in all material respects.

Additional paragraph for convenience translation to English

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Financial Reporting Legislation, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated)

SECTION ONE

GENERAL INFORMATION

I. History of the Parent Bank including its incorporation date, initial status and amendments to the initial status

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of Banking Regulation and Supervision Agency (“BRSA”) No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as BankEuropa Bankası A.Ş.

In the extraordinary General Assembly held on 28 November 2006, the name of Bank Europa Bankası A.Ş. was amended as Millennium Bank A.Ş.

On 27 December 2010, acquisition of the Bank by Credit Europe Bank N.V., which is an affiliate of Fiba Holding A.Ş., was realized.

In the extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. was amended as Fibabanka A.Ş. (“the Bank” or “the Parent Bank”).

II. Shareholder structure, shareholders having direct or indirect, joint or individual control over the management and internal audit of the Parent Bank, changes in shareholder structure during the current period, if any and information on the Parent Bank’s risk group

On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Bank’s shares to Credit Europe Bank N.V. and the legal approval process was completed as of 27 December 2010.

Credit Europe Bank N.V.’s share of capital increased from 95% to 97.6% after the capital increases during 2011 and 2012. Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97.6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2.4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012. There were sales of equity shares to the management of the Bank in 2013. As of June 30, 2018 the total shares held by the Bank’s Management represent 0.57% of the Bank’s Capital.

The Parent Bank, applied to the BRSA on 14 January 2015 for permission of the subordinated loan provided from Fiba Holding A.Ş. in the amount of USD 50 million to be converted to share capital. Following the authorization of the BRSA on 4 March 2015, the Board of Directors decision was taken on 5 March 2015 regarding share capital increase from TL 550,000 to TL 678,860. TL 127,045 of the increase was provided by the subordinated loan granted by Fiba Holding A.Ş. which had been approved to be converted to capital and TL 1,815 of total capital was paid in cash by the other shareholders, capital increase was recognised in financial statements following the completion of the legal procedures on 7 May 2015.

The Parent Bank’s paid-in capital amounting to TL 678,860 was increased to TL 847,515 on 23 December 2015 with equal contributions from International Finance Corporation (“IFC”) and European Bank for Reconstruction and Development (“EBRD”) amounting TL 168,655 in total. In addition, share issuance premium of TL 73,379 was recognised in the shareholders’ equity.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

SECTION THREE

ACCOUNTING PRINCIPLES

- I. Explanations on the basis of presentation
1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

The Bank and its consolidated financial subsidiaries prepare their consolidated financial statements in accordance with the BRSA Accounting and Reporting Regulation which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations. The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communique on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements” and “Communique on Disclosures About Risk Management to be Announced to Public by Banks” and amendments to this communique. The Bank keeps its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

The consolidated financial statements are prepared in thousands of TL based on the historical cost convention, except for the financial assets and liabilities carried at fair value.

1.1 Additional paragraph for convenience translation into English of financial statements originally issued in Turkish

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these consolidated financial statements. Accordingly, these consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

2. Accounting policies and valuation principles applied in preparation of consolidated financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in regulations, communiqués, statements and guidance published by the BRSA and if there is no special regulation by the BRSA, in accordance with the principles within TAS / TFRS. The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXVI below.

In accordance with the transition rules of TFRS 9, the prior period financial statements and notes are not restated. Accounting policies and valuation principles used for the years 2018 and 2017 are presented separately in the notes.

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within predetermined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is carried based on a currency basket to minimize the foreign exchange risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

2. Foreign currency transactions

2.1 *Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements*

The Group recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions are converted into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the period and the related currency conversion differences are recognized as foreign exchange gains and losses.

As at the end of the related periods, the Bank’s foreign currency exchange rates are as follows:

	30 June 2018	31 December 2017
US Dollar	4.5607	3.7719
Euro	5.3092	4.5155

2.2 *Foreign exchange gains and losses included in the income statement*

As of 30 June 2018, net foreign exchange profit included in the income statement is TL 8,988 (1 January - 30 June 2017: TL 2,800 profit).

III. Explanations on consolidated subsidiaries

Fiba Portföy Yönetimi A.Ş. (“Fiba Portföy”); the subsidiary of the Bank was consolidated by using full consolidation method in the consolidated financial statements dated 30 June 2018. Fibabanka A.Ş. and Fiba Portföy Yönetimi A.Ş. together are referred to as “the Group” in the report.

Capital Markets Board (“CMB”) approved Fiba Portföy’s licence application for portfolio management activity and the licence numbered PYŞ. PY 56/1267 and dated 12 December 2013 was assigned to Fiba Portföy.

The objective of Fiba Portföy is to manage portfolios consisting of financial assets as a representative by entering into portfolio management contracts in accordance with CMB laws and relevant regulation and also to perform capital markets operations. Besides, Fiba Portföy can manage the portfolios of local and foreign investment funds, investment trusts, local/foreign real persons, brokerage companies and other similar legal entities within the context of the related regulation as portfolio management activities.

On the condition that, the requirements of the Capital Markets regulations are fulfilled and necessary approvals and licences from the Capital Markets Board are obtained; Fiba Portföy can also perform investment advisory services, market consultancy in Borsa İstanbul A.Ş. Emerging Companies Market, and intermediary services for the trading of investment fund certificates. The Bank owns 99% of the equity of Fiba Portföy whose headquarters is located in Istanbul.

According to full consolidation method, the subsidiary’s 100% of assets, liabilities, revenues, expenditures and off-balance sheet liabilities were combined with the Parent Bank’s assets, liabilities, revenues, expenditures and off-balance sheet liabilities. Book value of the investment in the Group’s subsidiary and the portion of the cost of subsidiary’s capital belonging to the Group are eliminated. All intragroup balances and income and expenses relating to transactions between the Bank and its subsidiary are eliminated in full on consolidation. Minority shares in the net income of consolidated subsidiary determined the net income of the Group and were demonstrated as a separate item in the income statement. Minority shares were presented under equity in the consolidated financial statement.

IV. Explanations on forward transactions, options and derivative instruments

The Parent Bank’s derivative transactions mainly consist of currency swaps, interest rate swaps, currency options and currency forward purchase/sale contracts. The Parent Bank does not have any embedded derivatives separated from the host contract.

The Bank’s derivative instruments held for trading are classified as “Derivative Financial Assets Measured at Fair Value through Profit and Loss” or “Derivative Financial Assets Measured at Fair Value through Other Comprehensive Income” in accordance with “IFRS 9” and derivative instruments for hedging purpose are classified, measured and accounted in accordance with TAS 39 “Financial Instruments: Recognition and Measurement”, respectively.

The liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual values.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

IV. Explanations on forward transactions, options and derivative instruments (continued)

Derivative transactions are measured at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the income statement under trading profit/loss line as profit/loss from derivative financial transactions.

Explanations on derivative financial instruments held for hedging

The Parent Bank entered into cross currency interest rate swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement.

If the hedging is effective, the changes in fair value of the hedged item, which is fixed rate TL denominated loans, are presented in statement of financial position together with the hedged item. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Profit or Loss", respectively depending on the fair values being positive or negative. Fair value changes are recorded under income statement.

The Parent Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized to income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

V. Explanations on interest income and expenses

Interest income and expenses calculated using internal rate of return are recognized on accrual basis.

VI. Explanations on fee and commission income and expenses

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with "TFRS 15 Revenue from Contracts with Customers". Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted on accrual basis throughout the service period.

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into three groups as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets measured at amortized cost.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

1. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

Loans measured at fair value through profit or loss are subject to valuation in accordance with fair value principles and profit or losses, emerging as a result of valuation, are recognized under profit/loss accounts.

The Bank has classified a portion of its extended loans as financial assets at fair value through profit or loss, as per TFRS 9 standard. The aforementioned loans have been demonstrated on credits line under “Financial assets at fair value through profit or loss” on the balance sheet.

2. Financial assets at fair value through other comprehensive income

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction costs to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the equity are recognized in the income statement.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

3. Financial assets measured at amortized cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

The Bank has classified financial assets at fair value through other comprehensive income amounting to TL 153,266 which were classified as available-for-sale financial assets to designated at “Financial assets measured at amortized cost” as of January 2018.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

VIII. Explanations on expected credit loss

The Group recognizes expected credit loss allowance on financial assets measured at amortized cost and measured at fair value through other comprehensive income.

As of 1 January 2018, the Group recognizes provisions for impairment in accordance with TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated 22 June 2016 numbered 29750. In this framework, as of 31 December 2017, method of provisions for impairment as set out in accordance with the related legislation of BRSA has been changed by applying the expected credit loss model under TFRS 9. The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions.

These financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk will be recorded in the amount of 12-month expected credit losses.

Stage 2

In the event of a significant increase in credit risk since initial recognition, the financial asset will be transferred to Stage 2. Impairment for credit risk will be determined on the basis of the instrument’s lifetime expected credit losses.

Stage 3

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

IX. Explanations on offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit or loss”, “Financial assets at fair value through other comprehensive income” or “Financial assets measured at amortized cost” according to their purposes to be held in the Bank’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities, and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement. Securities purchased under agreements to resell (“Reverse repo”) transactions are accounted under the “Money market placements” in the balance sheet.

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity’s control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is part of the Group’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Group does not have any discontinued operations.

FİBABANKA A.Ş. AND ITS SUBSIDIARY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Group consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33.3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Assets	Estimated Useful Lifes (Years)	Depreciation Rates (%)
Safe boxes	50	2
Vehicles	5	20
Real estate	50	2
Other tangible assets	4-20	5-25

XIV. Explanations on leasing transactions

Duration of financial leasing contracts is maximum 4 years. Tangible assets obtained via financial leasing are classified as the Group's assets or liabilities resulting from financial leasing according to its nature. Assets obtained via financial leasing are depreciated in accordance with the principals for tangible assets. Rent payments for operating leases are recorded at equal amounts as expense during the payment period.

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Employee Benefits. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in financial statements. All actuarial losses and gains are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- a. Calculation is based on discount rate of 11.90%, inflation rate of 8.90% and real rate of rise in salary of 0.00%.
- b. Effective as of 31 December 2017, ceiling salary amount is considered as TL 4,732.48 (full TL).
- c. Individuals' earliest retirement age is considered as retirement age.
- d. CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

XVIII. Explanations on taxation

1. Current Tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%, on the other hand as per the provisional article 91 of Law numbered 7061, which is added to Corporate Tax Law numbered 5520 corporate tax rate regarding 2018, 2019 and 2020 fiscal periods (accounting periods starting within the related period for companies which are assigned special accounting period) has changed as 22%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

2. Deferred Tax

The Group calculates and recognizes deferred tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

In accordance with the provisional article, added to Corporate Tax Law, corporate tax, which is 20% for the year 2017, shall be applied as 22% for the profit of company belonging to 2018, 2019 and 2020 fiscal periods. In accordance with this provisional article, 22% tax rate has been calculated for periods, in which the deferred tax assets and liabilities emerges and liabilities are met, while it is calculated with 20% for 2021 and following periods.

Deferred tax liabilities are generally recognized for all taxable temporary and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Deferred tax asset was not computed over general loan loss and free provisions according to the circular of BRSA numbered BRSA.DZM.2/13/1-a-3 and dated 8 December 2004.

Deferred tax rate calculation has started to be applied over temporary expected credit losses as per TFRS 9 articles from 1 January 2018. Deferred tax calculation is not made for possible risk provisions.

As of 30 June 2018, the deferred tax asset is TL 83,376 (31 December 2017: TL 9,504 the deferred tax asset). The deferred tax asset is calculated as the net of taxable and deductible temporary differences.

Deferred tax income/(expense) is recognized within "Deferred Tax expense effect" in the income statement; deferred tax expense for the current period is TL 35,944 (1 January - 30 June 2017: TL 17,638 income). Deferred tax effects of the transactions and events recognized directly in the shareholders' equity are also recognized directly in the shareholders' equity which is TL 3,084 income (1 January -30 June 2017: TL 2,887 expense).

3. Transfer pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing. "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the "7.1 Annual Documentation" section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices on time.

XIX. Additional explanations on borrowings

The Parent Bank provides resources from domestic and foreign individuals and institutions both by borrowing funds and issuing bills and bonds.

Borrowing instruments are initially measured at acquisition cost and subsequently measured at amortized cost with the effective interest method. In the accompanying financial statements, foreign currency denominated borrowing funds are converted to Turkish Lira with the Group's spot foreign exchange buy rates and interest expenses incurred during the period relating to the borrowing funds are recognized in income statement.

XX. Explanations on share certificates issued

None.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXIV. Explanations on TFRS 9 financial instruments standard (continued)

c. Reconciliation of the opening balances of expected credit losses as per TFRS 9

The table below shows the reconciliation of the provision for impairment of the Group as of 31 December 2017 and the provision for the expected loss model as measured in accordance with TFRS 9 as of 1 January 2018.

	Book Value Before TFRS 9 December 31, 2017	Remeasurements	Book Value After TFRS 9 January 1, 2018

Total	246,037	429,329	675,366

(*) Within the scope of TFRS 9, provisions for securities, banks and money market receivables, measured at amortised cost and fair value through other comprehensive income.

(**) Before TFRS 9, the expected credit loss for stage 1 and 2 non-cash loans is classified under "12.1 General Provision" and expected credit loss for stage 3 non-cash loans is classified under "12.5. Other Provisions". In accordance with TFRS 9, the expected loss provisions for stage 1,2,3 non-cash loans are reported under "10.4 Other Provisions".

d. TFRS 9 transition effects on equity

According to paragraph 15 of Article 7 of TFRS 9 Financial Instruments Standards published in the Official Gazette numbered 29953 dated 19 January 2017, it is stated that it is not compulsory to restate previous period financials in accordance with TFRS 9 and if the previous period financials is not restated, the difference between the book value of 1 January 2018 at the date of application should be reflected into the opening balance of equity. The explanations about the transition effects to TFRS 9 presented under "Prior Periods' Income or (Loss)" in the equity under the scope of this article are given below.

Negative difference of TL 429,329 between the provision for impairment of the previous period of Group and the expected credit loss that is calculated in accordance with TFRS 9 as of 1 January 2018 is classified as "Prior Periods' Income or (Loss)" in shareholders' equity.

As stated in the Communiqué on "Uniform Chart of Accounts and Prospectus" issued on 20 September 2017, for general provisions (TFRS 9 expected credit loss provisions for Stage 1 and Stage 2), recognition of deferred tax assets has started as of 1 January 2018. Within this scope, deferred tax assets amounting to TL 67,455 have been reflected into the opening financials of 1 January 2018 and the related amount has been classified under "Prior Periods' Income or (Loss)" in shareholders' equity. For the specific provisions (TFRS 9 expected credit loss provisions for Stage 3), which have been recognized due to TFRS 9 transition, deferred tax income amounting to TL 39,277 is also classified under "Prior Periods' Income or (Loss)" in equity as of 1 January 2018.

XXV. Explanations on prior period accounting policies not valid for the current period

TFRS 9 standard came into effect instead of TAS 39 standard as of 1 January 2018. Accounting policies that have lost their validity with the transition of TFRS 9 are given below:

Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into four groups as financial assets at fair value through profit or loss, available-for-sale financial assets, held to maturity investments and loans and receivables.

1. Financial assets at fair value through profit or loss

1.1 *Financial assets held for trading*

Financial assets held for trading are recognized at their fair values and any gain or losses resulting from such valuation are recorded in the profit and loss accounts. Interests received during the holding period of such financial assets and the difference between the amortized cost (calculated using internal rate of return) and the acquisition cost are recognized as interest income in the income statement. Gains and losses on sale of held for trading financial assets before their maturity and the difference between market value and amortized cost (calculated using internal rate of return) of such financial assets are recognized in gains and losses on securities trading under income statement.

1.2 *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are subject to valuation in accordance with fair value principles and profit or losses, emerging as a result of valuation, are recognized under profit/loss accounts.

The Bank has determined a portion of its extended credits as financial assets fair value through profit or loss, mentioned in TAS 39 standard. The aforementioned loans have been demonstrated on credits line under "Financial assets at Fair value through profit or loss (net)".

Fair value of loans, which are classified as financial assets at fair value through profit or loss, are determined through discounting of payment plan via using yield curve, established through adding Z-spread on the based of credit to swap yield curve.

2. Financial assets Available for Sale

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables. Financial assets available-for-sale are measured at their fair values subsequently.

Interest income of the investments securities available-for-sale; based on the internal rate of return; are included in the income statement. Unrecognized gain/losses derived from the difference between their fair value and the discounted values are recorded in "Marketable Securities Revaluation Reserve" under the shareholders' equity. In case of disposal, gains/losses recognized under equity are realized and recognized directly in the income statement.

Purchase and sale transactions of securities are accounted for on a settlement date basis.

3. Held to maturity investments

The Bank does not have any held to maturity investments as of 31 December 2017.

XXV. Explanations on prior period accounting policies not valid for the current period (continued)

4. Loans and receivables

Loans and receivables are financial assets, which are generated by providing funds, goods or services to the debtor.

Loans and receivables are financial assets with fixed or determinable repayment schedules and they are not traded in an active market.

Loans are initially measured at their acquisition cost and subsequently measured at amortized cost calculated using effective interest rate method in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". Duty charges, transaction fees and other expenses paid for the collaterals of the loans are considered as part of the transaction costs and charged to the customers.

The Group classifies its loans and receivables to related groups by considering the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" ("Provisioning Regulation") published in the Official Gazette No. 26333 dated November 1, 2006 and other regulations and makes special or general provisions according to group, in which the loans and receivables are tracked. On the other hand, deferred tax asset is not allocated over the amount of general loan loss provisions for possible losses in accordance with the circular of BRSA dated 8 December 2004 no. BRSA.DZM.2/13/1-a-3.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY - 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from the subordinated loan, bonds, general provisions and TFRS 9 transition effect. In the calculation of Total Capital, general provision up to 1.25% of credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operating leases followed under tangible assets in the balance sheet, and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

Items included in shareholder's equity calculation:

II. Explanations On Consolidated Risk Management :

Notes and explanations in this section have been prepared in accordance with the Communiqué on Disclosures about RWA flow statements of credit risk exposures under IRB Risk Management to Be Announced to Public by Banks that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of March 31, 2016. Due to usage of standard approach for the calculation of capital adequacy by the Bank, the following tables which prepared annually basis have not been presented as of 30 June 2018:

- CR8 - RWA flow statements of credit risk exposures under IRB (Internal Ratings Based)
- CCR7 - RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- CR6 - IRB - Credit risk exposures by portfolio and PD range
- CR7 - IRB - Effect on RWA of credit derivatives used as CRM techniques
- CR10 - IRB - Specialised lending and equities under the Simple Risk-Weight Method
- CCR4 - CCR exposures by portfolio and PD scale
- MR2 - RWA flow statements of market risk exposures under an IMA
- MR3 - IMA values for trading securities
- MR4 - Comparison of VaR estimates with gains/losses

In addition to this, the following tables those have to be disclosed in accordance with the Communiqué were not included as the Bank does not have such transactions:

- CCR6 - Credit derivatives exposures
- CCR8 - Exposures to central counterparties
- SEC1 - Securitisation exposures in the banking book
- SEC2 - Securitisation exposures in the trading book
- SEC3 - Securitisation exposures in the banking book and associated regulatory capital requirements bank acting as originator or as sponsor
- SEC4 - Securitisation exposures in the banking book and associated capital requirements - bank acting as investor

III. Explanations on consolidated currency risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Bank does not take material foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 30 June 2018, the Bank's net short position is TL 103,808 (31 December 2017: TL 92,480 net short position) resulting from short position on the balance sheet amounting to TL 2,238,202 (31 December 2017: TL 1,050,041 short position) and long position on the off-balance amounting to TL 2,134,394 (31 December 2017: TL 957,561 long position). The Bank uses "Standard Method" in legal reporting to measure the foreign exchange risk.

The announced foreign exchange buying rates of the Bank at 30 June 2018 and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date	TL 4.5607
Euro purchase rate as at the balance sheet date	TL 5.3092

Date	USD	EUR
26 June 2018	4.6397	5.4071
27 June 2018	4.6740	5.4576
28 June 2018	4.6349	5.3960
29 June 2018	4.5500	5.3000
30 June 2018	4.5607	5.3092

The US Dollar buying rate is TL 4.6222 and EUR buying rate is TL 5.4008 according to simple arithmetic average on June 2018.

IV. Explanations on consolidated interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and Asset-Liability risk measurement methods are used to measure the Bank's interest rate risk.

Measurements by employing the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crisis. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

V. Explanations on consolidated position risk of equity securities resulted from banking book

The Group has no position risk of equity shares as of 30 June 2018 (31 December 2017: None).

VI. Explanations on liquidity risk and liquidity coverage ratio

The Board of Directors reviews the liquidity and funding risk management policy weekly or in case of necessity. Liquidity risk is managed by Asset and Liability Committee (ALCO) in line with risk management policy as short and long term liquidity risk.

Liquidity Risk is managed by ALCO in order to take the necessary measures in a timely and correct manner against possible liquidity shortages. Treasury department manages cash inflows and outflows in line with strategies determined by ALCO. As deemed necessary by the ALCO members, liquidity meetings are performed for the purposes of close monitoring. Treasury department manages short term liquidity by adhering to the ALCO strategy and ensuring compliance with legal liquidity limits and stress testing.

In the context of TL and foreign currencies liquidity management, the Parent Bank monitors the cash flows weekly and action plan is made based on ALCO decisions. The funding balance is directly monitored and compensated by making the risk-return-cost evaluation.

For long-term liquidity "Maturity Mismatch Report" is prepared and presented to ALCO on a weekly basis. The Group, resulting from the general structure of Turkish banking sector, has a liquidity gap at the 2 year maturity period. The Group intends to eliminate liquidity mismatch shifting focus to long-term funding alternatives. Such decisions of the risk of incompatibility are taken by ALCO. The Group diversifies its funding sources among customer deposits, domestic and foreign borrowings, bills and bonds issued, taking into consideration the maturity match between its assets and liabilities and keeps liquid assets in order to fully meet the liquidity requirements that may emerge in case of market volatility.

Information on the use of stress testing

Department of Risk Management implements stress testing according to Liquidity and Funding Risk Policy approved by the Board of Directors on a weekly basis. These stress tests are based on the scenarios of the deposit outflow, funds obtained from bonds issued will outflow, banks limits will not be used during a 14-day period, the results are included in the presentation of ALCO on a weekly basis and in the Presentation of Risk Committee on a monthly basis. In this way, the Bank's funding structure is closely monitored and actions are taken on behalf of existing risk management.

Alternative funding sources are identified in case of need. ALCO members are responsible for taking actions against short-term liquidity shocks. In the case of a crisis or if deemed necessary, ALCO summon a meeting and take necessary actions immediately. These action plans are approved by the Board of Directors under the İSEDES. The Bank reviews resources that are available in any emergency situation constantly and takes into consideration the results of the above-mentioned stress testing and scenario analysis by the early warning system.

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks"; published in the Official Gazette numbered 28948, dated 21 March 2014; liquidity ratio is required to be 70% for foreign currency assets/liabilities and 90% for total assets/liabilities in the calculation of the banks' weekly and monthly reporting effective from 1 January 2018.

VI. Explanations on consolidated liquidity risk and liquidity coverage ratio (continued)

The table below shows consolidated liquidity coverage ratios in the last 3 months of the 1 January - 30 June 2018 period.

Current Period	TL+FC	FC
30 April 2018	117.83%	127.49%
31 May 2018	100.85%	107.90%
30 June 2018	100.52%	106.07%
Average	106.40%	113.82%

Prior Period	TL+FC	FC
31 January 2018	107.36%	130.54%
28 February 2018	110.38%	137.75%
31 March 2018	115.28%	141.75%

The Bank implements the calculation in accordance with the Regulation of Liquidity Coverage Ratio Calculation of Banks dated 21 March 2014 and numbered 28948 published in the Official Gazette. As per the related regulation high quality liquid assets are mainly securities portfolio, cash assets and reserve requirements. The important factors affecting the results of the liquidity coverage ratio are the changes in the remaining maturities of the items and changes in the amounts of deposits and money market transactions, the remaining maturities of which are less than 30 days. Deposits form a significant portion of the Bank's sources of funds, on the other hand bonds issued, money market borrowings, funds provided from abroad are other important sources of funding.

The Bank calculates cash flow and margin likely to transactions arising from derivative transactions in accordance with the Regulation on Banks' Liquidity Coverage Ratio dated 21 March 2014 and numbered 28948 published in Official Gazette as taking 24-month average into account.

4. Evaluations of the Chairman of the Board of Directors and the General Manager Regarding the Interim Period

As of the first half of 2018, Fibabanka has increased the performing loan portfolio before provisions by 12% compared to the same period of year 2017 and the loan portfolio has increased by 2% compared to the end of 2017 by reaching TL 15.0 billion.

Growth in corporate, commercial, SME and agriculture loans was 7% comparing to the same period last year.

The operations on the acquisition of new customers through new channels created outside the branch (SMS, store, Web, etc.) launched in 2017 have been continuing in 2018 as well. The most important of these is the infrastructure and processes for consumer financing. The consumer financing model was cooperated particularly with the brands and stores operating in the retail sector, especially selling electronic products, and the Bank has acquired new customers and offered general purpose loan products. Accordingly Fibabanka has increased the retail sector loan portfolio by 131% compared to the same period of year 2017. In 2018, the spirit of innovation, innovative products and services will continue to be front-line.

Our Bank, has funded its growing loan portfolio mainly by customer deposits also in 2018. In this period, customer deposits amounting to TL 10.2 billion constitutes 47% of total liabilities. With an innovative marketing plan, targets are supported with deposit campaigns focused on acquiring new customers, new product launches and new sales channels.

In 2018, efforts have been made to create alternative funding sources to deposit in order to diversify the funding structure. In the first six months of the year, TRY-denominated securities with a total nominal value of TL 1.5 billion were issued in Turkey.

Also after the issuance of \$ 300 million bonds which were Basel 3 compliant in 2017, a second issuance was carried out in international markets in January 2018. The issuance of 5-year Eurobonds in the amount of \$ 300 million was completed with great success.

In the first half of 2018, while loan volume has been increased, loans have been diversified both in terms of maturity and sectors, portfolio was targeted with higher return and increasing commission income by increasing number of customers. In addition, the Bank's profit has been achieved a steady growth with sustainable profit by keeping operating expenses under control carefully. As a result, the Bank's realised profit before tax increased by 27% compared to the same period of the previous year to TL 115.2 million and net profit after tax amounted to TL 79.3 million. As of 30 June 2018, consolidated capital adequacy ratio of the Bank is 17.18%.

Our bank, continues to perform its structural and organizational goals as well as financial goals, offering services to our customers with 83 branches and 1,674 employees as of 30 June 2018.

Our bank will continue its customer focused growth in 2018. In this sense, our main goals for the future are to increase the number of customers in all lines of business, spreading out more, giving priority to cross selling and increasing customer loyalty by diversifying the product range. Hereby, we would like to thank our valued employees who work with dedication in our Bank and are the main architect of our business also in 2018, our valued partners, and our valued customers who have contributed to the strength of our Bank.

Best regards,

Hüsnü Mustafa Özyeğin
Chairman of the Board of Directors

Ömer Mert
General Manager and Member of the Board of Directors
