**Interim Review Report on Consolidated Interim Financial Information**

**To the Board of Directors of Fibabanka A.Ş.**

***Introduction***

We have reviewed the consolidated statement of financial position of Fibabanka A.Ş. (“the Bank”) and its consolidated subsidiary (together will be referred as “the Group”) at March 31, 2017 and the related consolidated income statement, consolidated statement of income and expense items under shareholders’ equity, consolidated statement of changes in shareholders’ equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the three-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority and Turkish Accounting Standard 34 “Interim Financial Reporting” for those matters not regulated by BRSA Legislation (together referred as “BRSA Accounting and Financial Reporting Legislation”). Our responsibility is to express a conclusion on these interim financial statements based on our review.

***Scope of Review***

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

***Basis of Qualified Conclusion***

The accompanying consolidated financial statements as at March 31, 2017 include a free provision amounting to thousands TL 38,000 in total out of which thousands TL 36,000 and thousands TL 2,000 had been recognized in the last quarter of 2016 and in the current year respectively, for the possible effects of the negative circumstances which may arise from the possible changes in the economy and market conditions.

***Qualified Conclusion***

Based on our review, except for the effect of the matter referred in the basis of qualified conclusion paragraph on the prior and current period consolidated financial statements, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the financial position of Fibabanka A.Ş. and its consolidated subsidiary as at March 31, 2017 and of the results of its operations and its cash flows for the three-month-period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

***Report on other regulatory requirements arising from legislation***

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VII, are not consistent with the consolidated financial statements and disclosures in all material respects.

***Other Matter***

The consolidated financial statements of the Bank as at December 31, 2016 were audited and reviewed by another audit firm, which expressed a qualified opinion and an unqualified conclusion in their reports issued on February 17, 2017 and May 5, 2016, respectively.

***Additional paragraph for convenience translation to English***

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Financial Reporting Legislation, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**II. Explanations on the usage strategy of financial instruments and on foreign currency transactions**

**1. Usage strategy of the financial instruments**

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Currency risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within pre-determined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate currency risk.

**II. Explanations on the usage strategy of financial instruments and on foreign currency transactions (cont'd)**

**2. Foreign currency transactions**

**2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements**

The Group recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions as of 31 March 2017 are translated into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. As at the end of the related periods foreign currency exchange rates are as follows:

**IV. Explanations on forward transactions, options and derivative instruments**

The Parent Bank's derivative transactions mainly consist of foreign currency swaps, interest rate swaps, foreign currency options and forward foreign currency purchase/sale contracts. The Parent Bank does not have any embedded derivatives separated from the host contract.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps and options are classified as "hedging purpose" and "trading purpose" transactions. Derivatives are initially recognized at cost including the transaction costs. Also, the assets and liabilities arising from the derivative transactions are recorded as off-balance sheet items at their contractual notional amounts.

**1. Explanations on derivative financial instruments held for trading**

The derivative transactions held for trading are valued at fair-value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for trading" or "derivative financial liabilities held for trading" items of the balance sheet depending on the difference's being positive or negative.

**2. Explanations on derivative financial instruments held for risk management**

The Parent Bank enters into cross currency swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. According to fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item, which is fixed rate TL denominated loans, are presented in statement of financial position together with the hedged item. The derivative transactions held for risk management are valued at fair-value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for risk management" or "derivative financial liabilities held for risk management" items of the balance sheet depending on the difference's being positive or negative. The Parent Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

**V. Explanations on interest income and expenses**

Interest income and expenses for financial assets and liabilities, which have known future cash payments and collections calculated by using "Effective Interest Rate Method", are recognized on accrual basis. The Bank ceases accruing interest income on non-performing loans and reverses any interest income accrued from such loans. No income is accounted until these loans are classified as performing or collected, according to the related regulation.

**VI. Explanations on fee and commission income and expenses**

Fee and commission income / expenses are recognized based on cash basis or accrual basis upon the nature of the transaction.

**VII. Explanations of financial statements (cond't)**

**1. Financial assets at fair value through profit or loss**

**1.1 *Financial assets held for trading***

Financial assets held for trading are recognized at their fair values and any gains or losses resulting from such valuation are recorded in the profit and loss accounts. Interests received during the holding period of such financial assets and the difference between the amortized cost (calculated using internal rate of return) and the acquisition cost are recognized as interest income in the income statement. Gains and losses on sale of held for trading financial assets before their maturities and the difference between market value and amortized cost (calculated using internal rate of return) of such financial assets are recognized in trading gains and losses on securities under income statement.

**1.2 *Financial assets at fair value through profit or loss***

The Group does not have any financial assets designated as “financial assets at fair value through profit or loss”.

**2. Financial assets available for sale**

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables. Financial assets available-for-sale are measured at their fair values subsequently.

Interest income of the investment securities available-for-sale; based on the internal rate of return; is included in the income statement. Unrecognized gain/losses derived from the difference between their fair value and the discounted values are recorded in “Marketable Securities Revaluation Reserve” under the shareholders’ equity. In case of disposal, gains/losses recognized under equity are realized and recognized directly in the income statement.

Purchase and sale transactions of securities are accounted for on a settlement date basis.

**3. Held to maturity investments**

The Group does not have any held to maturity investments as of 31 March 2017.

**4. Loans and receivables**

Loans and receivables are financial assets, which are generated by providing funds, goods or services to the debtor.

Loans and receivables are financial assets with fixed or determinable repayment schedules and they are not traded in an active market.

Loans are initially measured at their acquisition cost and subsequently measured at amortized cost calculated by using effective interest rate method in accordance with TAS 39 “Financial Instruments: Recognition and Measurement”. Duty charges, transaction fees and other expenses paid for the collaterals of the loans are considered as part of the transaction costs and charged to the customers.

The Parent Bank classifies its loans and receivables to related groups and calculates specific or general provisions in accordance with the “Regulation on the Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside” published in the Official Gazette dated 1 November 2006, numbered 26333 and by considering other regulations and explanations announced by BRSA.

FOR THE PERIOD OF 1 JANUARY – 31 MARCH 2017**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

---

**VIII. Explanations on impairment of financial assets**

Financial asset or groups of financial assets are reviewed by the Group at each balance sheet date to determine whether there is objective evidence of impairment. If any such indicator exists, the Group determines the amount of impairment.

Impairment loss incurs if, and only if, there is objective evidence that the reliably estimated future cash flows of financial asset or group of financial assets are adversely affected by an event(s) (“loss event(s)”) incurred subsequent to initial recognition.

The Group provides specific and general allowances for loans and other receivables classified in accordance with the Communiqué published on the Official Gazette Numbered 2633 dated November 1, 2006. The allowances are recorded in the income statement of the related period.

**IX. Explanations on offsetting financial instruments**

If the fair values of equity shares held for trading and quoted at the stock exchanges are lower than their carrying values, allowance for impairment is recognized and the recognized impairment is offset with the related assets on the face of the balance sheet.

Specific allowances for non-performing loans and other receivables are provided in accordance with “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”. Such allowances are offset with loans under follow-up on the asset side. Other financial assets and liabilities are offset when the Bank has a legally enforceable right to offset.

**X. Explanations on sale and repurchase agreements and securities lending transactions**

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit and loss”, “Financial assets available for sale” or “Investments held to maturity” according to their purposes to be held in the Group’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds provided under repurchase agreements” account in liabilities, and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

Reverse repo transactions are recorded in the balance sheet under the “Receivables from reverse repurchase agreements” account.

**XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities**

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a part of the Bank’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE PERIOD OF 1 JANUARY – 31 MARCH 2017**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**XII. Explanations on goodwill and other intangible assets**

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Group consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33.3%.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

**XIII. Explanations on tangible assets**

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

| <b>Tangible Asset</b> | <b>Estimated useful lives<br/>(Years)</b> | <b>Depreciation Rate<br/>(%)</b> |
|-----------------------|-------------------------------------------|----------------------------------|

**XV. Explanations on provisions and contingent liabilities**

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

**XVI. Explanations on contingent assets**

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

**XVII. Explanations on liabilities for employee benefits**

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Standard on the Benefits Provided to Employees. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in financial statements. All the actuarial gains and losses as are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate is as 11.50%, inflation rate as 8.00% and real rate of rise in salary as 0.00%.
- Effective as of 31 December 2016, ceiling salary amount is considered as TL 4,297.21 (full TL).
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

**XVIII. Explanations on taxation**

**1. Current Tax**

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions numbered 2009/14593 and numbered 2009/14594 of the Council of Ministers published in the Official Gazette numbered 27130 dated 3 February 2009, certain duty rates included in the articles numbered 15 and 30 of the new Corporate Tax Law numbered 5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

**2. Deferred tax**

The Group calculates and recognizes tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

Deferred tax assets and liabilities of the companies included in the consolidation are netted off but not netted off in consolidated balance sheet.

As of 31 March 2017, TL 4,192 of deferred tax asset and there is no deferred tax liability were recognized in the Group's financial statements. (31 December 2016: TL 39 deferred tax asset).

Deferred tax benefit/ (charge) is recognized within "Deferred tax benefit/ (charge)" in the income statement. For the current period, deferred tax benefit is TL 6,806 (1 January – 31 March 2016: TL 862 charge). Deferred tax effects of the transactions and events recognized directly in the shareholders' equity are also recognized directly in the shareholders' equity which is TL 1,279 charge (1 January – 31 March 2016: TL 1,688 charge).

**3. Transfer pricing**

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices by the Group on time.

**XIX. Additional explanations on borrowings**

The Group provides resources from both domestic and foreign foundations and real persons through borrowings and securities issued.

Borrowing funds are initially measured at acquisition cost and subsequently measured at amortized cost. In the accompanying financial statements, foreign currency denominated borrowing funds are translated to Turkish Lira with the Group’s spot foreign exchange buying rates and interest expenses incurred during the period relating to the borrowing funds are recognized in income statement.

**Explanations on reconciliation of shareholder's equity items to balance sheet:**

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from the subordinated loan, bonds and general provisions. In the calculation of Total Capital, general provision up to 1.25% credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operating leases followed under tangible assets in the balance sheet, and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

### IV. Explanations on consolidated interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and asset-liability risk measurement methods are used to measure the bank's interest rate risk.

Measurements by employing the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crises. Change in the net present value of the net assets of the Bank is monitored within the limits set by the Board of Directors.

The Bank implements the calculation in accordance with the Regulation of Liquidity Coverage Ratio Calculation of Banks dated 21 March 2014 and numbered 28948 published in the Official Gazette. The related regulations include items that are considered as high quality liquid assets; mainly the securities portfolio and cash assets and money held as required reserves. The important factors affecting the results of the liquidity coverage ratio are remaining maturities of 30 days exchange and money market transactions. Deposits form a significant portion of the Bank's sources of funds, on the other hand bonds issued, money market borrowings, funds provided from abroad are other important sources of funding.
