Convenience Translation of the Review Report Originally Issued in Turkish to English

To the Board of Directors of Fibabanka Anonim Şirketi,

Introduction

We have reviewed the unconsolidated statement of financial position of Fibabanka A.Ş. ("the Bank") as at 30 June 2022 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the six month period then ended, and notes, comprising a summary of significant accounting policies and other explanatory information. The Bank management is responsible for the preparation and fair presentation of this unconsolidated interim financial information in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "Interim Financial Reporting" for the matters not regulated by the aforementioned regulations (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on this unconsolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an opinion.

Basis for Qualified Conclusion

The accompanying unconsolidated interim financial information as at 30 June 2022 includes a general reserve of total of TL 252.000 thousands of which TL 85.000 thousands was reversed within the current period and TL 337.000 thousands had been recognized as expense in prior periods; with a deferred tax asset amounting to TL 63.000 thousands of which TL 14.510 thousands was reversed within the current period and TL 77.510 thousands had been recognized in prior periods; for the possible effects of the negative circumstances which may arise in the economy or market conditions which is not in line with the requirements of BRSA Accounting and Financial Reporting Legislation.

Qualified Conclusion

Based on our review, except for the effects of the matter described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying unconsolidated interim financial information does not present fairly, in all material respects, the unconsolidated financial position of Fibabanka A.Ş. and its financial subsidiary as at 30 June 2022 and its unconsolidated financial performance and unconsolidated cash flows for the six month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on Other Regulatory Requirements Arising From Legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the interim activity report in Section VII of the accompanying unconsolidated interim financial information is not consistent, in all material respects, with the reviewed unconsolidated interim financial information and explanatory notes.

Additional paragraph for convenience translation to English:

The accounting principles summarized in Note 1 Section Three, differ from the accounting principles generally accepted in countries in which the accompanying unconsolidated interim financial information is to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying unconsolidated interim financial information is not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the unconsolidated interim financial information and IFRS.

SECTION SEVEN

Interim Period Activity Report

I.	Interim Report Regarding Evaluations of the Chairman of the Board of Directors and the General Manager	84
----	--	----

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. History of the Bank Including Its Incorporation Date, Initial Status and Amendments to the Initial Status

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of Banking Regulation and Supervision Agency ("BRSA") No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as BankEuropa Bankası A.Ş.

In the extraordinary General Assembly held on 28 November 2006, the name of BankEuropa Bankası A.Ş. was amended as Millennium Bank A.Ş.

On 27 December 2010, acquisition of the Bank by Credit Europe Bank N.V., which is an affiliate of Fiba Holding A.Ş., was realized.

In the extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. was amended as Fibabanka A.Ş. ("the Bank").

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control Over the Management and Internal Audit of the Bank, Changes in Shareholder Structure During the Current Period, if any and Information on the Bank's Risk Group

On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Bank's shares to Credit Europe Bank N.V. and the legal approval process was completed as of 27 December 2010.

Credit Europe Bank N.V.'s share of capital increased from 95% to 97,6% after the capital increases during 2011 and 2012. Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97,6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2,4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012. In 2013, there was the first sale of equity shares to the management of the Bank, and there has been changes over time. As of 30 June 2022 the total shares held by the Bank's Management represent 2,01% of the Bank's Capital.

The Bank applied to the BRSA on 14 January 2015 for permission of the subordinated loan provided from Fiba Holding A.Ş. in the amount of USD 50 million to be converted to share capital. Following the authorization of the BRSA on 4 March 2015, the Board of Directors decision was taken on 5 March 2015 regarding share capital increase from TL 550.000 to TL 678.860. TL 127.045 of the increase was provided by the subordinated loan granted by Fiba Holding A.Ş. which had been approved to be converted to capital and TL 1.815 of total capital was paid in cash by the other shareholders, capital increase was recognised in financial statements following the completion of the legal procedures on 7 May 2015.

The Bank's paid-in capital amounting to TL 678.860 was increased to TL 847.515 on 23 December 2015 with equal contributions from International Finance Corporation ("IFC") and European Bank for Reconstruction and Development ("EBRD") amounting TL 168.655 in total. In addition, share issuance premium of TL 73.379 was recognised in the shareholders' equity.

The Bank's paid-in capital amounting to TL 847.515 was increased to TL 941.161 on 7 September 2016 with the capital contribution of TurkFinance B.V. by TL 93.646. In addition, TL 55.299 was recorded to the equity as share premium.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control Over the Management and Internal Audit of the Bank, Changes in Shareholder Structure During the Current Period, if any and Information on the Bank's Risk Group (continued)

With the decision taken at the Extraordinary General Assembly dated April 14, 2022, the paid-in capital of the Bank was increased by TL 416.562 to TL 1.357.723 by making a cash capital increase.

As of 30 June 2022, paid-in capital of the Bank is TL 1.357.723 and all paid in.

III. Explanations Regarding the Shares of the Bank Owned by and Areas of Responsibility of the Chairman and the Members of Board of Directors, Audit Committee Members, Chief Executive Officer, Executive Vice Presidents

The accompanying notes form an integral part of these financial statements.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE
ACCOUNTING PRINCIPLES**

I. Explanations on the basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

The Bank prepares its financial statements in accordance with the BRSA Accounting and Reporting Regulation which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board (“BRSB”) and circulars and pronouncements published by the BRSA and Turkish Financial Reporting Standards (“TFRS”) published by the Public Oversight Accounting and Auditing Standards Authority (POA) for the matters not regulated by the aforementioned legislations.

The financial statements are prepared in thousands of TL based on the historical cost, except for the financial assets and liabilities carried at fair value.

2. Accounting policies and valuation principles applied in preparation of financial statements

The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXVIII below.

3. Other

The new coronavirus disease (COVID-19), which emerged in Wuhan Province of Republic of China and spread to other countries in late December 2019, was declared a pandemic by the World Health Organization on 11 March, 2020. In order to keep the negative economic effects of the pandemic at minimum, a number of measures have taken both in Turkey and worldwide. The effects of these developments on the Bank’s financial status and operations are closely monitored by the relevant units and the Bank’s Top Management.

Covid-19 impact is explained in footnote XXVIII “Other Issues”.

According to the announcement made by Public Oversight Accounting and Auditing Standards Authority on 20 January 2022, it has been stated that businesses applying TFRS do not need to make any adjustments in their financial statements for 2021 within the scope of TAS 29 Financial Reporting in High Inflation Economies. As of 30 June 2022, Public Oversight Accounting and Auditing Standards Authority has not made a new announcement within the scope TAS 29. Therefore, no inflation adjustment has been applied on the financial statements dated 30 June 2022 in accordance with TAS 29.

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within predetermined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is carried based on a currency basket to minimize the foreign exchange risk.

2. Foreign currency transactions

2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements

The Bank recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions are converted into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank and the related currency conversion differences are recognized as foreign exchange gains and losses.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions (continued)

2. Foreign currency transactions (continued)

2.1 *Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements (continued)*

As at the end of the related periods, the Bank's foreign currency exchange rates are as follows in full TL:

	30 June 2022	31 December 2021
US Dollar	16,6614	13,3290
Euro	17,3701	15,0867

III. Explanations on Equity Investments

In the unconsolidated financial statements; subsidiaries and affiliates are accounted for in accordance with "TAS 27 - Separate Financial Statements" and recognized at acquisition cost in financial statements.

IV. Explanations on forward transactions, options and derivative instruments

The Bank's derivative transactions mainly consist of currency swaps, interest rate swaps, currency options and currency forward purchase/sale contracts. The Bank does not have any embedded derivatives separated from the host contract.

The Bank's derivative instruments held for trading are classified as "Derivative Financial Assets Measured at Fair Value Through Profit and Loss" or "Derivative Financial Assets Measured at Fair Value through Other Comprehensive Income" in accordance with "TFRS 9". In choosing accounting policy, TFRS 9 gives the option to postpone the acceptance of TFRS 9 financial hedging accounting and continue using TAS 39 financial hedging accounting. In accordance with this, Bank is continuing to use TAS 39 for financial hedging accounts.

The liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual values.

Derivative transactions are measured at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the statement of profit or loss under trading profit/loss line as profit/loss from derivative financial transactions.

Explanations on derivative financial instruments held for hedging

The Bank enters into cross currency interest rate swap transactions in order to hedge the change in fair values of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in statement of profit or loss.

If the hedging is effective, the changes in fair value of the hedged item, which is fixed rate TL denominated loans, are presented in statement of financial position together with the hedged item. Subsequently, derivative transactions are valued at their fair values and the changes in their fair values are recorded on balance sheet under "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Profit or Loss", respectively depending on the fair values being positive or negative. Fair value changes are recorded under statement of profit or loss.

The Bank performs effectiveness tests at the beginning of the hedge accounting period and at each reporting period.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized to statement of profit or loss over the life of the hedged item from that date of the hedge accounting is discontinued.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

V. Explanations on interest income and expenses

Interest income and expenses are recognized on accrual basis by using internal rate of return for financial assets and liabilities with given future cash payments and collections.

VI. Explanations on fee and commission income and expenses

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with “TFRS 15 Revenue from Contracts with Customers”. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted on accrual basis throughout the service period.

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into three groups as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, and financial assets measured at amortized cost.

1. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

Loans measured at fair value through profit or loss are subject to valuation in accordance with fair value principles and profit or losses, emerging as a result of valuation, are recognized under profit/loss accounts.

2. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Financial assets at fair value through other comprehensive income are recognized by adding transaction costs to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to statement of profit or loss. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the statement of profit or loss of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the equity are recognized in the statement of profit or loss.

Equity securities, which are classified as financial assets at fair value through other comprehensive income are measured at fair value. However, in some exceptional cases, cost may be an appropriate estimation method for determining fair value. The cost is estimated to be the case fair value is reflected in the best way possible.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on financial assets (continued)

3. Financial assets measured at amortized cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss.

4. Loans

Loans are financial assets generated by providing cash, commodity or service to the borrower. These loans and receivables are recorded by acquisition cost reflecting fair value and afterwards measured at amortized cost by using effective interest rate (internal rate of return) method. Fees and other costs paid for the assets taken as collateral for those loans are not recognized as cost of operation and accounted in expense accounts. Bank's loans are presented in "Financial Assets Measured at Amortized Cost" and "Financial Assets at Fair Value Through Profit or Loss" accounts.

VIII. Explanations on expected credit loss

The Bank recognizes expected credit loss allowance for financial assets measured at amortized cost and measured at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognizes provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 September 2016 numbered 29750.

The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions.

Expected credit loss is calculated by using following components: "Exposure at Default", "Probability of Default" and "Loss Given Default".

Calculation of expected credit loss

Financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk will be recorded in the amount of 12-month expected credit losses.

Stage 2

In the event of a significant increase in credit risk since initial recognition, the financial asset will be transferred to Stage 2. Impairment for credit risk will be determined on the basis of the instrument's lifetime expected credit losses.

Stage 3

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

As part of TFRS 9, expected credit loss models are improved in process of exposure at default, probability of default and loss given default. These models are formed by taking into consideration internal ratings systems, past data and prospective expectations and considering below factors;

- Customer type (individual, corporate, commercial and SME)
- Product type
- Ratings used as part of internal ratings systems (for corporate segment)
- Collaterals
- Collection period
- Exposure at default
- Time passed since loan disbursement
- Time to maturity

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VIII. Explanations on expected credit loss (continued)

If the existing provision model is not able to reflect the situation, individual assessment is possible by using the cash flow expectations of Credits Monitoring and Collection Department.

Exposure at Default: Expresses the exposure amount when debtor defaults. It accounts along with the maturity of the borrower. The amount of additional risk that may occur in case of default is added to the amount of risk and included in the calculations by using the credit conversion rates (CCR) for irrevocable commitments.

Probability of Default: Refers to the probability of default due to the inability of the debtor to fulfill its obligations. 12-month or lifetime estimation is performed according to whether there is an increase in credit risk or not.

Loss Given Default: In the default of the borrower, it is calculated as the expected credit loss to exposure at default. Loss given default models include inputs such as product type, customer segment, collateral structure, customer payment performance.

Macroeconomics Factors: Macroeconomics indicators are taken into account in determining the probability of default component in the expected credit loss calculation. Future macroeconomics forecasts are reflected in the expected credit loss calculations using more than one scenario.

While macroeconomics information is included in calculations, models and model estimations reflecting the relationships between model risk parameters and macroeconomics variables are taken into consideration. The main macroeconomics indicators that make up these estimation models are the Gross Domestic Product (GDP), growth rate, and the unemployment rate. According to segmentation based on turnover, the unemployment rate is used in models including segments with a turnover of TL 20 million and below, on the other hand; the unemployment rate and the Gross Domestic Product (GDP) are used in models including segments with a turnover of over TL 20 million. Macroeconomics estimation models include more than one scenario and the related scenarios are taken into account in the expected credit loss calculations.

Future expectations are determined based on 2 scenarios, base and negative. Each scenario has predetermined weights, and the final provisions are calculated by weighting on these probabilities.

The Bank's macro-economic forecasting for forward-looking perspective, the current economic conditions, according to the Medium Term Programme (MTP) and expert opinions, it calculates the expected credit loss with two scenarios: base and negative. The macroeconomic value estimates taken into account are presented below;

	Base Scenario		Negative Scenario	
	Growth	Unemployment	Growth	Unemployment
1st year	5,00%	12,00%	3,70%	13,00%
2nd year	5,50%	11,40%	2,90%	12,50%
3rd year	5,50%	10,90%	2,90%	11,90%

Calculation of Expected Loss Period: In determining the lifetime expected credit loss, the period in which the Bank will be exposed to credit risk is taken into consideration. Behavioural maturity analysis was performed on credit cards and overdraft accounts. The maximum period for which credit losses are to be recognized, except for credit cards and other revolving loans, is the contractual life of the financial instrument unless a legal right is required to recall the loan.

Significant Increase in Credit Risk: Due to the significant increase in credit risk, the Bank performs quantitative and qualitative assessments to determine the financial assets to be classified as Stage 2 (Significant Increase in Credit Risk).

Within the scope of the quantitative assessments made for the corporate segment, the Bank compares the change between the starting date and the date of the report by taking into account the time passed since the opening date. In order to make this comparison, the Bank specifies threshold values to determine which changes are accepted as significant change. The decision to classify financial assets with a significant increase in credit risk by exceeding these threshold values as Stage 2 is taken by the opinion of the Credits Department.

Within the scope of qualitative evaluations, financial assets under close monitoring as of the reporting date are classified as Stage 2.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IX. Explanations on offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit or loss”, “Financial assets at fair value through other comprehensive income” or “Financial assets measured at amortized cost” according to their purposes to be held in the Bank’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities, and interest expense accruals are calculated using the effective interest rate (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

Securities purchased under agreements to resell (“Reverse repo”) transactions are accounted under the “Money market placements” in the balance sheet.

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as other assets if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is part of the Bank’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the statement of profit or loss.

The Bank does not have any discontinued operations.

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Bank consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33,3%.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Assets	Estimated Useful Lives (Years)	Depreciation Rates (%)
Safe Boxes	50	2
Vehicles	5	20
Real Estate	50	2
Other Tangible Assets	4-20	5-25

Explanations about Leases Standard TFRS 16

The Bank has started to implement TFRS 16 Leases, which was published in the Official Gazette dated 16 April 2018 and numbered 29826 in its unconsolidated financial statements and became effective as of 1 January 2019, for the first time.

TFRS 16 "Lease" Standard

The Bank as a lessee according to "Lease" Standard:

The Bank assesses whether the contract has the characteristic of a lease or whether the Contract includes a lease transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects a right of use and a lease liability to the financial statements at the effective date of the lease.

Right to use asset:

The right to use asset is first recognized by cost method and includes:

- The initial measurement amount of the lease obligation,
- The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;
- All initial direct costs incurred by the Bank.

When applying the cost method, the Bank measures the right to use as follows:

- Deducts accumulated depreciation and accumulated impairment losses and
- Measures the restatement of the lease obligation at the restated cost.

Bank applies depreciation clauses of TAS 16 Tangible Assets standard when measuring the depreciation of the right to use.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIII. Explanations on tangible assets (continued)

Explanations about Leases Standard TFRS 16 (continued)

Lease liabilities:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the implied leasing transaction rate, if easily identified. Otherwise Bank's incremental borrowing interest rates are used.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

After the effective date of the lease, the Bank measures the leasing liability as follows:

- a) Increases the book value to reflect the interest on the lease obligation
- b) Reduces the book value to reflect the lease payments made and
- c) The book value is measured to reflect reassessments and restructuring, or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XIV. Explanations on leasing transactions

As "TFRS 16 Leases" standard is valid starting on 1 January 2019, difference between operational lease and financial lease disappeared so that leasing transactions will be recognized as right-of-use assets and will be recognized under "Tangible Assets" and corresponding liability under "Lease Liabilities".

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Employee Benefits. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in represented in financial statements. All actuarial losses and gains are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate of 13,00%, inflation rate of 8,50%.
- Effective as of 30 June 2022, ceiling salary amount is considered as TL 10.848,59 (full TL).
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There are no employee foundation fund or similar institutions.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVIII. Explanations on taxation

1. Current Tax

As of 30 June 2022, the current corporate tax rate is 25%. In accordance with the Article 26 of the Law No. 7394 on the "Law on Evaluation of Immovable Property Owned by the Treasury and Amendment to the Value Added Tax Law" and as per added first sentence to the temporary Article 13 of the Law No. 5520 on the "Corporate Tax Law" published in the Official Gazette No. 31810 dated 15 April 2022, starting from the declarations that must be submitted as of 1 July 2022 and to be valid for the taxation period starting from 1 January 2022, the corporate tax rate will be applied as 25% for the corporate earnings for the taxation period of 2022.

Corporate tax rate business income tax in accordance with the laws of the institutions to be added as unacceptable the reduction of costs in the tax laws, exemptions and reductions to the tax base found as a result of the reduction that will be applied. Additional tax is not payable unless the profit is distributed.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. While dividends paid to individuals and corporations were subject to withholding tax at the rate of 15%, this rate has been changed to 10% with the Presidential Decision published in the Official Gazette dated 22 December 2021 and No. 31697. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings. In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from prior periods.

A 75% portion of the capital gains derived from the sale of equity investments and a 50% portion of the capital gains derived from the sale of immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special fund account under liability for five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Current tax, related to items recognized directly in equity is also credited or charged directly to equity.

As of the end of the 2021 calendar year, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298/A of the Tax Procedure Law (TPL). However, with the regulation made with the Law No. 7352 dated 20 January 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. According to this; TPL financial statements for the 2021 and 2022 accounting periods, including the provisional tax periods, will not be subject to inflation adjustment. As for the 2023 accounting period; during provisional tax periods inflation adjustment will not be applied but the TPL financial statements dated 31 December 2023 will be subject to inflation adjustment regardless of whether the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in TPL financial statements will be shown in previous years' profit/loss accounts and will not affect the corporate tax base.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVIII. Explanations on taxation (continued)

2. Deferred Tax

The Bank calculates and recognizes deferred tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) "Income Taxes".

In accordance with the Article 26 of the Law No. 7394 on the "Law on Evaluation of Immovable Property Owned by the Treasury and Amendment to the Value Added Tax Law" and as per added first sentence to the temporary Article 13 of the Law No. 5520 on the "Corporate Tax Law" published in the Official Gazette No. 31810 dated 15 April 2022, starting from the declarations that must be submitted as of 1 July 2022 and to be valid for the taxation period starting from 1 January 2022, the corporate tax rate will be applied as 25% for the corporate earnings for the taxation period of 2022.

Deferred tax liabilities are generally recognized for all taxable temporary and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax rate calculation has started to be applied over temporary expected credit losses as per TFRS 9 articles from 1 January 2018. The Bank calculates deferred tax also for provisions for possible losses.

As of 30 June 2022, the deferred tax asset is TL 313.153 (31 December 2021: TL 308.819 deferred tax asset). The deferred tax asset is calculated as the net of taxable and deductible temporary differences.

Deferred tax income/(expense) is recognized within "Deferred Tax Income Effect" and "Deferred Tax Expense Effect" in the statement of profit or loss; net deferred tax income is TL 52.573 for the current period (1 January - 30 June 2021: TL 3.894 net expense). The part of the deferred tax related to assets directly associated with equity is recognized in equity, this amount is TL 48.239 of expense (1 January - 30 June 2021: TL 1.391 expense).

3. Transfer Pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing. "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the "7.1 Annual Documentation" section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices on time.

XIX. Additional explanations on borrowings

The Bank provides resources from domestic and foreign individuals and institutions both by borrowing funds and issuing bills and bonds.

Borrowing instruments are initially measured at acquisition cost and subsequently measured at amortized cost with the effective interest method. In the accompanying financial statements, foreign currency denominated borrowing funds are converted to Turkish Lira with the Bank's spot foreign exchange buy rates and interest expenses incurred during the period relating to the borrowing funds are recognized in statement of profit or loss.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIX. Additional explanations on borrowings (continued)

Additional Tier I Capital

The Bank has recognised the issued Tier 1 securities of TL 100.000 nominal and related interest expenses as under "equity" in the balance sheet.

The additional Tier 1 capital with a nominal amount of 30 million USD was early redeemed on 1 March 2022 with the approval of the BRSA, and the redemption amount was used in the cash capital increase realized in April 2022.

Information on debt instruments to be included in the equity calculation is explained under the explanations on equity items in the fourth section, Information on Financial Structure and Risk Management.

XX. Explanations on share certificates issued

None.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXII. Explanation on government incentives

As of the balance sheet date, the Bank does not have any government incentives.

XXIII. Explanations on segment reporting

The Bank operates in consumer banking services, current accounts, deposit accounts, long term investment products, clearing and custody services, credit and atm services, retail loans, long term mortgage loans, and all other kinds of consumer banking services and commercial services.

	Retail Banking	Corporate & Commercial Banking	Treasury & Headquarters	Total Operations of the Bank

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XXIV. Profit reserves and distribution of the profit

In financial statements, except legal reserves, retained earnings can be distributed on condition that it has legal reserve requirement explained below.

Legal reserves are consisted of first and second reserves as determined in Turkish Commercial Code (TCC). First legal reserve is appropriated by TCC at the rate of 5%, until the total reserve is equal to 20% of issued and fully paid-in share capital. Second legal reserve, appropriated at the rate of 10% of distributions in excess of 5% of issued and fully paid-in share capital, but holding companies are not subject to such transaction. According to the Turkish Commercial Code, legal reserves can only be used to compensate accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

In the Ordinary General Assembly Meeting of the Bank held on 28 March 2022, it has been decided to allocate 18.714 TL as legal reserves, 83.886 TL for special funds and 271.684 TL as extraordinary reserves from the remaining 374.284 TL after deducting previous year losses (Interest expenses of securities with nominal additional capital of 100.000 TL followed under shareholders' equity) of 35.683 TL from 409.967 TL net profit after tax for 2021.

XXV. Earnings Per Share

Earnings per share disclosed in the statement of profit or loss are calculated by dividing net profit for the year by the weighted average number of shares outstanding during the related period concerned.

	30 June 2022	30 June 2021
Net Profit / (Loss) distributable to Common Shares	1.211.489	173.338
Average Number of Issued Common Shares (Thousand)	135.772.255	94.116.055
Earnings Per Share (Amounts presented as full TL)	0,00892	0,00184

In Turkey, companies can increase their share capital by distributing "bonus shares" to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

There are no bonus shares issued by the Bank in 2022 (31 December 2021: None).

XXVI. Cash and Cash Equivalent Assets

Cash, cash in transit, purchased bank cheques and demand deposits including balance with Central Bank are considered as "Cash"; interbank money market placements time deposits at banks with original maturity periods of less than three months and receivables from reverse repo are considered as "Cash Equivalents". Required reserves kept in Central Bank under blocked account are not "Cash Equivalents" in the statement of cash flow.

XVII. Classifications

None.

XXVIII. Other Disclosures

BRSA has announced a series of measures to limit the negative effects of the worldwide uncertainty created by COVID-19 pandemic observed in Turkey and all over the world. The possible effects of these measures on the Bank's financial statements are closely monitored by the Bank's Management, and necessary measures are taken to keep the possible negative effects under control.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION FOUR

INFORMATION ON FINANCIAL POSITION AND RISK MANAGEMENT

Total capital and capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks”.

As of 30 June 2022, the Bank’s total capital has been calculated as TL 8.716.312 and the capital adequacy ratio is 24,01% (As of 31 December 2021, the Bank’s total capital amounted to TL 6.090.650 and the capital adequacy ratio was 23,54%).

I. Information related to the components of shareholders’ equity:

	Current Period (30/06/2022) Amount	Amount as per the regulation before 1/1/2014
TIER I CAPITAL		
Paid-in capital to be entitled for compensation after all creditors	1.357.723	
Share Premium	128.678	
Reserves (*)	1.081.776	
Other comprehensive income according to TAS	880.394	
Profit	1.211.489

* The amounts to be considered under the transitional provisions

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from the subordinated bonds, general provisions and TFRS 9 transition effect. In the calculation of Total Capital, general reserve up to 1,25% of credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operational leases presented under tangible assets in the balance sheet, together with related deferred tax liabilities and deferred tax assets calculated for provision for possible losses and other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

Debt instruments included in shareholder's equity calculation(*):

Issuer	Fibabanka A.Ş.	Fibabanka A.Ş.
Code of debt instrument (CUSIP, ISIN etc.)	XS1386178237	TRSFIBA10016
Regulation of debt instrument	BRSA's "Regulation on Equities of Banks" dated 1 November 2006" and English Law	BRSA's "Regulation on Equities of Banks" dated 1 November 2006"
Consideration Status in Shareholders' Equity Calculation		
Situation of being subject to practice of being taken into consideration with 10% deduction after 1/1/2015	No	No
Eligible at unconsolidated / consolidated	Unconsolidated and Consolidated	Unconsolidated and Consolidated
Type of debt instrument	Subordinated Security	Subordinated Security
Recognized amount in shareholders' equity calculation (As of the most recent reporting date - Thousand TL)	4.020.962	100.000

II. Explanations on risk management

Notes and explanations in this section have been prepared in accordance with the Communiqué on Disclosures about RWA flow statements of credit risk exposures under IRB Risk Management to Be Announced to Public by Banks that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016. Due to usage of standard approach for the calculation of capital adequacy by the Bank, the following tables which were prepared in the third and six month periods have not been presented as of 30 June 2022:

- CR8 - RWA flow statements of credit risk exposures under IRB (Internal Ratings Based)
- CCR7 - RWA flow statements of CCR exposures under the Internal Model Method (IMM)
- MR2 - RWA flow statements of market risk exposures under an IMA
- CR6 - IRB - Credit risk exposures by portfolio and PD range
- CR7 - IRB - Effect on RWA of credit derivatives used as CRM techniques
- CR10 - IRB - Specialised lending and equities under the Simple Risk-Weight Method
- CCR4 - CCR exposures by portfolio and PD scale
- MR3 - IMA values for trading securities
- MR4 - Comparison of VaR estimates with gains/losses

In addition to this, the following tables those have to be disclosed in accordance with the Communiqué were not included as the Bank does not have such transactions:

- CCR6 - Credit derivatives exposures
- CCR8 - Exposures to central counterparties
- SEC1 - Securitisation exposures in the banking book
- SEC2 - Securitisation exposures in the trading book
- SEC3 - Securitisation exposures in the banking book and associated regulatory capital requirements bank acting as originator or as sponsor
- SEC4 - Securitisation exposures in the banking book and associated capital requirements - bank acting as investor

a. Overview of Risk Weighted Amounts

	Risk Weighted Amount		Minumum Capital Requirements
	Current Period	Prior Period	Current Period
1 Credit risk (excluding counterparty credit risk) (CCR)	30.198.974	21.905.246	2.415.918

III. Explanations on Currency Risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Bank does not take material foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 30 June 2022, the Bank's net long position is TL 685.116 (31 December 2021: TL 187.609 net short position) resulting from short position on the balance sheet amounting to TL 2.018.355 (31 December 2021: TL 459.765 long position) and long position on the off-balance amounting to TL 2.703.741 (31 December 2021: TL 647.374 short position). The Bank uses "Standard Method" in legal reporting to measure the foreign exchange risk.

The announced foreign exchange buying rates of the Bank at balance sheet date and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date	TL 16,6614
Euro purchase rate as at the balance sheet date	TL 17,3701

Date	USD	EURO
24 June 2022	17,3470	18,2455
27 June 2022	17,3478	18,2753
28 June 2022	16,6460	17,6057
29 June 2022	16,6189	17,5858
30 June 2022	16,6614	17,3701

The US Dollar and EUR buying rates are TL 14,8280 and TL 16,1868 (in full TL amounts) respectively, according to simple arithmetic average on June 2022.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Explanations on interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and Asset-Liability risk measurement methods are used to measure the Bank's interest rate risk.

Measurements by the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crisis. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

Interest rate sensitivity of assets, liabilities and off-balance sheet items (Based on repricing dates):

Current Period	Up to 1 month	1-3 Months	3-12 Months	1-5 Years	Over 5 Years	Non-interest Bearing	Total

V. Explanations on position risk of equity securities resulted from banking book

The Bank has position risk of equity shares amounting to TL 14.206 as of 30 June 2022 (31 December 2021: TL 11.444).

VI. Explanations on liquidity risk and liquidity coverage ratio

The Board of Directors reviews the liquidity and funding risk management policy weekly or in case of necessity. Liquidity risk is managed by Asset and Liability Committee (ALCO) in line with risk management policy as short and long term liquidity risk.

Liquidity Risk is managed by ALCO in order to take the necessary measures in a timely and correct manner against possible liquidity shortages. Treasury department manages cash inflows and outflows in line with strategies determined by ALCO. As deemed necessary by the ALCO members, liquidity meetings are performed for the purposes of close monitoring. Treasury department manages short term liquidity by adhering to the ALCO strategy and ensuring compliance with legal liquidity limits and stress testing.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN
1 JANUARY 2022 - 30 JUNE 2022**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on liquidity risk and liquidity coverage ratio (continued)

In the context of TL and foreign currencies liquidity management, the Bank monitors the cash flows weekly and action plan is made based on ALCO decisions. The funding balance is directly monitored and compensated by making the risk-return-cost evaluation.

For long-term liquidity "Maturity Mismatch Report" is prepared and presented to ALCO on a weekly basis. The Bank, resulting from the general structure of Turkish banking sector, has a liquidity gap at the 1 year maturity period. The Bank intends to eliminate liquidity mismatch shifting focus to long-term funding alternatives. Such decisions of the risk of incompatibility are taken by ALCO. The Bank diversifies its funding sources among customer deposits, domestic and foreign borrowings, bills and bonds issued, taking into consideration the maturity match between its assets and liabilities and keeps liquid assets in order to fully meet the liquidity requirements that may emerge in case of market volatility.

Information on the use of stress testing:

Department of Risk Management implements stress testing according to Liquidity and Funding Risk Policy approved by the Board of Directors on a weekly basis. These stress tests are based on the scenarios of the deposit outflow, funds obtained from bonds issued will outflow and banks limits will not be used during a 14-day period, the results are included in the presentation of ALCO on a weekly basis and in the Presentation of Risk Committee on a monthly basis. In this way, the Bank's funding structure is closely monitored and actions are taken on behalf of existing risk management.

Alternative funding sources are identified in case of need. ALCO members are responsible for taking actions against short-term liquidity shocks. In the case of a crisis or if deemed necessary, ALCO summon a meeting and take necessary actions immediately. These action plans are approved by the Board of Directors under the ICAAP. The Bank reviews resources that are available in any emergency situation constantly and takes into consideration the results of the above-mentioned stress testing and scenario analysis by the early warning system.

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks"; published in the Official Gazette numbered 28948, dated 21 March 2014; liquidity ratio is required to be 80% for foreign currency assets/liabilities and 100% for total assets/liabilities in the calculation of the banks' weekly and monthly reporting effective from 1 January 2019.

FC	906,45%	05/05/22	268,73%	13/05/22	473,09%
Prior					
Period	Highest	Date	Lowest	Date	Average
TL+FC	378,05%	07/12/2021	179,71%	22/10/2021	245,01%
FC	867,04%	23/11/2021	259,53%	11/11/2021	494,56%

The Bank implements the calculation in accordance with the Regulation of Liquidity Coverage Ratio Calculation of Banks dated 21 March 2014 and numbered 28948 published in the Official Gazette. As per the related regulation high quality liquid assets are mainly securities portfolio, cash assets and reserve requirements. The important factors affecting the results of the liquidity coverage ratio are the changes in the remaining maturities of the items and changes in the amounts of deposits and money market transactions, the remaining maturities of which are less than 30 days. Deposits form a significant portion of the Bank's sources of funds, on the other hand bonds issued, money market borrowings, funds provided from abroad are other important sources of funding.

The Bank calculates cash outflows and transactions that are complete collateral arising from derivative transactions, taking into account the 24-month averages in accordance, with The Bank implements with the Regulation of Liquidity Coverage Ratio Calculation of Banks published in the Official Gazette dated 21 March 2014 and numbered 28948.

SECTION SIX

DISCLOSURES ON REVIEW REPORT

I. Disclosures on limited review report

The unconsolidated financial statements of the Bank, have been reviewed by KPMG Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik AŞ and the review report is presented before the accompanying financial statements.

II. Disclosures and footnotes prepared by independent auditors

None.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD BETWEEN 1 JANUARY 2022 - 30 JUNE 2022

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION SEVEN

I. Interim Report Regarding Evaluations of the Chairman of the Board of Directors and the General Manager

1. Brief History of Fibabanka A.Ş. and its Shareholder Structure

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of Banking Regulation and Supervision Agency No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as BankEuropa Bankası A.Ş.

In the Extraordinary General Assembly held on 28 November 2006, the name of BankEuropa Bankası A.Ş. was amended as Millennium Bank A.Ş. On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Parent Bank's shares to Credit Europe Bank N.V. and the legal approval process has been completed as of 27 December 2010. In the Extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. has been amended as Fibabanka A.Ş. ("the Bank").

Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97,6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2,4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012.

In 2013, capital was increased in the total amount of TL 123.350 to TL 550.000, provided from inflation adjustment difference of TL 17.415, from the profit from the sale of real estate of TL 9.502 and cash from Fiba Holding of TL 96.432 to reach TL 550.000.

On 31 March 2015, according to BOD's decision as of 5 March 2015, share capital was increased from TL 550.000 to TL 678.860 while TL 127.045 of the increase was provided by the subordinated loan granted by Fiba Holding A.Ş. which had been approved to be converted to capital and TL 1.815 of total capital was paid in cash by the other shareholders. Capital increase was recognised in financial statements following the completion of the legal procedures on 7 May 2015.

According to the Subscription Agreement signed on the date of 23 October 2015, by and between the Bank and International Finance Corporation ("IFC") and European Bank for Reconstruction and Development ("EBRD"), IFC and EBRD have separately subscribed an amount of including the share premium of TL 121.017 (TL 84.328 of said amount is the share capital; TL 36.689 is the share premium), which makes a total amount of TL 242.034 in the share capital of the Bank by way of capital increase.

The Bank's TL 847.515 paid capital was increased by TL 93.646 on 7 September 2016 all by TurkFinance B.V. to TL 941.161. In addition, TL 55.299 recorded under the equity as share premium.

With the decision taken at the Extraordinary General Assembly dated April 14, 2022, the paid-in capital of the Bank was increased by TL 416.562 to TL 1.357.723 by making a cash capital increase.

As of 30 June 2022, the Bank's paid-in capital is TL 1.357.723.

As of 30 June 2022, The Bank's Shareholder Structure:

Commercial Title	Share Amount (Full basis TL)	Share Ratios (%)
Fiba Holding A.Ş.	989.361.990,72	72,87%
Turk Finance B.V.	135.093.394,05	9,95%
International Finance Corporation	84.327.750,28	6,21%
European Bank for Reconstruction and Development	121.651.601,34	8,96%
Other	27.287.816,85	2,01%
TOTAL	1.357.722.553,24	100%

I. Interim Report Regarding Evaluations of the Chairman of the Board of Directors and the General Manager (continued)

4. Evaluations of the Chairman of the Board of Directors and the General Manager Regarding the Interim Period

Affecting the entire world since the beginning of 2020, the coronavirus pandemic was a critical test for Fibabanka in terms of demonstrating the extent to which it values its stakeholders. Thanks to the investments we have made in advanced technology over a long period, we were able to take quick actions and adopt the remote working model for our headquarters employees. Branch personnel continued to serve the Bank's customers by working from home and from branch locations alternately. Fibabanka has taken various measures to ensure hygiene and social distance in order to safeguard the health of Bank customers and employees. In addition, we conducted our business operations without compromising on service quality by adjusting our working hours and directing customers to digital channels, such as Fibabanka Mobile and Internet Banking channels. I would like to express my gratitude to all our employees who have shown great effort and commitment during this difficult but necessary adaptation process. Since March 2020, Fibabanka has performed Net Promoter Score (NPS) measurements for its digital channel customers. This effort has allowed us to strengthen the bond between the Bank and our customers. Thanks to the simultaneous experience measurements, we quickly achieved results in terms of further boosting customer satisfaction.

Since day one, Fibabanka has conducted its business operations in light of its "big data" focused digital transformation journey. Thanks to our advanced technology and big data focused investments, the Bank broadened its customer base and provided even better customer service in 2020. As a result of this;

As of 30 June 2022, Fibabanka net loans portfolio is TL 27,2 billion.

The Bank has funded its loan portfolio mainly by customer deposits also in 2022. In this period, customer deposits amounting to TL 33,5 billion constitutes 55% of total liabilities.

Also in the second quarter of 2022, by taking care of asset quality, it is aimed to continue having an efficient loan portfolio and higher non-interest income together with higher number of customers. In addition, by keeping the operating expenses under control, the Bank's profit has been achieved a steady growth. As a result the Bank's net profit in the six months of 2022 is TL 1.211,5 million as per unconsolidated financial statements. As an indicator of Bank's strong capital structure, unconsolidated capital adequacy ratio is 24,01% as of 30 June 2022.

Besides its financial targets, the Bank, with 45 branches and 1.799 employees, has also non-financial targets like digitalization and inclusion aiming to offer increasingly new innovations through its alternative distribution channels like internet and mobile banking.

In 2022, the Bank will continue its agile, efficient and customer focused growth by keeping its prudent and deliberate attitude against asset quality. In this sense, with the motto "agile thinking, agile solutions" and a personal attention to the customers, our main goals for the future are to increase our service quality by keeping our innovating and enterprising approach in all areas and to increase customer loyalty by being by side in all needs of our customers.

On this journey we went out with the vision of "Being the most loved Bank of Turkey", we would like to thank our valued employees who work with dedication in our Bank and are the main architect of our business also in 2022, our valued partners, and our valued customers who have contributed to the strength of our Bank.

Best regards,

Hüsnü Mustafa Özyeğin
Chairman of the Board of Directors

Ömer Mert
General Manager and Member of Board of Directors
