LIMITED REVIEW REPORT FOR THE INTERIM FINANCIAL INFORMATION

To the Board of Directors of Fibabanka A.Ş.

Introduction

We have reviewed the accompanying statement of financial position of Fibabanka A.Ş. (“the Bank”) as at 30 September 2015, and the income statement, statement of income and expense items under shareholders’ equity, statement of changes in shareholders’ equity and statement of cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the Banking Regulation and Supervision Agency, (all together referred as the BRSA Accounting and Reporting Regulations) and Turkish Accounting Standard 34 “Interim Financial Reporting”, except for the matters regulated by the BRSA Accounting and Reporting Regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of Fibabanka A.Ş. as at 30 September 2015, and of the results of its operations and its cash flows for the nine-month period then ended in accordance with the BRSA Accounting and Reporting Regulations and Turkish Accounting Standard 34 “Interim Financial Reporting”, except for the matters regulated by the BRSA Accounting and Reporting Regulations.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank’s financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

FİBABANKA A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF 1 JANUARY- 30 SEPTEMBER 2015

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. History of the Bank Including Its Incorporation Date, Initial Status and Amendments to the Initial Status

On 21 December 2001, Share Transfer Agreement was signed with Novabank S.A. for the sale of all shares of Sitebank A.Ş. under the control of SDIF and the sale transaction was approved by the decision of BRSA No: 596 on 16 January 2002.

In the General Assembly held on 4 March 2003, the name of Sitebank A.Ş. was amended as Bank Europa Bankası A.Ş.

In the extraordinary General Assembly held on 28 November 2006, the name of Bank Europa Bankası A.Ş. was amended as Millennium Bank A.Ş.

On 27 December 2010, acquisition of the Bank by Credit Europe Bank N.V., which is an affiliate of Fiba Holding A.Ş., has been realized.

In the extraordinary General Assembly held on 25 April 2011 the name of Millennium Bank A.Ş. has been amended as Fibabanka A.Ş. ("the Bank").

II. Shareholder Structure, Shareholders Having Direct or Indirect, Joint or Individual Control over the Management and Internal Audit of the Bank, Changes in Shareholder Structure during the Current Period, if any and Information on the Bank's Risk Group

On 10 February 2010, Banco Comercial Portugues S.A. and Credit Europe Bank N.V., which is an affiliate of Fiba Group, signed a share purchase agreement to transfer 95% of the Bank's shares to Credit Europe Bank N.V. and the legal approval process has been completed as of 27 December 2010. Credit Europe Bank N.V. is 100% owned by Credit Europe Group N.V. which is a banking group incorporated in Netherlands and an affiliate of Fiba Holding A.Ş.

Credit Europe Bank N.V.'s share of capital increased from 95% to 97.6% after the capital increases during 2011 and 2012. Fiba Holding A.Ş. became the ultimate parent of the Bank after acquiring 97.6% of the shares from Credit Europe Bank N.V. on 3 December 2012 and 2.4% of the shares from Banco Comercial Portugues S.A. on 7 December 2012. There were sales of equity shares to the management of the Bank in 2013. Total share of the management is 1.4%.

The Bank, applied to the BRSA on January 14, 2015 for permission of the subordinated loan provided from Fiba Holding A.Ş. in the amount of USD 50 million to be converted to share capital. Following the authorization of the BRSA on March 4, 2015, the Board of Directors decision was taken on March 5, 2015 regarding share capital increase from TL 550,000 to TL 678,860 . TL127,045 of total capital increase is provided by Fiba Holding A.Ş. loan permitted to be converted to capital, TL 1,815 is provided through cash from other shareholders, capital increase recorded in financial statements following the completion of the legal procedures on May 7, 2015.

As of 30 September 2015, Bank's full paid up capital is TL 678,860.

FİBABANKA A.Ş.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE

ACCOUNTING POLICIES

I. Explanations on the basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

As per the Article 37 of “Accounting and Recording Rules” of the Turkish Banking Law No. 5411 published on the Official Gazette no.26333 dated 1 November 2006 and became effective, the Bank keeps its accounting records and prepares its unconsolidated financial statements and the related footnotes in accordance with accounting and valuation standards described in “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published by the Banking Regulatory and Supervisory Agency (“BRSA”) and in effect since 1 November 2006, and Turkish Accounting Standards (“TAS”), Turkish Financial Reporting Standards (“TFRS”) and the related statements and guidance announced by the Public Oversight, Accounting and Auditing Standards Authority (“KGK”). The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in the Communiqué “Publicly Disclosed Financial Statements and the Accompanying Explanations and Footnotes by Banks” published in the Official Gazette numbered 28337 on 28 June 2012. Bank accounts its records in TL, in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The financial statements are prepared in thousands of TL based on the historical cost convention, except for the financial assets and liabilities carried at fair value.

2. Accounting policies and valuation principles applied in preparation of financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in regulations, communiqués, statements and guidance and if there is no special regulation by the BRSA in accordance with to the principles within IAS / IFRS, are consistent with the accounting policies applied in the annual financial statements prepared for the year ended 31 December 2014. The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXIV below.

II. Explanations on the usage strategy of financial instruments and on foreign currency transactions

1. Usage strategy of the financial instruments

The major factor in managing interest rate and liquidity risk at the balance sheet is parallel movement of asset and liability side.

Exchange rate risk, interest rate risk and liquidity risk are controlled and measured by various risk management systems, and the balance sheet is managed under the limits set by these systems and the limits legally required. Value at risk models are used for this purpose.

Purchase-sale transactions of short and long-term financial instruments are realized within pre-determined risk limits that are allowed for the purpose of increasing risk-free return on capital.

The foreign currency position is controlled by the equilibrium of a currency basket to eliminate the foreign exchange risk.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

2. Foreign currency transactions
2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements

The Bank recognizes the foreign currency transactions in accordance with TAS 21 “The Effects of Changes in Foreign Exchange Rates”. Foreign exchange gains and losses arising from the foreign currency transactions as of balance sheet date are translated into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the period and the related currency translation differences are recognized as foreign exchange gains and losses.

As at the end of the related periods, the Bank’s foreign currency exchange rates are as follows:

	30 September 2015	31 December 2014
US Dollar	3.0009	2.3189
Euro	3.3669	2.8207

2.2 Foreign exchange gains and losses included in the income statement

As of 30 September 2015, net foreign exchange loss included in the income statement amounts is TL 167 (1 January – 30 September 2014: TL 4,500 loss).

III. Explanations on Subsidiaries and Affiliates

At the unconsolidated financial statements; subsidiaries and affiliates are accounted according to ‘Financial Instruments: Turkish Accounting Standard on Recognition and Measurement (“TAS 39”)’ announcement.

IV. Explanations on forward transactions, options and derivative instruments

The Bank’s derivative transactions mainly consist of foreign currency swaps, foreign currency options and forward foreign currency purchase/sale contracts. The Bank does not have any embedded derivatives separated from the host contract.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps and options are classified as "hedging purpose" and "trading purpose" transactions. Derivatives are initially recognized at cost including the transaction costs. Also, the assets and liabilities arising from the derivative transactions are recorded as off-balance sheet items at their contractual notional amounts. The derivative transactions held for trading are valued at fair-value using market prices or pricing models subsequent to initial recognition and are presented in “derivative financial assets held for trading” or “derivative financial liabilities held for trading” items of the balance sheet depending on the difference's being positive or negative. The derivative transactions held for hedging are valued at fair value using market prices or pricing models subsequent to initial recognition and are presented in "derivative financial assets held for hedging purpose" or “derivative financial liabilities held for hedging" items of the balance sheet depending on the difference's being positive or negative. Gains and losses arising from a change in the fair value are recognized in the income statement.

V. Explanations on interest income and expenses

Interest income and expenses calculated using internal rate of return are recognized on accrual basis. In accordance with Banking Act No: 5411 Articles 53 and 93, based on the prevailing communiqué, interest accruals on loans becoming non-performing are reversed and also ceased to accrue interest on loans until these loans are classified as performing or collected.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on fee and commission income and expenses

Fee and commission income / expenses are recognized based on cash basis or accrual basis upon the nature of the transaction.

VII. Explanations on financial assets

Financial assets include cash on hand, contractual rights to receive cash or another financial asset from the counterparty or the right to exchange of financial instruments or equity instrument transactions of the counterparty. Financial assets are classified into four groups as financial assets at fair value through profit or loss, held to maturity investments, loans and receivables and available-for-sale financial assets.

1. Financial assets at fair value through profit or loss

1.1 *Financial assets held for trading*

Financial assets held for trading are recognized at their fair values and any gain or losses resulting from such valuation are recorded in the profit and loss accounts. Interests received during the holding period of such financial assets and the difference between the amortized cost (calculated using internal rate of return) and the acquisition cost are recognized as interest income in the income statement. Gains and losses on sale of held for trading financial assets before their maturity and the difference between market value and amortized cost (calculated using internal rate of return) of such financial assets are recognized in gains and losses on securities trading under income statement.

1.2 *Financial assets at fair value through profit or loss*

The Bank does not have any financial assets designated as “financial assets at fair value through profit or loss”.

2. Financial assets available for sale

Financial assets available-for-sale, are financial assets other than assets held for trading purposes, investments held-to-maturity and originated loans and receivables. Financial assets available-for-sale is measured at their fair values subsequently.

Interest income of the investments securities available-for-sale; based on the internal rate of return; are included in the income statement. Unrecognized gain/losses derived from the difference between their fair value and the discounted values are recorded in “Marketable Securities Revaluation Reserve” under the shareholders’ equity. In case of disposal, gains/losses recognized under equity are realized and recognized directly in the income statement.

Purchase and sale transactions of securities are accounted for on a settlement date basis.

3. Held to maturity investments

The Bank does not have any held to maturity investments as of 30 September 2015.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

4. Loans and receivables

Loans and receivables are financial assets, which are generated by providing funds, goods or services to the debtor.

Loans and receivables are financial assets with fixed or determinable repayment schedules and they are not traded in an active market.

Loans are initially measured at their acquisition cost and subsequently measured at amortized cost calculated using effective interest rate method in accordance with TAS 39 “Financial Instruments: Recognition and Measurement”. Duty charges, transaction fees and other expenses paid for the collaterals of the loans are considered as part of the transaction costs and charged to the customers.

VIII. Explanations on impairment of financial assets

Financial asset or groups of financial assets are reviewed by the Bank at each balance sheet date to determine whether there is objective evidence of impairment. If any such indicator exists, the Bank determines the amount of impairment.

Impairment loss incurs if, and only if, there is objective evidence that the reliably estimated future cash flows of financial asset or group of financial assets are adversely affected by an event(s) (“loss event(s)”) incurred subsequent to initial recognition.

The Bank provides specific and general allowances for loan and other receivables classified in accordance with the Communiqué published on the Official Gazette No.2633 dated November 1, 2006. The allowances are recorded in the income statement of the related period.

IX. Explanations on offsetting financial instruments

If the fair values of equity shares held for trading and quoted at the stock exchanges are lower than their carrying values, allowance for impairment is recognized and the recognized impairment is offset with the related assets on the face of the balance sheet.

Specific allowances for non-performing loan and other receivables are provided in accordance with “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”. Such allowances are offset with loans under follow-up on the asset side. Other financial assets and liabilities are offset when the Bank has a legally enforceable right to offset.

X. Explanations on sale and repurchase agreements and securities lending transactions

Securities subject to repo (repurchase agreements) are classified as “Financial assets at fair value through profit and loss”, “Financial assets available for sale” or “Investments held to maturity” according to their purposes to be held in the Bank’s portfolio and evaluated within the principles of the relevant portfolio. Funds obtained from repurchase agreements are followed under the “Funds from repo transactions” account in liabilities, and interest expense accruals are calculated using the effective interest (internal rate of return) method on the difference between the sales and repurchase prices corresponding to the period designated by a repurchase agreement.

Reverse repo transactions are recorded under the “Receivables from reverse repurchase agreements” account.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XI. Explanations on noncurrent assets held for sale and discontinued operations and the related liabilities

A tangible asset (or a disposal group) classified as “asset held for sale” is measured at the lower of the carrying value or fair value less costs to sell. Assets held for sale are not depreciated and presented in the financial statements separately. An asset (or a disposal group) is regarded as “asset held for sale” only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively marketed at a price consistent with its fair value.

Events or circumstances may extend the period to complete the sale beyond one year. An extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a part of the Bank’s business classified as disposed or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

XII. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill in the accompanying financial statements. The intangible assets of the Bank consist of software, intangible rights and other intangible assets.

The costs of the intangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and intangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated amortization and impairment, if any.

Estimated useful lives of the intangible assets are 3 to 10 years, and amortization rates are 10% to 33.3%.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) “Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIII. Explanations on tangible assets

Tangible assets are measured at cost in accordance with the Turkish Accounting Standard 16 (TAS 16) "Tangible Assets".

The costs of the tangible assets purchased before 1 January 2005 are recognized at their inflation adjusted costs as of 31 December 2004 and tangible assets purchased after 1 January 2005 are recognized at their acquisition cost less accumulated depreciation and impairment, if any. If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, an allowance for impairment is recognized.

Gains/losses from the sale of the tangible assets are calculated as the difference between the net book value and the net sales price.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Asset	Estimated useful lives (Years)	Depreciation Rate (%)
Safe boxes	2-50	2-50
Vehicles	5	20
Real estate	50	2
Other Tangible Assets	4-50	2-25

XIV. Explanations on leasing transactions

Duration of financial leasing contracts is maximum 4 years. Tangible assets obtained via financial leasing are classified as the Bank's assets or liabilities resulting from financial leasing according to its nature. Assets obtained via financial leasing are depreciated in accordance with the principals for tangible assets. Rent payments for operating leases are recorded at equal amounts as expense during the payment period.

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". In the financial statements, a provision is made if there is a present obligation that arises from past events as of the balance sheet date, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and if a reliable estimate can be made of the amount of the obligation. If the amount is not reliably estimated and there is no probability of cash outflow from the Bank to settle the liability, the related liability is considered as "contingent" and disclosed in the notes to the financial statements.

Provisions recognized during the period are recognized within "other operating expenses"; reversals of provisions recognized in the prior periods are recognized within "other operating income".

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVI. Explanations on contingent assets

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Bank. If an inflow of economic benefits has become probable, then the contingent asset is disclosed in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVII. Explanations on liabilities for employee benefits

As per the existing labour laws and agreements in Turkey, entities are required to pay severance for the employees retired or fired. These payments are qualified as recognized retirement benefit plan according to revised TAS 19 Standard on the Benefits Provided to Employees. Severance payment liability recognized in the balance sheet is calculated according to the net present value of expected amount in the future arising from all employees' retirements and represented in financial statements. All the actuarial gains and losses as are accounted for as other comprehensive income.

The major assumptions used in the actuarial calculation are as follows:

- Calculation is based on discount rate of 8.20%, inflation rate of 6.00% and real rate of rise in salary of 0.00%.
- As ceiling salary amount of TL 3,438.22 (full TL) (effective as of 31 December 2014)
- Individuals' earliest retirement age is considered as retirement age.
- CSO 1980 mortality table is used for the death probabilities of male and female employees.

There is no employee foundation, fund or similar institutions.

XVIII. Explanations on taxation

1. Current Tax

Effective from 1 January 2006, statutory income is subject to corporate tax at 20%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2009/14593 and no.2009/14594 of the Council of Ministers published in the Official Gazette no.27130 dated 3 February 2009, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The prepayments can be deducted from the annual corporate tax calculated for the whole year earnings.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVIII. Explanations on taxation (*cont'd*)

In accordance with the Turkish tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

2. Deferred Tax

The Bank calculates and recognizes tax for taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base according to the Turkish Accounting Standard 12 (TAS 12) “Income Taxes”.

As of 30 September 2015, the deferred tax liability is TL 1,011 (31 December 2014: TL 2,193 asset). The deferred tax asset is calculated as the net of taxable and deductible temporary differences.

Deferred tax benefit/ (charge) is recognized within “Deferred tax benefit/ (charge)” in the income statement. As of 30 September 2015, deferred tax charge is TL 8,605 (1 January – 30 September 2014: TL 6,428 charge). Deferred tax effects of the transactions and events recognized directly in the shareholders’ equity are also recognized directly in the shareholders’ equity which is TL 8,036 (benefit) as of 30 September 2015 (31 December 2014: TL 2,634 benefit).

3. Transfer pricing

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic.

According to this Communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Related forms are submitted to tax offices on time.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIX. Additional explanations on borrowings

The Bank provides resources by using loans from domestic and foreign foundations and issuing bonds and bills.

Borrowing funds are initially measured at acquisition cost and subsequently measured at amortized cost. In the accompanying financial statements, foreign currency denominated borrowing funds are translated to Turkish Lira with the Bank's spot foreign exchange buying rates and interest expenses incurred during the period relating to the borrowing funds are recognized in income statement.

The Bank applies general hedging techniques for mitigating the liquidity risk, interest rate risk and currency risk of the borrowing funds. Those techniques do not meet the definition of hedge accounting according to TAS 39. There are no convertible bonds or any other bonds issued by the Bank as at the balance sheet date.

XX. Explanations on share certificates issued

Bank capital in the current period was increased amount of TL 128,860 TL, and 127,045 of total capital increase is provided from subordinated loan permitted to be converted to capital by Fiba Holding A.Ş., TL 1,815 of total capital is provided through cash from other shareholders.

XXI. Explanations on bank acceptances and bills of guarantee

Bank acceptances and bills of guarantee are presented within off-balance sheet liabilities as being possible liabilities and commitments. Cash transactions relating to bank acceptances and bills of guarantee are realized concurrently with the customer payments.

As of the balance sheet date, there are no bank acceptances and bills of guarantee recognized as liability against an asset.

XXII. Explanation on government incentives

As of the balance sheet date, the Bank does not have any government incentives.

XXIII. Explanations on segment reporting

Explanations on segment reporting are presented in the Note VI. of part four.

XXIV. Other matters

None.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION FOUR

FINANCIAL POSITION AND RISK MANAGEMENT

I. Explanations on capital adequacy ratio

As of 30 September 2015, the unconsolidated capital adequacy ratio is 12.04 % (31 December 2014: 13.24 %).

1. The risk measurement methods used in the determination of capital adequacy ratio

The calculation of the capital adequacy ratio is performed in accordance with "Regulation on Measurement and Assessment of Capital Adequacy of Banks" which was published in the Official Gazette No. 28337, dated 28 June 2012. In the calculation of capital adequacy ratio, the data prepared from accounting records in compliance with the current legislation are used.

The items deducted from the equity in the calculation of the shareholders' equity are not included in the calculation of risk-weighted assets, non-cash loans and contingent liabilities. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

Credit risk is calculated by using Standardized Approach the CSA simple method. Cash risk amount is classified in accordance with Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy of Banks". Risk weights are applied as per "Regulation on Measurement and Assessment of Capital Adequacy of Banks-Annex 1" after applying the risk mitigation techniques in accordance with the "The Regulation on Credit Risk Mitigation Techniques".

In the calculation of the value at credit risk for the non-cash loans and commitments such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables" published in the Official Gazette No. 26333, dated 1 November 2006, The net amounts are then multiplied by the rate of; if the risk is high one hundred percent, if the risk is medium fifty percent if the risk is medium/low twenty percent and if the risk is low zero percent; reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy of Banks" and weighted as per "Appendix-1 of the Regulation on Measurement and Assessment of Capital Adequacy of Banks".

In the calculation of the value at credit risk for the derivative financial instruments, the receivables from counterparties are multiplied by the rates stated in the Article 21 and Appendix-2 of "the Regulation on Measurement and Assessment of Capital Adequacy of Banks", reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category and weighted for a second time. The risk amount related to the Bank's derivative financial instruments are calculated using the "Fair Value Method".

The Bank determines its risk profile, in accordance with the Regulation on Internal Systems of Banks, by setting the measurement criteria for credit risk, market risk, operational risk, and interest risk arising from the banking book, concentration risk, liquidity risk, reputation risk, strategic risk and the other type of risks identified at the minimum.

The Bank is developing an assessment method for internal capital adequacy utilising the concentration risks identified based on current risk profile and "Base", "Negative" "Excessively Negative" scenarios approved by the Risk Committee and also "Base" and "Negative" scenarios appointed by BRSA in its appendix of Scenarios to be applied ISEDES Report dated 31 December 2014, numbered 42233676-010-30571. According to stress test application results which is authorized in board of directors minutes dated 26 January 2015, no capital planning buffer is emerged.

II. Explanations on market risk

Whether the bank within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

In order to provide hedge against the market risk within the context of the risk management objectives, the Bank set its activities related with market risk management in accordance with "Regulations on Banks' Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 28337 dated 28 June 2012.

Being exposed to market risk, Bank's Board of Directors have defined risk management strategies and policies about risk managements in line with application and recommendation of group and have led to follow-up strategies periodically. The limits of risks are identified and these limits are revised periodically. Board of Directors ensure that risk management group and executive managers should identify, measure, control and manage the Bank's risk.

Market risk arising from trading transactions is limited through the risk appetite policy approved by Board of Directors as "low" and measured by taking into consideration BRSA's standart methodology. Additionally Financial Control Department reports the market value of daily purchases and sales and realized profit. The risk management and asset liability committee continously monitor compliance of trading transactions with the risk appetite policy. Measurements can be done with online connection with treasury front office in real time. Market risk occurred between mismatches of asset-liability maturity is also monitored through gap report.

Periodical stress tests and scenario analysis are also applied in order to reflect the effects of prospective severe market fluctuations in the VaR calculations. Risk measurement methods such as cash flow projection, gap analysis are also applied.

Capital to be kept for general market risk and specific risk are calculated by using a standard method in accordance with "Measurement and Assessment of Bank Capital Adequacy Regulation" and reported monthly.

In the calculation of the value at credit risk for the derivative financial instruments, the receivables from counterparties are multiplied by the rates stated in the Article 21 and Appendix-2 of "the Regulation on Measurement and Assessment of Capital Adequacy of Banks", reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category and weighted for a second time. The risk amount related to the Bank's derivative financial instruments are calculated using the "Fair Value Method".

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD OF
1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

2. Monthly average values at market risk

Not prepared in compliance with the Article 25 of the communiqué “Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks”.

3. Quantitative information on counterparty risk

Not prepared in compliance with the Article 25 of the communiqué “Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks”.

III. Explanations on currency risk

Position limit on currency risk is determined in line with net general position standard ratio on foreign currency. The Bank does not take foreign exchange and parity risk; transactions are usually hedged. Measurable and manageable risks are taken within legal limits.

As of 30 September 2015, the Bank's net foreign currency short position is TL 2,430 (31 December 2014: TL 549 short position) resulting from short position on the off balance sheet amounting to TL 141,466 (31 December 2014: TL 91,498 long position) and long position on the balance amounting to TL 139,036 (31 December 2014: TL 92,047 short position). “Standard Method” is used in legal reporting to measure the foreign exchange risk.

The announced current foreign exchange buying rates of the Bank at 30 September 2015 and the previous five working days in full TL are as follows:

US Dollar purchase rate as at the balance sheet date	TL 3.0009
Euro purchase rate as at the balance sheet date	TL 3.3669

Date	USD(Full Basis)	EUR(Full Basis)
22 September 2015	2.9978	3.3847
23 September 2015	3.0069	3.3602
28 September 2015	3.0069	3.3602
29 September 2015	3.0464	3.4057
30 September 2015	3.0009	3.3669

Simple arithmetic means of foreign exchange rates in September 2015 are 3.0006 TL for US dollar, and 3.3722 TL for Euro. (Full basis TL)

IV. Explanations on interest rate risk

Interest sensitivity of assets, liabilities and off-balance sheet items are evaluated weekly by considering market developments in the Asset-Liability Committee.

Standard method and asset-liability risk measurement methods are used to measure the bank's interest rate risk.

Measurements by employing the standard method are carried out monthly by using maturity ladder. Bank applies interest rate shock analysis to interest rate sensitive assets and liabilities considering historic economic crises. Change in the net present value of the net assets of the Bank are monitored within the limits set by the Board of Directors.

IV. Explanations on interest rate risk (*cont'd*)
Interest rate risk on banking book

As per the “Regulation on Measurement and Evaluation of Interest Rate Risk Resulted from Banking Book as per Standard Shock Method” published by the BRSA in 23 August 2011, the Bank analyses and reports to the Bank’s senior management the interest rate sensitivity of equity on a monthly basis by applying positive and negative shocks to the interest sensitive on balance sheet and off-balance sheet positions which are distributed into groups based on their casflows.

	Shock Applied (+ / - x bps)	Gains/ Losses	Gains / Equity - Losses / Equity
TRY	500	-98,730	%-10,16
TRY	-400	91,149	%9,38
USD	200	-43,986	%-4,53
USD	-200	26,211	%2,70
EURO	200	-30,088	%-3,10
EURO	-200	538	%0,06
Total (For Positive Shocks)		-172,804	%-17,79
Total (For Negative Shocks)		117,898	%12,14

V. Explanations on liquidity risk

The Bank diversifies its funding resources with deposits and bank borrowings to avoid the liquidity risk. Maturity compliance between assets and liabilities are monitored and liquid assets are kept to meet probable liquidity needs that might result from market fluctuations.

According to BRSA’s “Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks”; published in the Official Gazette numbered 28948, dated March 21, 2014; liquidity ratio is required to be 40 % for foreign currency assets/liabilities and 60 % for total assets/liabilities in the calculation of the bank’s weekly and monthly reporting effective from 5 January 2015. As of 25 September 2015, liquidity ratios for the current period are shown below:

	Liquiditiy Adequacy Ratio	
	FC	FC + TL
Average (%)	122.17	85.39
Max (%)	301.44	123.18
Min (%)	74.28	64.96

1 JANUARY – 30 SEPTEMBER 2015**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

V. Explanation related to the liquidity risk (cont'd)
2. Explanations on securitisation positions

The Bank does not have any securitization positions as of balance sheet date.

3. Information on credit risk mitigation techniques

The Bank does not apply any netting on balance sheet and off-balance sheet. Guarantees and derivatives are not used as credit mitigation technique; but only financial collaterals consisting of cash blockages are used.

Applications related to the valuation and management of collaterals are defined as follows: Appraisals for the mortgages that are received as collaterals are only performed by the firms that have been approved by the BRSA and licensed by the CMB. Appraisal reports for the real estate that are received as collaterals for commercial loans are renewed each year as long as the risk continues. As a rule, each year a different appraisal firm is preferred. Management of the appraisal process is carried out by the Credits Department. Vehicle pledges are followed through their insurance values. Regular investigations are performed for the cheques and bills that are received as collaterals and in case of any negative finding the Bank seeks to replace the collateral.

The Bank's guarantees are mainly composed of cheques, notes, mortgages, guarantees, vehicle pledges and deposit pledges. The Bank's credit risk concentration is mainly consists of corporate receivables and followed by receivables that are collateralized with mortgage, SME receivables and retail receivables, respectively.

Exposure Categories *	Amount	Financial Collaterals	Other/Physical Collaterals**	Guarantees and Credit Derivatives

V. Explanation related to the liquidity risk (cont'd)

4. Information on risk management objectives and policies

The Bank does not apply any netting on balance sheet and off-balance sheet. Guarantees and derivatives are not used as credit mitigation techniques; but only financial collaterals consisting of cash blokages are used.

Risk Management System refers to the Board of Directors, the Audit Committee, the Risk Management Committee, the Asset-Liability Committee and the Risk Management Department which have been composed in order to manage systemic risks that the Bank is exposed to. The Board of Directors is the owner of the Bank's Risk Management System and ensures the establishment of an effective, sufficient and appropriate risk management system as well as the continuity of the system. The main objective of the Bank's Risk Management System is to identify, measure, monitor and control the risks that the Bank is exposed to, by determining the policies, limits and procedures to control, to monitor, and if necessary to change the risk-return structure of the Bank's future cash flows and the level & the quality of related activities.

As part of the Risk Management System, the Asset and Liability Committee presentation is prepared on a weekly basis and the Risk Committee and the Board of Directors presentations are made on a monthly basis. The presentations mainly consists of the Bank's financial statements, profit and loss Analysis, Credit Risk, Market Risk, Liquidity Risk, Concentration Risk, Interest Rate Risk due to Banking Book, and Operational Risk as well as the risk that the Bank is currently exposed to or possible risks.

The Board of Directors of the Bank delegated the authorization related to the hedge accounting to the Asset and Liability Committee with the condition of providing regular information. At the same time the Bank has organised credit policies and risk mitigation policies due to credit risk. All processes of the Bank are controlled by the Bank's Internal Audit Department's control matrices regularly and are subject to supervision by the Internal Inspection Department at the same time.
